Request for Proposals

Works

(Design and Build)

(Single stage two envelope process without Initial Selection)

**Employer:** Dhaka Water Supply and Sewerage Authority

**Project:** Dhaka Sanitation Improvement Project (DSIP)

**Contract title:** Design, Build Contract for Reconstruction /New Construction/Rehabilitation of Sewerage Networks for Zone W3 & W4 (Arambagh, Paltan, Shahidbag, Motijheel etc.) (Package No.: WD5B).

**Country:** Bangladesh

**IDA Credit No.:** 6566-BD; AIIB Loan No.: L0240A

**RFP No:** WD5B

1. The Government of the People's Republic of Bangladesh has received financing from the World Bank toward the cost of the Dhaka Sanitation Improvement Project (DSIP), and intends to apply part of the proceeds toward payments under the contract for Design, Build Contract for Reconstruction /New Construction/Rehabilitation of Sewerage

Networks for Zone W3 & W4 (Package No.: WD5B). This contract will be jointly financed by Asian Infrastructure Investment Bank. Procurement process will be governed by the World Bank's Procurement Regulations.

2. Dhaka Water Supply and Sewerage Authority now invites sealed Proposals from eligible Proposers for the said package (Package No.: WD5B). The interested Proposers may visit DWASA website ([www.dwasa.org.bd](http://www.dwasa.org.bd)) to get more information.
3. The procurement will be conducted through international competitive procurement using Request for Proposals (RFP) as specified in the World Bank's "Procurement Regulations for IPF Borrowers" July, 2016, Revised November 2017, August 2018 and November 2020 ("Procurement Regulations"), and is open to all eligible Proposers as defined in the Procurement Regulations.
4. Interested eligible Proposers may obtain further information from Dhaka Water Supply and Sewerage Authority (DWASA) at the address mentioned below during office hours from 800 to 1600 hours (GMT+6) between Sunday and Thursday. A read-only copy of the RFP documents will also be uploaded in DWASA's website: [www.dwasa.org.bd](http://www.dwasa.org.bd).
5. A complete set of the RFP Document comprising 04 (four) volumes i.e., Volume 1: Part 1 & Part 3; Volume 2: Employer's Requirement; Volume 3: Conceptual Drawing; Volume 4: Supplementary Information in English may be purchased by eligible Proposers upon the submission of a written application to the address below which may be sent through email from the Proposer's official e-mail address to the Employer's email address specified below along with a copy of documentary evidence confirming electronic wire transfer or cash deposit payment of a nonrefundable fee of BDT 15,000.00 (Bangladesh Taka Fifteen Thousand) or USD 150.00 (United States Dollars One Hundred and Fifty) (the Bank Transaction Reference Number should be explicitly mentioned). The method of payment will be electronic wire transfer or cash deposit to the Employer's bank account specified below. Please clearly mention "Regarding purchase of RFP Documents for Design, Build Contract for Reconstruction /New Construction/Rehabilitation of Sewerage Networks for Zone W3 & W4 (Package Number: WD5B)" in the email's subject line. Within 3 (three) working days of receipt of the payment in the Employer's bank account, the Employer shall issue the Hard Copy of the RFP which the Proposers are advised to collect from the office of the undersigned. The soft copy of the same will also be sent through reply email. In case of discrepancy between hard and soft copy, the hard copy shall prevail.
6. A single-stage, two envelope RFP process will be used, and the Proposal will consist of (i) the Technical Part, without any reference to prices; and (ii) the Financial Part, as detailed in the RFP Document. The Technical and Financial Parts of the Proposals shall be submitted simultaneously in two separate sealed envelopes.
7. The Proposal, both the Technical Part and the Financial Part, in hard copy must be delivered to the address below on or before 1400 hours (GMT+6) of 15 March, 2023. In addition, a soft copy of the technical part of the Proposal shall also be submitted. Electronic Procurement will not be permitted. Late Proposals will be rejected. The Technical Part of the Proposals will be publicly opened in the presence of the Proposers' designated representatives and anyone who chooses to attend at the address below on 1445 hours (GMT+6) of 15 March, 2023. The Technical Part opening meeting will also be connected virtually through live video conference, for which the electronic connection link will be sent by the Employer at least two (2) calendar days before the Technical Part opening through email to all the Proposers who purchased the RFP Document and who

may choose to attend through video conference. The Financial Part shall remain unopened and will be held in safe custody of the Employer until the second public opening of the Financial Part, following the evaluation of the Technical Part of the Proposals.

8. All Proposals must be accompanied by a Proposal Security of USD 400,000 (US Dollar Four Hundred Thousand) or equivalent in any freely convertible currency in favour of Dhaka Water Supply and Sewerage Authority.
9. All Proposals must be accompanied by a Sexual Exploitation and Abuse (SEA) and/or Sexual Harassment (SH) Declaration.

## Construction of Tugel Sai Water Storage Facility

**Project ID No.:** KGZ-1022/CW/4

**Project Name:** Irrigated Agriculture Development in Issyk-Kul and Naryn Regions

**Country:** Kyrgyz Republic

**Funding Agency:** IsDB

**Last date for submission:** 10/03/2023

### Project Details:

Notice Type

IsDB Member Country Bidding

Last date of submission

10/03/2023

Tender Type

Specific Procurement Notice (Civil Works)

Email

[inprojectpmu@gmail.com](mailto:inprojectpmu@gmail.com)

Sector: Infrastructure

Type of Procurement: Procurement of Works

Mode of Financing: IsDB Loan

Financing No. KGZ-1022

1. The Kyrgyz Republic has received financing in the amount of US\$ 50.0 million from the Islamic Development Bank (IsDB) and Saudi Fund for Development ("SFD") toward the cost of the Irrigated Agriculture Development in Issyk-Kul and Naryn Regions Project and it intends to apply part of proceeds to finance payments under the contract for "Construction of Tugel Sai Water Storage Facility»

2. Project Management Unit for the Irrigated Agriculture Development in Issyk-Kul and Naryn Regions Project of the Water Resources Service under the Ministry of Agriculture of the Kyrgyz Republic now invites sealed bids from eligible bidders for submission of its proposal on KGZ-1022/CW/4 "Construction of Tugel Sai Water Storage Facility».

The construction works will include the construction of the WSF, namely the construction of the dam and the reservoir basin bowl. Construction of an operational site with a single-family house, construction of a 10kV electricity power line (8.3 km) and a 0.4 kV on-site power line.

Preparatory works are envisaged:

- Construction of a dirt road from the village to the dam site (7.5km) with pipe crossings over temporary logs;
- Passing diverted flow;
- Removal of brush and trees.

The usable capacity of the reservoir is 2.85 million m<sup>3</sup>. The dam is located 7.5 km from the existing intake structure on the Tugel Sai River. The dam is made of local soil material with a core of loam. The maximum height of the dam is 31.6m. The length of the dam along the crest is 192m.

Construction of structures on the dam is envisaged:

- Bed drainage at the base of the dam body;
- Catastrophic spillway made of monolithic reinforced concrete and discharge channel (187m);
- Operational water outlet made of steel pipes d=1600mm in two lines (255m) and gate chambers with hydromechanical equipment;
- Measuring equipment and benchmarks;
- Relocation of existing unpaved road from flooded area;
- Operational roadways.

Brief qualification requirements:

- The Bidder shall demonstrate that it has access to, or has available, liquid assets, unencumbered real assets, lines of credit, and other financial means (independent of any contractual advance payment) sufficient to meet the construction cash flow requirements estimated as 600 000.0 USD for the subject contract(s) net of the Bidders other commitments.
- Minimum average annual turnover of 3 000 000.0 USD calculated as total certified payments received for contracts in progress or completed, within the last three (3) years.

A minimum number of similar contracts specified below that have been satisfactorily and substantially completed as a prime contractor, joint venture member, management contractor or sub-contractor<sup>7</sup> between 1st January 2017 and application submission deadline: One contract of minimum value 5 000 000.0 USD.

3. Bidding will be conducted through the International Competitive Bidding limited to IsDB countries (ICB/MC) procedures, as specified in the “IsDB’s Guidelines: Procurement of Goods, Works and related services under Islamic Development Bank Project Financing, April 2019 edition (“Procurement Guidelines”), and is open to all eligible bidders as defined in the Procurement Guidelines. In addition, please refer to paragraphs 1.18 -21 setting forth IsDB’s policy on conflict of interest.

## Reconstruction and capacity expansion of the Lower Nima Drainage System

**Project ID No.:** P164330

**Project Name:** Greater Accra Resilient and Integrated Development Project

**Country:** Ghana

**Funding Agency:** World Bank

**Last date for submission:** 03/04/2023

### SPECIFIC PROCUREMENT NOTICE

#### MINISTRY OF WORKS AND HOUSING

#### Greater Accra Resilient and Integrated Development Project

**IDA Credit No.:** 64100

#### IMPROVEMENT WORKS AT NIMA DRAIN

**RFB No:** GH-MWH-286147-CW-RFB

#### Invitation for Bids (IFB)

#### International Competitive Procurement

1. The **Government of Ghana has received** financing from the World Bank toward the cost of the **Greater Accra Resilient and Integrated Development Project** and intends to apply part of the proceeds toward payments under the contract for **Drainage Improvement Works at Nima**. For this contract, the Borrower shall process the payments using the Direct Payment disbursement method, as defined in the World Bank's Disbursement Guidelines for Investment Project Financing.
2. The **Ministry of Works and Housing** now invites sealed Bids from eligible Bidders for **the partial reconstruction and capacity expansion of the Lower Nima Drainage System**. The works consist of covering the currently open channel between Paloma and Kojo Thompson road by means of a new 3.3x5.0m double cell cast-in-situ concrete box culvert. Additionally, the existing underground drain between Kojo Thompson road and its confluence in the Odaw river through the Circle interchange will be expanded (up to the interchange) and reconstructed in the last stretch.
3. Bidding will be conducted through **International Competitive Procurement** using Request for Bids (RFB) as specified in the World Bank's "Procurement Regulations for IPF Borrowers" 4th Edition November 2020 (Procurement Regulations), and is open to all eligible Bidders as defined in the Procurement Regulations.
4. Interested eligible Bidders may obtain further information from the Ministry of Works and Housing, **Mr Daniel Kusi, email: dkojokusi@gmail.com** and inspect the Bidding document during office hours **(9:00 hrs GMT-16:00 hrs GMT)** at the address **(3)** below. Clarifications may be sought at address (1) below.
5. The Bidding document in **English** may be purchased by interested eligible Bidders upon the submission of a written application to the address **(3)** below and upon payment of a nonrefundable fee of **GH¢2,000.00 (Two Thousand Ghana Cedis)** or in a freely

**convertible currency.** The method of payment will be cash or **cashier's check.** The document will be sent by Courier at an additional cost of GHC 250.00.

6. Bids must be delivered to the address **(2)** below on or before **10:00 hours GMT on 3rd April 2023.** Electronic Bidding **will not** be permitted. Late Bids will be rejected. Bids will be publicly opened in the presence of the Bidders' designated representatives and anyone who chooses to attend at the address (2) below on **on 3rd April, 2023 at 10:00 hours GMT.**
7. All bids must be accompanied by a bid security of **GHS 2,000,000.00** from a reputable bank.
8. All Bids must be accompanied by a Sexual Exploitation and Abuse (SEA) and/or Sexual Harassment (SH) Declaration.
9. Attention is drawn to the Procurement Regulations requiring the Borrower to disclose information on the successful bidder's beneficial ownership, as part of the Contract Award Notice, using the Beneficial Ownership Disclosure Form as included in the bidding document.

### SPECIFIC PROCUREMENT NOTICE

Country: Indonesia

Name of Project: The Development of Trans South-South Java Road Project, Phase II

Package: Lot 2- Bululawang – Sidomulyo – Tambakrejo

Financing No: IDN- 1053

Contract Title: Civil Works for Lot 2: Bululawang – Sidomulyo – Tambakrejo, Province of East Java

ICB Ref No.: IDN 1053

This Invitation for Bids (IFB) follows the General Procurement Notice for this project which appeared at the MPWH's website (<https://spseicb.lkpp.go.id/spseicb/>) on February 6, 2023.

The Government of Indonesia has received a financing from the Islamic Development Bank (IsDB) in the amount of United States Dollar: One Hundred and Fifty Million (USD150, 000,000) toward the cost of the Development of Trans South-South Java Road Project, Phase II, and intends to apply part of the proceeds toward payments under the contract for Package / Lot 2- Bululawang – Sidomulyo – Tambakrejo.

The Directorate General of Highways of the Ministry of Public Works and Housing (MoPWH) now invites sealed bids from eligible bidders for the construction of new paved roads of approximately 13 km long with carriageway width of 7 meters, shoulders of 2.0 -2.5 meters on both sides,

and new bridge with total length of 90 meters, for a contract duration of 1,020 calendar days, located in Blitar East Java Province. The margin of preference shall not be applied. The Bids are to be submitted following the electronic-Procurement (e-Proc) System, at the website stated at the end of this invitation.

Bidding will be conducted through the International Competitive Bidding (ICB) procedures as specified in the IsDB Guidelines for Procurement of Goods, Works and related services under Islamic Development Bank Financing (latest edition), and is open to all eligible bidders as defined in the Procurement Guidelines. In addition, bidders are to refer to paragraphs 1.18-21, setting forth IsDB's policy on conflict of interest.

Post-qualification of bidders will be required for this Package / Lot No.

Interested eligible Bidders may obtain further information about the bidding process and of the bidding documents, electronically from the Procurement Team (POKJA) – TPBJK, for Specific Goods/Services/Works for DGH at the email address below.

Bids must be delivered (uploaded) at the website stated below on or before 15.00 WIB (time) and (date) March 24, 2023. Electronic bidding will be permitted. Late bids will be rejected. Bids will be publicly opened in the presence of the bidders' designated representatives and anyone who choose to attend at the address below.

All bids must be accompanied by a "Bid Security" in a form of a Bank (Demand) Guarantee in the amount of USD 487,000.00 or equivalent to any freely convertible currency.

## Construction of new 500 kV substation “Koltsevaya”

**Project ID No.:** P171683

**Project Name:** Electricity Sector Transformation and Resilient Transmission

**Country:** Uzbekistan

**Funding Agency:** World Bank

**Last date for submission:** 07/03/2023

### Project Details:

#### Specific Procurement Notice

Request for Bids

Plant, Design, Supply and Installation

(Without Prequalification)

Employer:	JSC “National Electric Grid of Uzbekistan” (NES)
Project:	Electricity Sector Transformation and Resilient Transmission (ESTAR)
Contract title:	Construction of new 500 kV substation “Koltsevaya”.
Country:	Republic of Uzbekistan
Credit No.:	IDA-69430
RFB No:	RFB/KOLTS/2021-2
Issued on:	December, 2022

1. The Republic of Uzbekistan has applied for financing from the World Bank toward the cost of the Electricity Sector Transformation and Resilient Transmission (ESTAR) Project, and

intends to apply part of the proceeds toward payments under the Contracts for Construction of new 500 kV substation “Koltsevaya”. For this contract, the Borrower shall process the payments using the Direct Payment disbursement method, as defined in the World Bank’s Disbursement Guidelines for Investment Project Financing, except for those payments, which the contract provides to be made through letter of credit.

2. The JSC National Electric Grid of Uzbekistan (NES) now invites sealed Bids from eligible Bidders for Construction of 500 kV Substation.
3. Bidders wishing to offer discounts will be allowed to do so, provided those discounts are included in the Letter of Bid.
4. Bidding will be conducted through international competitive procurement using a Request for Bids (RFB) as specified in the World Bank’s “Procurement Regulations for IPF Borrowers” November 2020 (“Procurement Regulations”), and is open to all eligible Bidders as defined in the Procurement Regulations.
5. Interested eligible Bidders may obtain further information from JSC National Electric Grid of Uzbekistan (NEGU), Abduganiyev I. – PIU Manager ([pmu.modernization@gmail.com](mailto:pmu.modernization@gmail.com)) and inspect the Bidding document during office hours 09:00 to 17:00 hours at the address given below.
6. The Bidding document in English and/or Russian may be received by interested bidders upon submission of a written application by downloading it from the following link <https://cloud.uzbekistonmet.uz/index.php/s/4MAMYofTkm95bXq>. The document will be sent to the email indicated by Bidders in the application.
7. Bids must be delivered to the address below on or before March 7, 2023 at 11 a.m. Tashkent time. Electronic Bidding will not be permitted. Late Bids will be rejected. Bids will be publicly opened in the presence of the Bidders’ designated representatives and anyone who chooses to attend at the address below on March 7, 2023 at 11 a.m. Tashkent time.
8. All Bids must be accompanied by a Bid Security of USD 500 000.00
9. The address(es) referred to above is (are):

JSC National Electric Grid of Uzbekistan (NEGU)

Address: Yunusabad district, Osiyo Street, 42.

## Construction of Solar Powered Piped Water Supply and Sanitation Systems

**Project ID No.:** P163782

**Project Name:** Integrated Water Management and Development Project

**Country:** Uganda

**Funding Agency:** World Bank

**Last date for submission:** 16/03/2023

### Project Details:

#### MINISTRY OF WATER AND ENVIRONMENT

Invitation for Bids (IFB)

INTEGRATED WATER MANAGEMENT AND DEVELOPMENT PROJECT (IWMDP)

PROJECT ID: P163782

UGANDA

RFB No. MWE/WRKS/22-23/00008/1/2/3

Civil Works for Construction of Solar Powered Piped Water Supply and Sanitation Systems in 6 No. Rural Growth Centres (RGCs) packaged in Three (3) Lots:

- i. Lot 1: 2 no. (RGCs) Of Bugwara and Kabamba in Kagadi District
- ii. Lot 2: 2 no. (RGCs) Of Kikoora and Mwitanzige in Kakumiro District
- iii. Lot 3: 2 no. (RGCs) Of Kasese and Lwentulege in Rakai District.

1. The Republic of Uganda has received financing from the World Bank towards the cost of the Integrated Water Management and Development Project (IWMDP) and it intends to apply part of the proceeds toward payments under the contract for Civil Works for Construction of Solar Powered Piped Water Supply and Sanitation Systems in three (3) Lots
2. The Ministry of Water and Environment now invites sealed Bids from eligible Bidders for the works for the Civil Works for Construction of Solar Powered Piped Water Supply and Sanitation Systems in 6 No. Rural Growth Centres (RGCs) packaged in Three (3) Lots. The brief description of the works is as follows: as detailed below;

Lot No.	Lot 1	Lot 2	Lot 3

Lot Name	2no. (RGCs) OfBugwara And Kabamba In Kagadi District;	2 No. (RGCs) OfKikoora And Mwitanzige In Kakumiro District	2 No. (RGCs) Of Kasese And Lwentulege In Rakai District
Pumping station	Installation and Commissioning of mechanical and electrical plant consisting;  Solar powered and utility grid connected submersible pumps at 2No. pumping stations including construction of guard and pump control houses		
Pipe work			
Transmission Pipeline;	1.5Km PN 10-16 HDPE ranging in size between OD 90-160mm	3.3Km PN 10-16HDPE ranging in size between OD 90-160mm	9.6Km of PN 10-30 HDPE and DI ranging in size between OD 100-160mm
Distribution Pipeline	8.6 Km of PN 6 HDPE sizes ranging between OD 40-100mm	10 Km of PN 6 HDPE sizes ranging between OD 40-100mm	64.3 Km of PN 10-16 HDPE and uPVC sizes ranging between OD 50-110mm
Intensification pipeline	13.9 Km in HDPE sizes ranging between OD 20-40 mm	27 Km in HDPE sizes ranging between OD 20-40mm.	8.7 Km in HDPE sizes ranging between OD 25-40mm
Civil Works			
2 No. Reservoir tanks	69m3 (1No.) and 41m3 (1No.)	104m3 (1No.) and 131 m3 (1 No)	162m3 (1No.) and 121m3 (1No.)
Water supply Offices	1 No.	1 No.	1 No.

5 stance VIP Latrines	3 No.	1 No.	4 No.
6 stance Waterborne Toilet	1 No.	3 No.	2 No.
Supply and installation of a total of bulk flow meters	4 No.	4 No.	3 No.
Construction of Public Stand Posts	8 No.	12No.	30 No.
Construction of Consumer Connections	130 No.	320 No	380 No.

Further details on the above works are provided in the bidding documents. The qualification requirements are detailed in Section III of the bidding document.

A margin of preference will apply.

3. Bidding will be conducted through the International Competitive Bidding procedures using Request for Bids (RFB) as specified in the World Bank's "Procurement Regulations for IPF Borrowers - Procurement in Investment Projects Financing" (July 2016, revised November 2017 and November 2020) and is open to all eligible bidders as defined in the Procurement Regulations.

4. Interested eligible bidders may obtain further information from the Ministry of Water and Environment Head Procurement and Disposal Unit, John Kateregga on kateregga9@hotmail.com with copies to segyjp@yahoo.co.uk and okurutv@gmail.com and inspect the Bidding document during office hours from 9:00am to 5:00pm on official working days (Monday – Friday) at the address given below.

5. The Bidding Documents in English may be purchased by interested eligible bidders upon submission of a written application to the address below and upon payment of a non-refundable

fee of four hundred thousand Uganda Shillings (UGX 400,000) or the equivalent in freely convertible currency prior to submission date

The method of payment will be by Bank Payment Advice Form obtainable from the Uganda Revenue Authority (URA) website using “Other NTR” as a tax head in the form. The hard copy of the Bidding Documents in English will be available for pick up at the address mentioned in (10) and the soft copy can be accessed at <https://www.mwe.go.ug/library/tendersprocurement>

a) A pre-bid site visit conducted by the Employer will be held as per details below:

LOT	Scheme/ Supply Area	Site Visitation Date	Meeting place and Time
LOT 1	Bugwara	15/2/2023	Kiryanga Subcounty headquarters; 10.00am
	Kabamba	15/2/2023	Kabamba S/C Headquarters; 2.30pm
LOT 2	Kikoora	16/2/2023	Kakindo S/C Headquarters; 10.00a.m
	Mwitanzige	16/2/2023	Kisiita S/ Headquarters; 2.30pm
LOT 3	Kasese	17/2/2023	Kiziba Subcounty headquarters; 10.00am
	Lwentulege	17/2/2023	Kagamba S/C Headquarters; 2.30pm
	Contact		James Seguya Email: segyjp@yahoo.co.uk Tel: +256772883022

b. A pre-bid meeting will take place at the following date, time and place:

Date: 20th February, 2023

Time: 11:00 am Ugandan Time

Place: Ministry of Water & Environment Headquarters (Auditorium, 2nd Floor)

The meeting will also be available via video conferencing. A link will be shared with all registered bidders prior to the date of the meeting. Bidders who wish to attend the pre-bidding meeting virtually using an online platform shall register and submit their official email addresses at least one (1) day prior to the date of the meeting to segyjp@yahoo.co.uk with copy to okurutv@gmail.com

6. Bids must be delivered to the address below on or before 11:00 am Ugandan time on 16th March, 2023. Electronic bidding will not be permitted. Late bids will be rejected. Bids will be publicly opened in the presence of the bidders' designated representatives and anyone who chooses to attend at the address below at 11:05 am Ugandan Time on 16th March, 2023

7. All bids must be accompanied by a Bid Security of:

LOT 1: UGX 150,000,000 (Uganda Shillings: One Hundred Fifty Million) or its equivalent in freely convertible currency

LOT 2: UGX 190,000,000 (Uganda Shillings: One Hundred Ninety Million) or its equivalent in freely convertible currency

LOT 3: UGX 220,000,000 (Uganda Shillings: Two Hundred Twenty Million) or its equivalent in freely convertible currency

8. All Bids must be accompanied by a Sexual Exploitation and Abuse (SEA) and/or Sexual Harassment (SH) Declaration

9. All Bids must be accompanied by Forced Labor Performance Declaration and a Forced Labor Declaration

10. Attention is drawn to the Procurement Regulations requiring the Borrower to disclose information on the successful bidder's beneficial ownership, as part of the Contract Award Notice, using the Beneficial Ownership Disclosure Form as included in the bidding document

11. The address (es) referred to in 4. 5. and 6. Above is;

**Country:** Morocco

**Funding Agency:** IsDB

**Last date for submission:** 29/03/2023

### Project Details:

Equipment Design Supply-Assembly of Installations (Without pre-qualification) - Realization of a 225/60 KV digital substation intended for the training and development of the expertise of Transport personnel

Notice Type International Competitive Tender [Open]

Last date of submission 29 March 2023

Tender Type Specific Procurement Notice (Civil Works)

Project code MOR140

Project title: Electricity Transmission and Distribution Network Development Project

Emailarchich@onee.ma

Call for tenders - Equipment

Design

Supply-Assembly of Installations

(Without pre-qualification)

Kingdom of Morocco

Electricity Transmission and Distribution Network Development Project

Funding No.: MOR140

Realization of a 225/60 KV digital substation intended for the training and development of the expertise of Transport personnel (including training services for trainers on the equipment installed)

AO No. SR4120334

The National Office for Electricity and Drinking Water – Electricity Branch (ONEE-BE)

has received financing from the Islamic Development Bank (IsDB) to finance the Transmission and Distribution Network Project, and intends to use part of this financing to make payments under the Contract relating to the realization a 225/60 KV digital substation intended for training and developing the expertise of Transport personnel (including train-the-trainer services on the equipment installed.

ONEE-BE is soliciting closed offers from eligible bidders who meet the qualifications required for the construction of a 225/60 KV digital substation intended for the training and development of the expertise of Transport personnel.

This project consists in the realization of a digital VHV / HV station for educational purposes composed mainly of:

Starting bay 225 KV,

Single JDB 225KV,

225/60 KV transformer bay,

Single JDB 60KV,

Starting bay 60 KV,

BT digital slices,

Numerical control system,

Auxiliary Services,

Digital training modules and training of trainers,

The project site will be the Center for Electricity Science and Technology (CSTE) located at Boulevard Kahrabaa, Route 110 km 9.5 Ain Sebaâ, Casablanca, Morocco.

The deadline for carrying out the services in question is set at fourteen (14) months.

No national preference will apply.

Bidders wishing to participate in this call for tenders must meet the following requirements:

Justify having market experience as a main contractor, member of a consortium, contractor or subcontractor over the past ten (10) years;

Justify having carried out as Main Contractor, Group Member, assembler, or subcontractor, a contract relating to the construction of an electrical substation with a minimum voltage of 60 kv, during the ten (10) years, for a minimum amount of US\$2,600,000.00 (Two Million Six Hundred Thousand United States Dollars);

Have an average annual turnover of at least US\$5,500,000.00 (Five million Five hundred thousand US Dollars over the last three (03) years;

Have liquid assets or have access to unencumbered assets or lines of credit, etc. other than the possible start-up advance, necessary for the execution of the works subject of this Invitation to Tender up to US\$ 1,000,000 (One million US dollars)

The bidding procedure will be International Competitive Bidding (ICB) as defined in the Guidelines for the Procurement of Goods, Works and Related Services Financed by the IsDB, September 2018, (the “Guidelines”) , and open to all bidders from eligible countries as defined in the Guidelines. Prospective candidates are also advised to read Clauses 1.18 to 1.21 of these Guidelines regarding IsDB rules relating to conflicts of interest.

Interested and eligible Bidders can obtain information from ONEE-BE by sending their requests to Mr. ARCHICH Brahim by e-mail at the following e-mail address: archich@onee.ma. And read the Call for Tenders documents at the address mentioned below:

ONEE-BE, Supply and Markets Department

65, Rue Othmane Ben Affane, Casablanca, Morocco.

The offices are open from 9 a.m. to 4 p.m. (Moroccan time).

The French-language Apple Tender File can be downloaded free of charge from the Moroccan Public Markets Portal at the following address:  
<https://www.marchespublics.gov.ma/pmmp/>.

The Tender Dossier can be sent electronically free of charge to any interested bidder by submitting a written request to the following address:  
archich@onee.ma.

Tenders must be delivered to the address below [1] no later than March 29e

## Construction of twenty-six (26) solar power plants

**Project ID No.:** (PA-PUDC)

**Project Name:** Construction of twenty-six (26) solar power plants

**Country:** Senegal

**Funding Agency:** AfDB

**Last date for submission:** 27/03/2023

### Project Details:

**Purchaser:** Emergency Community Development Program (PUDC)

Project: Project to Support the Community Development Emergency Program (PA-PUDC)

**Contract title:** Construction of twenty-six (26) solar power plants in the regions of Fatick, Kédougou, Kolda, Matam, Tambacounda, Sédhiou and Ziguinchor

**Country:** Senegal

**Loan No.:** 2000200003052

**Method of procurement:** International Open Tender (AOIO) AOIO: T\_ PUDC\_ 090

The Government of Senegal has received funding from the African Development Bank (AfDB) hereinafter referred to as the Bank to finance the Project for Support to the Emergency Community Development Program (PA – PUDC), and intends to use part of this loan to carry out payments under the contract for the construction of twenty-six (26) power plant solar panels in the regions of Fatick, Kédougou, Kolda, Matam, Tambacounda, Sédhiou and Ziguinchor. For this Contract, the Borrower will make the payments using the Direct Payment disbursement method, as defined in the Bank's Guidelines for Disbursements under the Financing of Investment Projects.

The Emergency Community Development Program Support Project (PA-PUDC) solicits sealed bids from bidders eligible for the construction of twenty-six (26) solar power plants, i.e. electrification by solar power plants of 30 kWp, 35 kWp, 55 kWp and 110 kWp in twenty-six (26) villages located in the regions of Fatick, Kédougou, Kolda, Matam, Tambacounda, Sédhiou and Ziguinchor in a single lot for a period of seventeen (17) months from the notification of the service order of startup.

A preparatory meeting will be held on March 6, 2023 at 10.30 a.m. at Salle de

Meeting of the PUDC located in Almadies, Route du King Fahd Palace, Immeuble Faalo. No margin of preference will be granted.

The Bidder must demonstrate its qualification by meeting the following criteria:  
To. Experiences

1. E  
Each bidder must have general experience of eight (08) years minimum (since 2015);
2. E  
Each bidder must have completed two (02) procurement contracts similar nature and complexity of a minimum amount CFAF 3,200,000,000;

The contracts must have been carried out during the last seven (07) years (2016 to 2022) and justified by certificates of good performance signed by the contracting authority and highlighting the year of completion and place, the consistency of the work, their Rising.

b. Financial capacity:

i. Each bidder must provide its financial statements from 2019, 2020 and 2021 financial years certified by a chartered accountant approved by ONECCA or any other equivalent organization for foreign bidders and must be accompanied by the certification report. However, any bidder having the certified 2022 financial statements available can attach them in his file;

ii. Each bidder must have achieved a turnover annual average of 4,050,000,000 FCFA over the years (2019– 2020-2021-2022);

iii. Each bidder must have a credit line of one amount of 675,000,000 FCFA granted by an approved bank by the Minister of Finance and Budget or by a bank foreigner having a representative in Senegal approved by the Minister Finance and Budget; vs. Technical capacity, each bidder must provide:

I. For staff, the following profiles are required:- one (01) project manager: electromechanical engineer or equivalent with an experience of at least 10 years- two (02) conductors of electromechanical works: senior technicians in electromechanics or equivalent with an experience of at least 05 years- two (02) supervisors of civil engineering works: senior technicians in civil engineering or equivalent with an experience of at least 05 years- two (02) team leaders: electromechanical BT or equivalent with an experience of at least 3

years- one (01) health, safety and environment (HSE) manager with a levelmaster's degree with at least 05 years' experience

\*Attach the curriculum vitae dated and signed by the person concerned and the tendered, the legalized copies of diplomas and the signed certificate of availability.

ii. For the material, it is required:

The Bidder must establish that it has the following key material:

- 20 m3 semi-trailer trucks, water tanks of at least 10 m3, concrete mixers of 200 liters minimum, generators of at least 10 KVA, equipment topographic, apparatus for earth measurements, ohmmeters, pliers amperometric, load bank for a power of 75 kVA;

For the details of the personnel and equipment criteria see appendix A in the file tender.

3. The procedure will be conducted by open international competition in using an Open Invitation to Tender (AOIO) as defined in the Framework Bank Procurement<sup>2</sup> entered into in October 2015 and open to all bidders from eligible countries as defined in the Procurement Framework steps.

4. Interested and eligible Bidders may obtain information with the procurement manager of the Emergency Program of Community Development (PUDC) located in Almadies, Route du King Fahd Palace, Email: dieynaba.baradji@pudc.gouv.sn; lamine.diop@pudc.gouv.sn; And read the tender documents during working hours from 8:30 a.m. to 1:30 p.m. and from 2:30 p.m. to 5:00 p.m. (GMT time) at the Building SCI FAALO on the 1st floor (Procurement Office).

5. The French-language Bidding Documents may be purchased by any interested bidder by submitting a written request to the address below against a non-refundable payment of one hundred thousand (100,000) CFA francs.

A copy will be available for consultation on site. The method of Payment will be by check or in person. The tender dossier will be acquired by withdrawal from the PUDC procurement office on the 1st floor of the SCI FAALO Building located in Almadies on the King Fahd Palace Road and by email.

6. Bids should be delivered to the address below: Office of the Markets of the PUDC on the 1st floor of the SCI FAALO Building located in Almadies on the Route du King Fahd Palace no later than March 27, 2023 at 11:10 a.m. GMT.

There Submission of bids electronically will not be permitted. Offers Late submissions will not be accepted. Tenders will be opened in presence of representatives of tenderers and persons present at Address: PUDC meeting room

on the ground floor of the SCI Building FAALO located in Almadies on the Route du King at 11:15 a.m. GMT on the **27<sup>th</sup> March 2023**.

7. Tenders must be accompanied by a tender guarantee for an amount of sixty-five million (65,000,000) CFA francs; The guarantee must come from a bank or a surety company approved by the Minister of Finance and Budget or by a bank or a surety company foreign companies with a representative in Senegal approved by the Minister of Finance and Budget and remain valid for twenty-eight (28) days from the expiry of the period of validity of the offers which is 120 days.

**Project ID No.:** P172225

**Project Name:** Federated States of Micronesia Prioritized Road Investment and Management Enhancements Project

**Country:** Micronesia

**Funding Agency:** World Bank

**Last date for submission:** 03/03/2023

## **Project Details:**

### **REQUEST FOR EXPRESSIONS OF INTEREST**

(CONSULTING SERVICES – FIRMS SELECTION)

**COUNTRY:** Federated States of Micronesia

**NAME OF PROJECTS:** Prioritized Road Improvements and Management Enhancement Project (P172225) (PRIME) and Strategic Climate-Oriented Road Enhancement Project (P177073) (SCORE)

**Assignment Title:** Consultancy for Design, Environmental and Social Assessment, and Supervision Services for Vulnerability Assessment-identified works

**Reference No.:** FM-DOTCI-320298-CS-QCBS

The Federated States of Micronesia has secured financing from the World Bank toward the cost of the FSM Prioritized Road Improvements and Management Enhancement Project (PRIME) and the Strategic Climate-Oriented Road Enhancement Project (SCORE) and intends to apply part of the proceeds for consulting services.

The scope of this consulting assignment will involve undertaking field investigations and surveys, options analysis, preparing designs and procurement documentation, and providing procurement assistance and construction supervision of improvements as well as environmental and social requirements and activities in accordance with the ESMF and ESMP and the World Bank ESF to VA/CRRS identified road network assets in each of the four states – Pohnpei, Chuuk, Yap and Kosrae. Road Network Vulnerability Assessment and Climate Resilient Road Strategy (VA/CRRS) outputs – the detailed scope of this design and supervision assignment will be generally determined by the outputs of a VA/CRRS Assessment currently underway.

The scope of PRIME and SCORE projects will not include any works that would involve relocation of housing, permanent severe impact on livelihoods, or land acquisition involving severe loss of land holdings. All roads are single carriageway and any increase in the width of road formations will be limited to (i) lane widening to meet current design standards, (ii) addition of shoulders, (iii) addition of longitudinal drainage where required, (iv) accommodation of existing and new underground and/or overhead utilities; and (v) widening of fill embankments and/or cuttings to reduce slopes. Works will be informed by Road Safety Audits and designed with appropriate safety measures that consider all road users. Interventions are expected to include measures to strengthen climate resilience, including but not necessarily limited to:

- Pavement and surface strengthening – periodic maintenance, repairs, rehabilitation or reconstruction of identified project road pavement layers and/or surfacing, including provision of sealed shoulders and raising road levels;
- Drainage improvements —provision, reinstatement and/or lining of longitudinal drainage, replacement and/or increasing capacity of cross drainage culverts, improving open or covered outfalls, provision of subsoil drainage and cut-off drains;
- Spot slope stabilization –widening and/or reducing slope of cuttings and fill embankments to reduce landslip risk, soil bioengineering and biotechnical stabilization techniques, and anchoring of unstable rock slopes;
- Rock wall revetment improvements (new or upgraded) – for protection of coastal road sections;
- Improvements to causeways and bridges – repairs or reconstruction of identified project crossings and/or provision of new crossings to provide safe, all-weather access for vehicles and pedestrians; and

The services to be provided by the Consultant will be undertaken in a 2-stage approach as follows:

Stage 1 – Field investigations, surveys, preliminary and detailed design, procurement documentation & procurement assistance

1.1: Consultations, field assessments, surveys and site investigations, concept designs and costs of feasible improvement options.

1.2: preliminary engineering design.

1.3: detailed design and procurement documentation.

1.4 Environmental and social assessment and preparation of relevant documents.

and

1.5: provision of assistance to state authorities during the procurement process.

1.6: presentation of preliminary design to local community and landowners adjacent to proposed works.

Stage 2 –Construction supervision and works contract(s) administration

2.1: supervision of construction and administration of contract(s); and

2.2: defects liability / notification period and finalization of works contract(s).

Two separate consulting services contracts will be signed between the parties to cover this assignment; a lump-sum contract to cover the full Stage 1 services, and a separate time-based contract to cover the full Stage 2 services. It is expected that the assignment will be completed within Forty Two (42) months of commencement (Stage 1- 12 Months and Stage 2- 30 Months) and is expected to require eighty-five (85) Key Person-Months of professional input.

To obtain the Terms of Reference (TOR) for this Expression of Interest stage of the assignment you are encouraged to write to the Project Manager at [trevor.delandro@tci.gov.fm](mailto:trevor.delandro@tci.gov.fm) or the Project Officer at [eileen.loyola@tci.gov.fm](mailto:eileen.loyola@tci.gov.fm).

The Department of Transportation, Communication and Infrastructure (DoTC&I) now invites eligible consulting firms ("Consultants") to indicate their interest in providing the Services. Interested Consultants should provide information demonstrating that they have the required qualifications and relevant experience to perform the Services. The shortlisting criteria are:

1. General experience in the core areas of design and construction supervision (a minimum of 10 years' experience will be required)
2. Experience on similar assignments as per the Terms of Reference (at least 3 similar assignments over the past 10 years of which at least 1 assignment should be in a small island developing state)
3. Proof of technical, managerial and financial capacity of the firm
4. Experience in the pacific region is desired

The attention of interested Consultants is drawn to Section III, paragraphs, 3.14, 3.16, and 3.17 of the World Bank's "Procurement Regulations for IPF Borrowers" Forth Edition, November 2020 ("Procurement Regulations"), setting forth the World Bank's policy on conflict of interest.

Consultants may associate with other firms to enhance their qualifications but should indicate clearly whether the association is in the form of a joint venture and/or a sub-consultancy. In the case of a joint venture, all the partners in the joint venture shall be jointly and severally liable for the entire contract, if selected.

A Consultant will be selected in accordance with the Quality and Cost Based Selection Method (QCBS) set out in the World Bank's Procurement Regulations.

Further information can be obtained at the address below during office hours 0900 to 1700 Pohnpei Time (Local Time).

Expressions of interest must be delivered in a written form to the address below (in person, or by mail, or by e-mail) by Friday March 3rd 2023

**Consultancy services (firm) to carry out studies to strengthen the interurban road Bouaké – Bouandougou – Tiéningboué (125 km)**

**Project ID No.:** P178362

**Project Name:** Cote d'Ivoire Inclusive Connectivity and Rural Infrastructure Project

**Country:** Cote d'Ivoire

**Funding Agency:** World Bank

**Last date for submission:** 02/03/2023

**Project Details:**

GREATER ABIDJAN PORT-CITY INTEGRATION PROJECT (PACOGA)

WORLD BANK GROUP IN COTE D'IVOIRE

MINISTRY OF ROAD EQUIPMENT AND MAINTENANCE

This Notice for Expression of Interest follows the General Tender Notice DB No. WB10217-127 18 published in the "Business Development" of December 14, 2018.

The Government of the Republic of Côte d'Ivoire is considering a loan from the International Development Association (IDA) and the Asian Infrastructure Investment Bank (AIIB) to finance the Inclusive Connectivity and Rural Infrastructure Project in Ivory Coast (PCR-CI). Part of these financial resources will be used to pay for the contract for consultancy services (firm) to carry out studies to strengthen the interurban road Bouaké – Bouandougou – Tiéningboué (125 km).

The detailed Terms of Reference (TORs) of the mission can be downloaded from the following website: <https://www.prici.ci/up/2302182242.pdf>

The PRICI Coordination Unit (CC-PRICI) invites eligible candidates to express their interest in providing the services described above. Interested firms must provide a file including a letter of expression of interest and relevant information indicating that they are qualified to perform the services requested (brochures, certificates of good performance concerning the performance of similar contracts, experience under similar conditions, years of construction, costs, customers). Each of the experiences cited by the consultant (firm) must be justified by certificates of good performance (ABE). Firms can join forces to strengthen their respective skills.

Skills and qualifications of the consultant (firm):

The Consultant must be a consulting firm with solid experience in services similar to the current assignment, particularly in the Sahelian or sub-Saharan areas. He must thus have a minimum experience of ten (10) years and have carried out in Sahelian or sub-Saharan Africa, in a satisfactory manner, similar studies (studies for the reinforcement/rehabilitation of paved roads).

6. It is brought to the attention of the consultants (firm) that the provisions of paragraphs 3.14; 3.16; and 3.17 of Section III of: "Procurement Regulations for Borrowers seeking Investment Project Financing (REITs)", version of July 2016, revised in November 2017, August 2018 and October 2020 relating to the rules of the World Bank in matters of conflict of interest are applicable.

7. The consultant (firm) will be recruited on the basis of the Quality and Cost-Based Selection (QBSC) procedures defined in the new Guidelines for the selection and employment of consultants by World Bank borrowers, July version 2016, revised in November 2017, August 2018 and October 2020.

8. Interested consultants (firms) can consult the ToRs at the address below: "See point 9 of this CEI".

9. The date for submitting Expressions of Interest (DMI) files is set for Thursday, March 02, 2023 at 11:00 a.m. (local time) at the address below: PRICI Coordination Unit (CC-PRICI) -

located in Deux-plateaux – Vallon, city LEMANIA, lot 1802 - 08 BP 2346 ABIDJAN 08 – Ivory Coast

## Consultancy services for rural road upgrading in kogi state

**Project ID No.:** P163353

**Project Name:** Nigeria Rural Access and Agricultural Marketing Project

**Country:** Nigeria

**Funding Agency:** World Bank

**Last date for submission:** 15/03/2023

### Project Details:

Kogi state rural access and agricultural marketing project (raamp)

Reouest for expressions of interest (reoi) for design and supervision consultancy services for rural road upgrading in kogi state

Reference no: kg/raamp/rr/04/1

Project id: 63353

The Federal Republic of Nigeria, through the Federal Ministry of Agriculture and Rural Development, has received financing from the World Bank and the L'Agence Française de Développement (French Development Agency or AFD) and on-lent the financing to thirteen participating States (namely Abia, Akwa Ibom, Bauchi, Kano, Katsina, Kebbi, Kogi, Kwara, Ondo, Ogun, Oyo, Plateau and Sokoto) toward the cost of Rural Access and Agricultural Marketing Project (RAAMP). It is intended that part of the proceeds of the financing will be applied to eligible payments under the contract for Consulting Services.

The Consulting Services ("the Services") includes;

Carrying out Planning, design (preliminary/detailed) and supervision of upgrading of roughly 150 to 160 km of rural roads to all-weather bitumen-surface standards, including cross-drainage structures on them, using a design-build method (about 20% of total road length) and remainder length using conventional FIDIC contract method following GON/IDA's guidelines which incorporates Environment, Social, Health and Safety (ESHS) measures;

Supervising and assisting SPIU/ILO in the supervision of construction works to ensure that these are executed in accordance with the General and Particular conditions of Contract, the Technical Specification, Engineering Drawings;

Providing necessary support and advice to SPIU in optimizing the use of available material resources to minimize costs, achieving desirable work quality and expediting construction activities;

Assisting SPIU in ensuring that works/contracts are constructed/completed within the agreed price and allocated time under the contract or any subsequent agreed amendments.

The Services are expected to extend over a period of 30 months, involving approximately 12 key persons as required in the TOR;

The detailed Terms of Reference (TOR) for this assignment will be made available on request at the address given below.

The Kogi State Rural Access and Agricultural Marketing Project (RAAMP) now invite eligible consulting firms ("Consultants") to indicate their interest in providing the Services. Interested Consultants should provide information demonstrating that they have the required qualifications and relevant experience to perform the Services.

The shortlisting criteria are:

Satisfactory experience of the firm in Project Preparation

Activities such as (i) Social and Environmental Safeguards (ii) Preparation of detailed Engineering Design and Technical Specifications (iii) Procurement Support (iv) project management support, and Construction Supervision of Roads;

Demonstration of effective organizational/managerial structure and availability of suitably experienced and qualified key personnel relevant to the assignment.

All interested firms are to submit the following documents;

i. Evidence of registration with Corporate Affairs Commission (CAC); ii. Evidence of Company's current tax clearance certificate for the last three (3) years (2019, 2020 and 2021 iii. Company audited account for the last three (3) years (2019, 2020 and 2021) duly stamped; iv. Well detailed company profile with managerial and technical structure, office address and functional contact details

v. For Joint ventures, Memorandum of Understanding must be attached.

Verifiable records establishing evidence of experience in design and supervision consultancy services for rural road upgrading of up to 10 references or more similar assignments;

Evidence of similar experience supported under multilateral donor Agency like The World Bank, AFD, AfDB, etc in the previous 10 years

Evidence of Firm's/Consortium regional work experience in similar field within Nigeria and or Sub-Saharan Africa.

The attention of interested Consultants is drawn to Section III, paragraphs, 3.14, 3.16, and 3.17 of the World Bank's "Procurement Regulations for IPF Borrowers" November 2020 ("Fourth edition Procurement Regulations"), setting forth the World Bank's policy on conflict of interest.

Consultants may associate with other firms to enhance their qualifications, but should indicate clearly whether the association is in the form of a joint venture and/or a sub-consultancy. In the case of a joint venture, all the partners in the joint venture shall be jointly and severally liable for the entire contract, if selected.

A Consultant will be selected in accordance with the Quality and Cost Based Selection (QCBS) method set out in the Procurement Regulations.

Further information can be obtained at the address below during office hours 0900 to 1700 hours.

Expressions of interest must be delivered in a written form to the address below (in person, or by mail, or by e-mail) by 15th March

**REQUEST FOR EXPRESSIONS OF INTEREST**

(CONSULTING SERVICES – FIRMS SELECTION)

**COUNTRY** : Malawi

**PROJECT** : Skills for a Vibrant Economy (SAVE)

**LOAN NO. CREDIT NO.** : IDA – 68910

**ASSIGNMENT TITLE** : Consultancy Service to design and supervise Construction of Entrepreneurs Training and Incubation Centre ETIC

**REFERENCE NO** : MW-MZUNI-312346-CS-QCBS

The Mzuzu University through the Ministry of Education has received a grant from the World Bank towards the cost of the Skills for A Vibrant Economy (SAVE) Project to construct an Entrepreneurs Training and Incubation Centre (ETIC) for Energy and ICT and intends to apply part of the proceeds for consultancy service.

The consultancy services include production of preliminary and detailed construction designs, cost estimates, and full construction management of the project in order to realise a quality and efficient implementation of the Entrepreneurs Training and Incubation Centre (ETIC) Project at Mzuzu University, Luwanga Campus. The detailed designs and cost estimates are expected to be produced within 90 days after commencement while the supervision of construction works is planned for 18 months excluding the defects liability period.

The detailed Terms of References (TORs) for the assignment can be found at the following websites: [www.mzuni.ac.mw](http://www.mzuni.ac.mw); [www.ppda.mw](http://www.ppda.mw); or could be accessed on request at the address provided below.

Mzuzu University now invites eligible consulting firms (“Consultants”) to indicate their interest in providing the Services. Interested firms should provide information demonstrating that they have the required qualifications and relevant experience to perform the services. The shortlisting criteria are:

1. Core business of the firm(s) and years in business.
2. Relevant experience, which should specifically include the following:
  - Experience in production of preliminary and detailed construction designs similar to ETIC;

- Experience in production of cadastral and topographic surveys of the plots and produce location plans to be used for the design of ETIC;
- Experience in production of accurate and detailed as built drawings using latest AutoCAD software;
- Experience in conduction of both public procurement and World Bank tender processes, contract negotiations up to contractor mobilization and demobilization

3. Technical and managerial capability of the firm (Provide only the structure of the organization, general qualifications, and number of key staff. (Do not provide CV of the staff). Key Experts will not be evaluated at the shortlisting stage).

The attention of the interested consultants is drawn to section III, paragraphs 3.14, 3.16. and 3.17 of the World Bank's "Procurement Regulations for IFP Borrowers" dated November 2020 ("Procurement Regulations"), setting forth the World Bank's policy on conflict of interest.

Consultants may associate with other firms to increase their qualifications but should indicate clearly whether the association is in the form of a joint venture JV and/or a sub-consultancy. In the case of a JV, all the partners shall be jointly and severally liable for the entire period of the contract if they are selected

A consultants will be selected in accordance with the consultants' qualifications based on the "Quality and Cost Based Selection (QCBS)" method as set out in the World Bank's Procurement Regulations.

Further information can be obtained at the address below during office hours from 07:30 to 16:30 hours local time.

Expressions of Interest marked, "Consultancy Service to design and supervise Construction of Entrepreneurs Training and Incubation Centre ETIC", must be delivered in a written form to the address below (in person, or by mail or by e-mail) on or before 24th February 2023.

## Supervision of works at the mocuba business center

**Project ID No.:** P171664

**Project Name:** Economic Linkages for Diversification

**Country:** Mozambique

**Funding Agency:** World Bank

**Last date for submission:** 03/03/2023

### Project Details:

Project Coordination Unit

ECONOMIC LINKS PROJECT FOR DIVERSIFICATION (PLED)

#### REQUEST FOR EXPRESSIONS OF INTEREST

#### (CONSULTING SERVICES - COMPANY SELECTION)

HIRING OF CONSULTANCY SERVICES FOR REVIEWING, UPDATING THE EXECUTIVE PROJECT AND SUPERVISION OF WORKS AT THE MOCUBA BUSINESS CENTER, PROVINCE OF ZAMBEZIA

Identification: Donation IDA no. D810-MZ

Subject: Hiring Consultancy Services for Reviewing, Updating the Executive Project and Supervising the Works of the Business Center of Mocuba, Province of Zambézia

Contest no. MZ-MEF-DNT-337476-CS-CQS.

1. The Government of Mozambique (GdM), through the Ministry of Economy and Finance, received funding from the World Bank for the cost of the Economic Links for Diversification Project (EL4D/PLED) and intends to apply part of the resources in Consulting Services for Review, Updating of the Executive Project and Supervision of Works for the Mocuba Business Center in Zambézia Province. Beneficiary: Zambezi Valley Development Agency (ADVZ).

2. Consulting services ("Services") include:

Review and update the existing executive project, technical drawings, technical specifications, including carrying out all structural calculations, map of quantities and cost estimate for the completion of the building;

Elaborate the executive project of a cafeteria with space for around 100 people;

Elaborate the computer network project for the entire building;

Elaborate the design of the audio visual and sound system for the conference room/amphitheater;

Prepare bidding documents and support the Client in the contract bidding process;

Supervise the works. The Consultant will act as a Construction Inspector with the authority and responsibilities defined in the contracts and specifications of works. Day-to-day supervision of on-site works and contract management activities shall be carried out in accordance with the Conditions of Contract and local legislation, including the World Bank's framework of environmental and social standards.

Detailed terms of reference (TOR) for the Consultancy can be found at the address below or can be provided upon request to the following email: [procurement.pled@gmail.com](mailto:procurement.pled@gmail.com).

3. The Ministry of Economy and Finance (MEF) invites eligible consulting firms ("Consultants") to indicate their interest in providing the Services. Interested consultants must provide information demonstrating that they have the required qualifications and relevant experience to provide the services. The evaluation criteria for the Short List are as follows:

Be a civil engineering consulting firm, with at least 10 years of experience in civil engineering, including project design and construction supervision of multipurpose commercial buildings;

Have proven specific experience in the preparation of executive projects (architecture, structure, hydraulics, electricity, air conditioning systems, drainage, etc.), for the construction of multiple-use buildings;

Have proven experience in developing at least 5 (five) similar projects, especially in Mozambique, or in developing African countries, especially in the SADC region;

Be fully experienced with national and World Bank environmental and social norm documents and standards;

Be fully experienced with World Bank procurement documents and FIDIC construction contract conditions.

At this stage the Key Team will not be evaluated for the Short List.

4. Interested Consultants' attention is drawn to Section III, paragraphs 3.14, 3.16 and 3.17 of the World Bank's "Procurement Regulations for IPF Borrowers",

November 2020 ("Procurement Regulations"), which sets out the policy of the World Bank on conflict of interest.

Consultants may associate with other firms to enhance their qualifications, but must clearly indicate whether the association is in the form of Association/ or subcontracting. In the case of Associates, all members will be jointly and severally liable for the entirety of the contract, if selected.

5. The consultant will be selected in accordance with the selection method based on Qualifications of the Consultant (CQS) set out in the World Bank Procurement Regulations.

6. More information can be obtained at the address below, during office hours from 8.30 am to 3.30 pm.

7. Expressions of interest must be delivered in writing to the address below (in person, or by email), by March 3, 2023, 2:30 pm.

URBAN MOBILITY PROJECT IN THE METROPOLITAN AREA OF MAPUTO

Grant No.: IDA-V374-MZ

REQUEST FOR EXPRESSIONS OF INTEREST

No. 12/CONS/MMAUMP/22

Supervision of the building rehabilitation works for the maputo metropolitan area urban mobility project (pmuamm)

The Government of Mozambique, represented by the Ministry of Transport and Communications, received funding from the World Bank to prepare the Urban Mobility Project in the Maputo Metropolitan Area (PMUAMM) and intends to use part of the funds in hiring a consultant for the Inspection of Rehabilitation works for the Project's office building.

Consulting services include, but are not limited to: supervision and control of all rehabilitation works, on-site follow-up and monitoring of all civil construction works carried out within the scope of building rehabilitation; guarantee that the deadlines for carrying out the agreed work are met, guarantee of technical quality control, certification of monthly construction invoices issued by contractors and confirmed by engineers at the project site, provision of information to the Client and all interested parties on the stage of works and issue of provisional and final certificates for delivery of works.

The Ministry of Transport and Communications invites all eligible consultants to present their expression of interest to provide the services described above. Interested consultants must provide information demonstrating the fact that they are qualified to carry out the services contained in the terms of reference (general experience of the company, including demonstration of inspection work);

Consultants will be selected in accordance with the Qualification Based on Consultant Selection (CQS) procedures as set out in the World Bank's Procurement Regulations for IPF Borrowers" of November 2020.

Interested consultants can obtain more information at the address below from 8:30 am to 3:00 pm and expressions of interest must be submitted to the address below by February 24, 2023

## Consulting services for proposed construction works at the slated HSSP facilities

**Project ID No.:** JA – L1049

**Project Name:** Support for the Health System Strengthening for The Prevention and Care Management of NonCommunicable Disease Programme

**Country:** Jamaica

**Funding Agency:** Inter-American Development Bank

**Last date for submission:** 20/02/2023

### Project Details:

The Government of Jamaica, through the Ministry of Health and Wellness, has received financing from the InterAmerican Development Bank (IDB), toward the cost of the Support for The Health System Strengthening for The Prevention and Care Management of Non-Communicable Disease Programme, and intends to apply part of the proceeds for consulting services.

The consulting services ("the Services") are for a consulting firm to engage a highly experienced and relevant consulting firm who will be able to carry out Waste Water Assessment for proposed construction works at the slated HSSP facilities, prepare site-specific Waste Water Treatment Plans and Costings based on Assessment findings in compliance with the MOHW (Ministry of Health and Wellness) & IDB (Inter-American Development Bank) and European Union (EU) Policies. The consultancy will have duration of 6 months. The detailed Terms of Reference is available on the Government of Jamaica electronic procurement page at <https://www.gojep.gov.jm>.

The Ministry of Health and Wellness now invites eligible consulting firms ("Consultants") to indicate their interest in providing the Services. Interested Consultants should provide information demonstrating that they have the required qualifications and relevant experience to perform the Services. The firm should meet the following criteria:

Qualifications / Experience of the Firm -The Firm must have:

Demonstrated experience of organizing large-scale Waste-water treatment studies and designs within the past five (5) - ten (10) years

Minimum five (5) years demonstrated capacity and experience in planning and implementing Waste-water treatment systems for the Government of Jamaica

Consultants will be selected according to the procedures set out in the Inter-American Development Bank: Policies for the Selection and Contracting of Consultants financed by the Inter-American Development Bank GN-2350-9 and is open to all eligible bidders defined in the policies.

Consultants may associate with other firms to enhance their qualifications but should indicate clearly whether the association is in the form of a joint venture and/or a sub-

consultancy. If selected, all the partners in the joint venture shall be jointly and severally liable for the entire contract in the case of a joint venture.

A Consultant will be selected in accordance with the Quality-and-Cost Based Selection (QCBS) set out in the IDB's Policies.

Expressions of interest (EOI) must be delivered via the government electronic procurement portal at <https://www.gojep.gov.jm> by 4:00 P.M. February 20, 2023. EOI will be opened online at 4:15 P.M., February 20, 2023. Therefore, firms are urged to commence upload at least two (2) hours prior to the submission time. The Procuring Entity will not be held liable for EOIS not submitted on time due to the late commencement of the upload. Firms must contact the Office of Public Procurement Policy at the FIRST SIGN of any technical difficulties: (876) 806-4581806-4581.

All firms who wish to participate in this tender opportunity must first be registered on GOJEP at [www.gojep.gov.jm](http://www.gojep.gov.jm). To register, please select the "Register as a supplier" link from the GOJEP system's home page. For assistance regarding training, registration, download of tender documents and upload of tender proposals, please contact the Ministry of Finance, the Office of Public Procurement Policy Customer Care Desk at (876)932-5220/932-5246/932- 5253/ 806-4581/ 806-4581/ or e-mail at [opppcustomercare@mof.gov.jm](mailto:opppcustomercare@mof.gov.jm).

Further information can be obtained at the address below during office hours, Monday to Friday at 9:00 A.M. to 4:00 P.M.:

Support for the Health Systems Strengthening for the Prevention and Care Management of NonCommunicable Diseases (NCDs) Programme Ministry of Health and Wellness Attn: The Procurement Management Specialist IBM Building 3rd Floor, 52 Knutsford Boulevard, Kingston 5. ## Standard technical specifications for highway construction

**Project ID No.:** 0569

**Project Name:** Central Asia Regional Economic Cooperation Corridors 2, 5, and 6 (Dushanbe–Kurgonteppa) Road Project

**Country:** Tajikistan

**Funding Agency:** Asian Development Bank

**Last date for submission:** 21/02/2023

### Project Details:

#### Objective and Purpose of the Assignment

The Government of Tajikistan has requested the Asian Development Bank's (ADB) assistance to improve transportations of CAREC corridors 2, 5, and 6 by upgrading the Dushanbe Kurgonteppa road, for which ADB has programmed two projects in 2016 and 2018. The first project that improved 33 km of the road from Dushanbe to Chashmasoron was approved on 31 October 2016 and completed on 31 July 2022. The second project was approved on 27 March 2018 and focuses on improving an approximately 40-km section of the 82 km Dushanbe-Kurgonteppa road from Chashmasoron to Kurgonteppa. The second project scheduled for completion by 31 December 2023. Within the second project (Additional Financing) consulting assignment for development/updating of specifications are being provided that will improve the technical specifications of the road industry.

#### Introduction

1. With ADB and other development partner assistance the Government of Tajikistan is undertaking a major program of improving the country's primary highway network. The agency responsible for the network is the Ministry of Transport (MOT).
2. These improvement activities have been financed as a series of separate projects, with civil works generally implemented by international contractors supervised by teams of international and I. national consultants. Referring to the ADB-financed projects specifically, the civil works have been implemented under FIDIC Conditions of Contract, the relevant MDB version. The supervision consultants have been the Engineer for these contracts, as defined in the Conditions of Contract.  
Civil works procurement documentation has followed the ADB's sample bidding documents for large civil works contracts, in particular for the commercial provisions – Instructions to Bidders, Conditions of Contract, standard forms and schedules, etc. The current version of this documentation can be found on the ADB website .
3. The Employer's requirements of this documentation include drawings, technical specifications, special provisions, Bills of Quantities (BOQs), and others that are project specific. These Terms of Reference refer to the technical specifications and to the Bills of Quantities that relate to them.
4. Most of the completed and ongoing road improvement projects make use of a set of highway construction technical specifications that were developed with ADB assistance in the early 2000s for use on ADB and other development partner financed road projects. They were based on the 1993 edition of the AASHTO Guide Specifications for Highway Construction. Since the specifications were prepared many aspects of highway construction have changed, the

controlling Conditions of Contract have been amended several times, and Tajikistan's road management agency, the MOT, has very significantly increased its capacity in managing roadworks undertaken through ADB and other development partner assisted projects.

5. Reflecting these factors, it is now necessary to prepare a replacement for the original technical specifications. This activity, to which these Terms of Reference apply, is to be done by a team of international and national consultants (the consultant) provided by a firm, and selected by MOT in accordance with the provisions of ADB's Procurement Policy (2017, as amended from time to time) and Procurement Regulations for ADB Borrowers (2017, as amended from time to time).

6. The consultant will undertake the following broadly defined tasks, and such other related tasks as MOT might require:

(i) Review the existing technical specification, and all the subsequent road project specifications that have been based on it, most of which have introduced amendments to or clarifications of the original document, to the extent that much of the logic of the specifications has been lost;

(ii) assess the suitability of relevant international technical specifications for highway construction, including the up to date version of the AASHTO Guide Specifications for Highway Construction;

(iii) discuss with MOT, ADB and other relevant agencies the likely nature of future road project operations, to include standard major highway improvement projects, periodic maintenance implemented by national contractors for example performance based maintenance approaches, and other modalities if relevant;

(iv) prepare a draft technical specification that will:

a. Be consistent with the current FIDIC-based Conditions of Contract (FIDIC Red Book (2017) that are for ADB and other development partner financed road construction projects;

b. Provide for all likely types of work that would-be part of typical road construction projects—earthworks, tunnels, pavements, structures, traffic facilities, environmental impact management, and others as appropriate;

c. Contain appropriate measurement and payment provisions for each of the work types;

d. Reflect current best international practices for such projects;

(v) Prepare a draft template BOQs that are compatible with the draft technical specification, and are substantially less complex than the BOQs now in use, in terms of numbers of work items, descriptions of the work items, etc;

(vi) Arrange workshops and discussion groups to introduce the draft documents to MOT, government agencies involved with procurement activities (to include the Ministry of Finance, the State Committee, and others as appropriate), and to ADB and other interested development partners;

(vii) On the basis of feedback from these workshops and discussions, prepare final draft versions of the documents for comment and, after receiving comments on them, prepare them in final form;

(viii) Assist MOT with obtaining formal Government approval of the documents, if this is required, so that they may be adopted for all future ADB and other development partner financed projects and, to the extent possible, for MOT's own budget financed.

### **Schedule**

7. It is anticipated that the consultant will be selected by the end of March 2023, and will commence the assignment by the end of April 2023. The assignment duration will be approximately 4 months.

### **Outputs**

8. The outputs of the assignment will be as set out above. In addition, the consultant will prepare brief progress reports each month, for submission to MOT and ADB.

### **V. Consultant's Expertise**

9. The consultant will be headed by a Team Leader, who will be a civil engineer with at least 15 years of relevant experience in preparing and implementing, as a supervising consultant or as a contractor, contracts for major road construction contracts. Relevance for this assignment will include extensive experience on projects in countries with similar institutional and physical characteristics to those present in Tajikistan, financed by ADB or similar international financing agencies.

10. The Team Leader will manage inputs provided by relevant international and national technical specialists as the consultant considers necessary for the assignment. The determination of appropriate expertise will be at the discretion of the consultant, but is likely to include road and pavement works, road structures, road-related environmental impact management, road safety, and others.

11. The Team Leader's input, of 4 person-months, will be full time in Dushanbe, with visits to project sites as appropriate. The inputs of the technical specialists will be about 4 person-months for international team members, generally working in the consultant's home office, and about 8 person-months for national specialists, in Dushanbe.

### **MOT Support**

12. MOT will provide the consultant with (i) furnished office accommodation in MOT's office in Dushanbe, and (ii) copies of documents, contracts, and reports as necessary. The consultant will provide, through its contract, (i) a vehicle with driver for the duration of the assignment; (ii) all computer, communications, and other facilities necessary; (iii) venues for

workshops and discussion group meetings; and (iv) all international and national travel requirements.

### **Consultant Engagement**

13. MOT with assistance of PIURR will select the Construction Supervision Consultant (CSC), in accordance with the procedures set out in ADB's procurement Policy and Regulations (2017, as amended from time to time). Consulting services will be engaged using Full Technical Proposal (FTP) procedures based on quality and cost-based selection (QCBS) method following Procurement Regulations for ADB Borrowers (2017, as amended from time to time), and ADB Procurement Policy (2017, as amended from time to time) with a quality: cost ratio of (90:10). The contract will be Lump Sum. The provisions of ADB's Anticorruption Policy will be included in all invitation documents and contracts for consultants.

### **Reporting, Deliverables, and Payment**

14. All reports will be submitted in English and Russian in hard copy to the MOT and PIURR (3 copies and 1 copy respectively) and in electronic form as PDF files through an appropriate large file transfer application.

15. The contract is a lump-sum, and the payment milestone will be linked with the above reports.

Payment Phases	Activity
Tasks	Delivery by:
Milestone Payment 1 (25%)	Inception
Report	1 Month after mobilization
Milestone Payment 2 (25%)	Draft technical specification, with all
necessary documents according to the ToR	2 Month after mobilization Milestone
Payment 3 (25%)	Final draft versions of the documents for
comment and, after receiving comments on them, prepare them in final form	
Within 3 months after mobilization Milestone Payment 4 (25%)	
Approval technical specification	Within 4 months after mobilization

## Consultancy Service for Reconstruction and Upgrading of M39 Road 1255-1315 km

**Project ID No.:** UZB-0086

**Project Name:** Reconstruction and Upgrading of M39 Road 1255-1315 km

**Country:** Uzbekistan

**Funding Agency:** IsDB

**Last date for submission:** 01/03/2023

### Project Details:

#### REQUEST FOR EXPRESSIONS OF INTEREST

#### (CONSULTANT SERVICES – SELECTION OF FIRMS)

Country: Republic of Uzbekistan

Name of Project: Reconstruction and Upgrading of M39 Road 1255-1315 km

Name of Sector: Transport

CONSULTING SERVICES: Detailed Design Review and Construction Supervision Consultant

Mode of Financing: Instalment Sale

Financing No. UZB-0086

The Republic of Uzbekistan has received financing from the Islamic Development Bank toward the cost of the Reconstruction and Upgrading of M39 Road 1255-1315 km, and intends to apply part of the proceeds for consultant services.

The services include Detailed Design Review and Construction Supervision for abovementioned project which will be implemented through three civil works contracts with an estimated construction duration of 36 months for each Lot with 24 months for Defect Liability Period (DLP). The consultant is expected to be on board twelve months before contractors' mobilization (Detailed Design Review/Road Safety Audit – 6 months plus Procurement Support to the EA and PIU – 6 months). It is assumed that the total involvement of the consultant / duration of the contract will be 72 months. The consultant must calculate and propose the necessary personnel and the period of their involvement for the DLP

The consulting services will involve, but not be limited, to assistance in preparation of Bidding Documents for Construction and help through Evaluation process, assistance in procurement of Weigh in Motion Systems, to review the detailed design of the project and validation of final 'issued for construction' (IFC) drawings, supervision and certification of all the works under the civil works contracts, civil works contracts administration, road safety audit, assistance and training in benefit monitoring and evaluation of project, assistance in increasing the employer's capacity for evaluation Safeguards measures and prevention activities (ESHS) within the

framework of International and national policies and procedures, transfer of knowledge for road maintenance, application and development of toll roads. Expected start date of assignment is Q3,2023, ensuring full consistency with the TOR attached to this REOI.

The detailed Terms of Reference (TOR) for the assignment are attached to this request for expressions of interest.

The “Avtoyulinvest” Agency under the Road Committee of the Republic of Uzbekistan as implementing agency now invites eligible consulting firms (“Consultants”) to indicate their interest in providing the services. Interested Consultants must provide specific information which demonstrates that they are fully qualified to perform the services (brochures, description of similar assignments, experience in similar conditions, availability of appropriate skills among staff, etc.).

The short listing criteria are:

1. Technical competence – (Experience in projects of this kind over the past 10 years), including:
  - Experience in the development of project and tender documentation in the road sector;
  - Experience in contract administration and construction supervision in the road construction sector;
  - Project management and supervision of the construction of highways with rigid pavement (cement concrete pavement) under the terms of FIDIC Red Book CoC
2. Work experience within the IFI/FGFO on project management and technical supervision over the past 10 years;
3. Geographical competence: Experience in the country or in the region (CIS) in the road construction industry over the past 10 years;

The attention of interested Consultants is drawn to Paragraphs, 1.23, and 1.24 of the Guidelines for Procurement of Consultant Services under Islamic Development Bank Project Financing (the “Procurement Guidelines”), setting forth IsDB’s policy on conflict of interest which is available on the Bank’s website at <https://www.isdb.org/project-procurement/documents>

Consultants may associate with other firms to enhance their qualifications, but should indicate clearly whether the association is in the form of a joint venture and/or a sub-consultancy. In the case of a joint venture, all the partners in the joint venture shall be jointly and severally liable for the entire contract, if selected.

A consultant will be selected in accordance with the QCBS-MC method with shortlist of firms from IsDB Member Countries set out in the Procurement Guidelines.

Interested consultants may obtain further information at the address below during office hours 09:00 to 18:00 hours (Tashkent time).

Expressions of interest must be delivered in a written form to the address below (in person, or by mail (example DHL), or by e-mail) by March 1, 2023.

## Supervision of the stabilization of irrigation infrastructure

**Project ID No.:** P-LR-AA0-010

**Project Name:** Design, Review and Construction/Rehabilitation Supervision of the stabilization of irrigation infrastructure for Rice and Fish cultivation in lowland areas across three (3) counties (River Gee, Maryland and Grand Gedeh) in Liberia.

**Country:** Liberia

**Funding Agency:** African Development Bank

**Last date for submission:** 20/02/2023

### Project Details:

Sector: agriculture

Grant Number:5570155001001

Reference No.: MoA/SADFONS/QCBS/C1/001/22

1 The Government of Liberia, through the Ministry of Agriculture (MoA) has received grants from the Global Agriculture Food Security Program (GAFSP) of the World Bank Group and the African Development Fund of the African Development Bank (AfDB) to finance the Smallholder Agriculture Development for Food and Nutrition Security (SADFONS) Project. The Project intends to apply part of the proceeds toward the contracting of a firm for the Design, Review and Construction/Rehabilitation

Supervision of the stabilization of irrigation infrastructure for Rice and Fish cultivation in lowland areas across three (3) counties (River Gee, Maryland and Grand Gedeh) in Liberia.

2. The services included under this project are: Provide technical services to assist the SADFONS project, ensure that the Works Contractor is effectively supervised for implementation of the Project, ensure that the Contractor executes all works under the project according to specifications and in conformity with the contract or works agreement, protect and secure the interest of the SADFONS Project and to advise the SADFONS on all issues pertaining to the successful execution of the contract including cost control measures and value – for-money assurance, provide oversight of Environmental and Social Management Services, including quality of works, health and safety performed by the Works Contractor and ensure formal training and instruction is obtained from the Works Contractor by the Owner(s) of the project in the operation and maintenance of the works.

3. The duration of the contract is estimated at Ten (10) Months.

4. The MoA/SADFONS Project now invites eligible consultant supervision of the Construction/Rehabilitation of stabilization of irrigation infrastructure to indicate their interest in providing these services. Interested consultants must provide information indicating that they are qualified to perform the services (brochures, description of similar assignments, experience in similar conditions, availability of appropriate skills among staff, etc.). Consultants may constitute joint-ventures to enhance their chances of qualification. The Firms that are part of an international network must submit a single expression of interest

5. The Firms shall be shortlisted based on the following criteria:(To)General experience in supervision or design of infrastructure over the past five (5) years;(b)specific experience in engineering supervision of the stabilization of irrigation infrastructure projects in the past5years;(vs)experience in donor-funded irrigation infrastructure projects in Liberia/sub-African Sahara;(d) availability of appropriate skills among staff(e)logistics resources and equipment including project monitoring software(g)ability to produce reports and all other relevant documents in English demonstrating consulting/firm ability

**NB: Each reference will be summarized on a project sheet with all supporting documents indicated the contact in training of the contracting authorities so as to facilitate verifications of the information provided: Excerpts of Contract (inner cover page and page with the signatures) or Attestation of good performance from Governments or Regional Organizations executed projects ONLY.**

6. Eligibility criteria, establishment of the short-list and the selection procedure shall be in accordance with the African Development Bank's "Procurement Policy and Methodology for Bank Group funded Operations" (BPM), dated 2015, which is available on the Bank's website at <http://www.afdb.org>.

7. Interested consultants can obtain further information at the e-mail addresses mentioned below during working hours: 9:00am–5:00pm, Liberian Time, Mondays through Fridays (except public holidays):[dwiagbe@moa.gov.lr](mailto:dwiagbe@moa.gov.lr)with copy to [mkamara@moa.gov.lr](mailto:mkamara@moa.gov.lr)and [randbfassah@moa.gov.lr](mailto:randbfassah@moa.gov.lr)

8. Expressions of Interest must be delivered in a written form (one (1) signed original plus four (4) copies)in person OR electronically to the address below, not later thanMonday,20thFebruary2023at 11:00 a.m.LiberianTime and must be clearly marked: "Expressures of Interest (EOI) for the Consultancy Services for the Design, Review and Construction/Rehabilitation Supervision of the stabilization of irrigation infrastructure for Rice and Fish cultivation in lowland areas.

## **Supervision Services for the Construction and Rehabilitation of Urban Arteries Designated**

**Project ID No.:** P175322

**Project Name:** Maputo Metropolitan Area Urban Mobility Project

**Country:** Mozambique

**Funding Agency:** World Bank

**Last date for submission:** 28/02/2023

### **Project Details:**

**REPUBLIC OF MOZAMBIQUE**

**MINISTRY OF TRANSPORTS AND COMMUNICATIONS**

**MOBILITY PROJECT IN THE METROPOLITAN AREA OF MAPUTO**

Grant No.: IDA-V374-MZ

**REQUEST FOR EXPRESSIONS OF INTEREST**

**N° 11/CONS/MMAUMP/23**

**Supervision services for the construction and rehabilitation of urban arteries designated “quick wins” for maputo municipality area**

The Government of Mozambique, represented by the Ministry of Transport and Communications, has received funding from the World Bank to prepare the Urban Mobility Project in the Maputo Metropolitan Area (PMUAMM). The PMUAMM aims to improve mobility and accessibility along selected corridors in the Maputo Metropolitan Area (AMM). The project will be implemented in the area encompassing the District of Marracuene; the Municipality of Maputo City; Municipality of Matola City and Municipality of Boane Village, and it intends to apply part of this for the payments under the contract for Consultancy Services concerning the development of the **Supervision Services for the Construction and Rehabilitation of Urban Arteries Designated “Quick Wins” for Maputo Municipality**. The following is the list of urban arteries included:

- Avenida Samora Machel and Rua do Bagamoyo;
- Avenida da ONU;
- Avenida 24 de Julho, between Praça 16 de Junho and Avenida da Zâmbia

The consulting services include, but are not limited to:

Ensure that the work is carried out in accordance with the Detailed Design and the approved budget contained in the contract;

Ensure that the work is carried out within the contractually established deadlines;

Ensure that the work is supervised in accordance with the procedures and rules in force in the country, including the good practices defined in the SATCC rules and PDUL guidelines;

Collect and guarantee the availability of all documentation related to the works, in the continuous file of the contract;

Define the locations of the Work's signboards;

The Ministry of Transport and Communications now invites eligible consulting firms ("Consultants") to indicate their interest in providing their services for the above assignment. Interested Consultants should provide information demonstrating that they have the required qualifications and relevant experience to perform the Services. The shortlisting criteria are: (i) overall experience of the company, (ii) experience in Mozambique and similar working environments, and (iii) similar works done.

Consultants will be selected in accordance with of the World Bank's "Procurement Regulations for IPF Borrowers" of November 2020;

For further information, interested can contact during office hours (8:00 am to 3:00 pm) and electronically at the addresses below.

Expressions of interest must be submitted in Portuguese or English at the addresses below, by February 28, 2023.

**Ministério dos Transportes e Comunicações**  
**Agência Metropolitana de Transportes**

22/2017/2018**

**CONSTRUCTION, OPERATION AND MAINTENANCE OF MUNICIPALITY**

**KUWAIT MUNICIPALITY**

The Central Agency for Public Tenders hereby draws the attention of all tenderers that a pre- tender meeting shall be held at 10.00 a.m. on Monday 13.2.2023 at the Kuwait Municipality – Al Masael Area.

**CORRIGENDUM TENDER NO.  
RFP-2053043**

**CONSTRUCTION OF TWO NEW 132 KV SUBSTATION AND  
POWER LINES IN NORTH KUWAIT AND 33 POWER LINES  
KUWAIT OIL COMPANY**

A visual pre-tender meeting shall be held at 10.00 a.m. on 12.2.2022 through Microsoft Teams program, the desirous companies to participate shall send email comprising purchase receipt and emails of authorized persons to attend the meeting to RPandya@kockw.com, and copy to NTarkait@kockw.com maximum 2 persons for each company at least 3 days before the meeting date.

## Learning from the best - How Japanese construct buildings that survive earthquake

There is one country which is decades ahead of the rest of the world when it comes to making its buildings resilient. Japan is world-renowned for its earthquake-proof buildings. With feats of modern engineering, Japan's earthquake proof buildings have helped the country cope with numerous powerful quakes that would have been calamitous in other, less well-prepared countries.

Resilient construction is now firmly on the agenda right around the world. Whether it's floods in Europe, wildfires in Australia, hurricanes in the United States or rising sea levels in South Asia, architects, engineers and governments are accelerating efforts to protect infrastructure from natural and manmade disasters.

So, how can we make buildings earthquake-proof, Japanese-style, and what can other nations learn from the country's experience?

Why is Japan a leader in earthquake proof buildings?

Japan's finesse at designing earthquake-proof buildings is born largely of necessity. The island nation sits on what is known as the Pacific Ring of Fire, a zone where the Eurasian, Pacific and Philippine tectonic plates are forced beneath one another. This enormous pressure periodically results in a huge release of energy – resulting in the archipelago's earthquakes.

Japan has suffered earthquakes throughout its history, with one of the worst being the Great Kanto Earthquake of 1923. The quake reached 7.9 on the Richter scale, devastated Tokyo and Yokohama and killed over 140,000 people.

After WWII, the Japanese government introduced a series of increasingly strict measures to force builders to make earthquake proof structures (this was especially important as buildings were growing taller). Japan's earthquake proof building standards are as follows:

**Taishin:** This is the minimum requirement for earthquake resistant buildings in Japan, and mandates that beams, pillars and walls be of a minimum thickness to cope with shaking.

**Seishin:** The next level of earthquake-proof buildings in Japan, Seishin is recommended for high rise buildings. It uses dampers that absorb much the energy of an earthquake. Essentially, layers of thick rubber mats are placed on the ground below the foundations, thereby absorbing tremors.

**Menshin:** This is the most advanced form of earthquake proof buildings in Japan, and also the most expensive. The building structure itself is isolated from the ground by layers of lead, steel and rubber which move independently with the earth below. This means the building itself moves very little – even during the most severe quakes.

Common earthquake-proof features in Japanese buildings

Depending on the location and purpose of the building, Japanese architects may pick and choose between many other earthquake proof building features including:

- The use of a steel frame in the building's core – as opposed to the reinforced concrete core common in Western structures

- The use of diagonal dampers, steel beams and columns rather than concrete columns

- Pendulums in the core or on the roof of the building

- Dampers installed between the levels of the building

- Mesh structures to help to fortify the building

- Made-to-break T-joints

- Many new buildings are also connected to the country's early warning system, which alerts inhabitants of an oncoming quake

- Use of fall-away doors which provide more ways to escape

- Covered lights to protect people in case light bulbs explode

While smart and energy-efficient buildings tend to grab headlines, in countries like Japan where earthquakes are a regular event, these important factors are often downgraded to 'nice-to-haves' behind the need for structural stability.

It's no secret that a building's foundations are critical to its resilience, and with earthquakes and other natural disasters seemingly happening more frequently than ever, the demand for resilient buildings is also growing.

Japan's proximity to the Pacific 'Ring of Fire' and all its seismic activity has contributed to the country's strict building codes for skyscrapers and towers. Thanks in part to materials that are flexible and shock-absorbent as well as modern tools to test and analyze the performance of a building, the architecture and engineering seen in Japan is among the most resilient in the world, with even some older buildings retrofitted to make them more earthquake-resistant.

This dedication to structural stability has made Japan a prime example of an earthquake-ready country.

#### Examples of Japan's earthquake-proof buildings

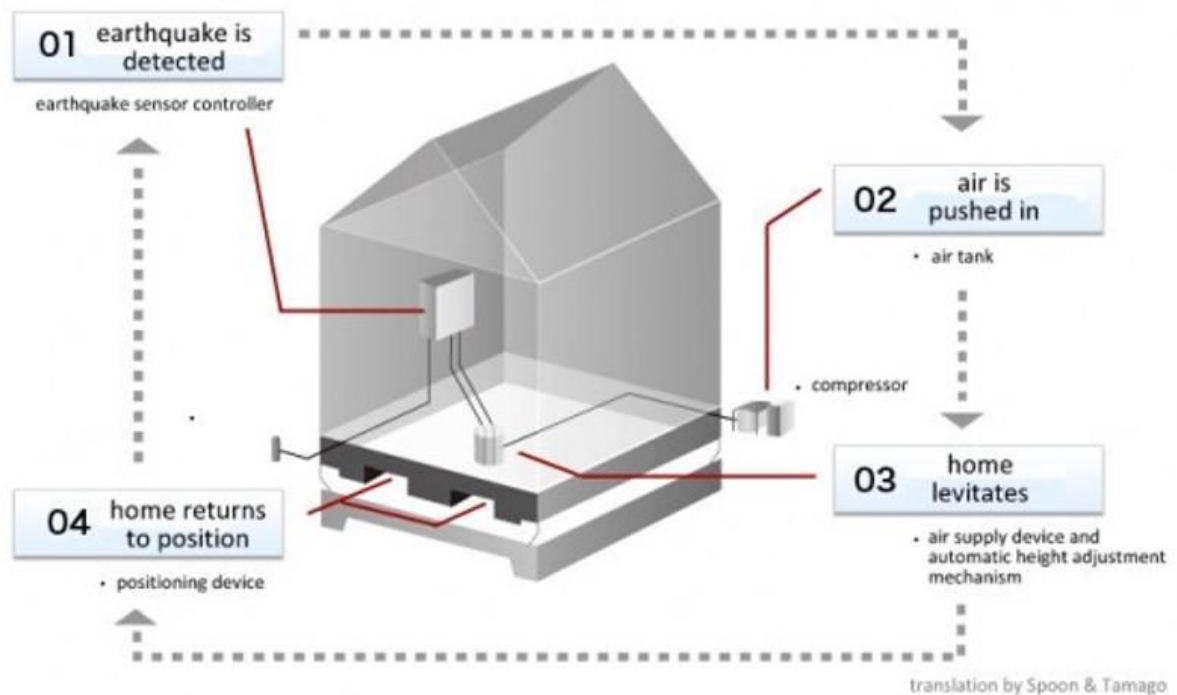

All buildings in Japan today must conform to the country's strict earthquake proof building codes. Here are some examples of innovative structures that meet the standards:

## Shinjuku Mitsui Building

Absorbing the power of earthquakes is not only something to think about on new builds. In the example of the Shinjuku Mitsui Building, also in Tokyo, several 300-tonne pendulums were retrofitted on the skyscraper's roof. The pendulums rock back and forth during a quake which helps counteract the building's side-to-side movement.

## Air Danshin's 'floating' homes

Japanese company Air Danshin has created a unique solution to the problem of earthquakes: levitation! The residential homes are fitted out with a quake detector. If it registers a tremor, a compressor pushes air into a space beneath the building, lifting it one to three centimeters from the building's foundation. This makes it impossible for the building to shake and therefore helps avoid damage.

## Mori Tower

Photo credit: Dick Thomas Johnson under Creative Commons

The 54-story Mori Tower is located within the Roppongi Hills complex in Tokyo. Its earthquake-resistant features include reinforced steel piping and a motion-absorbing technology called oil dampers. The dampers used in the building are semi-active and consists of 192 shock absorbers which are filled with thick oil. When the building shakes during an earthquake, the dampers counterbalance the shaking with the oil sliding in the opposite direction to minimize the tremors.

## Tokyo Skytree

Photo credit: Manish Prabhune under Creative Commons

The Tokyo Skytree is a television and radio transmitter and observation tower located in Sumida, Tokyo. Completed in 2012, it stands at 2,080 feet and takes its design inspiration from the root system of a giant tree. It has a tripod base with a central pillar connected by flexible oil dampers to the first 125 meters. The central pillar acts as a counterweight which allows the outer frame to vibrate in the event of an earthquake; a damping system keeps the tower's center of gravity close to the base. The foundations are also designed to be resilient to earthquakes, with four clusters of walled piles and steel-reinforced concrete nodes reaching 164 feet below the ground to give the tower a firm footing.

## Ark Hills Sengokuyama

Photo credit: Rs1421 (Own work) via Wikimedia Commons

This is a mixed-use building in Tokyo that uses the same damping technology to make it earthquake-proof. Steel plates are installed in the cavities between each floor. These plates are attached to the upper wall of the cavities and the lower wall is fitted with oil dampers. During an earthquake, the plates move through the oil dampers which creates a resisting force against the seismic activity.

## fa-bo

Photo credit: [ecobuildingpulse.com](http://ecobuildingpulse.com)

found in Noma City in the Ishikawa Prefecture, fa-bo is an office and laboratory building of Komatsu Seiren, a Japanese textile firm. The three-story office building is enveloped by a curtain of 1,031 braided carbon fiber rods which extend from the roof and are fastened to the ground at various angles. The rods are tough and flexible and capable of protecting the building in the event of an earthquake. Inside this curtain of rods is another layer of 2,778 rods that add stability to the building.

When there is an earthquake and the building shifts from side to side, the rods stretch and pull it back to prevent it from shaking.

## Television House

Photo credit: architizer.com

Situated in the Osaka Prefecture, Television House is a private home designed to be earthquake-resistant. It is integrated with a seismic isolation system and load bearing arrangement that keeps the building steady during earthquakes. The house sits on a podium with elevated structural beams and a concrete base which acts as the ground floor. A hollow base serves as the entrance to the house. The isolators enable the house to be separated from any ground tremors.

## Silent guardians

The high rises of Tokyo, Osaka and Yokohama dominate the cityscapes around them. The towers give the impression of being as immovable and steadfast as a human-made structure can be.

These towers are the fixed backdrop to daily urban life in Japan, as they are in any large and developed city in the world. While people and traffic bustle around them, they are fixed and still – the pins that hold the rest of the hectic city together.

It takes an earthquake to reveal that perspective to be an illusion. In Japan, skyscrapers have to be able to move.

The Kyushu highway in April 2016 (Credit: Getty Images)

## Continuous threats

The 2011 Tohoku earthquake is known as one of the most devastating in recent times. But it was just one of many seismic events that strike Japan each year.

The Japanese archipelago rests along the Pacific Ring of Fire, at the margins of the Eurasian, Philippine and Pacific tectonic plates. At the margin, one tectonic plate is forced beneath the other, causing a build-up of extraordinary pressures. An earthquake is the release, sending vibrations strong enough to raze an ordinary city to the ground.

Here we can see the Kyushu highway, damaged by a 6.4-magnitude quake in 2016.

The Great Kanto Earthquake of 1923 (Credit: Getty Images)

## Setting the bar

But the tower blocks of Japan are not ordinary buildings. All buildings – even if they are small or temporary structures – must be resilient to earthquakes in the country, says Jun Sato, a structural engineer and associate professor at the University of Tokyo.

There are two main levels of resilience that engineers work towards: the first is to withstand smaller earthquakes, the type that a building might see three or four times in its lifespan in Japan. For this magnitude, any damage that requires repair is not acceptable. The building should be so well designed that it can escape these earthquakes unscathed.

The second level of resilience is withstanding extreme earthquakes, which are rarer. The bar is set by the Great Kanto Earthquake of 1923. This was a large earthquake – of magnitude 7.9 – that devastated Tokyo and Yokohama, and killed more than 140,000 people.

For earthquakes of a greater magnitude than this benchmark, preserving buildings perfectly is no longer the goal. Any damage that does not cause a human casualty is acceptable.

“You design buildings to protect people’s lives,” says Ziggy Lubkowski, a seismic specialist at University College London. “That’s the minimum requirement.”

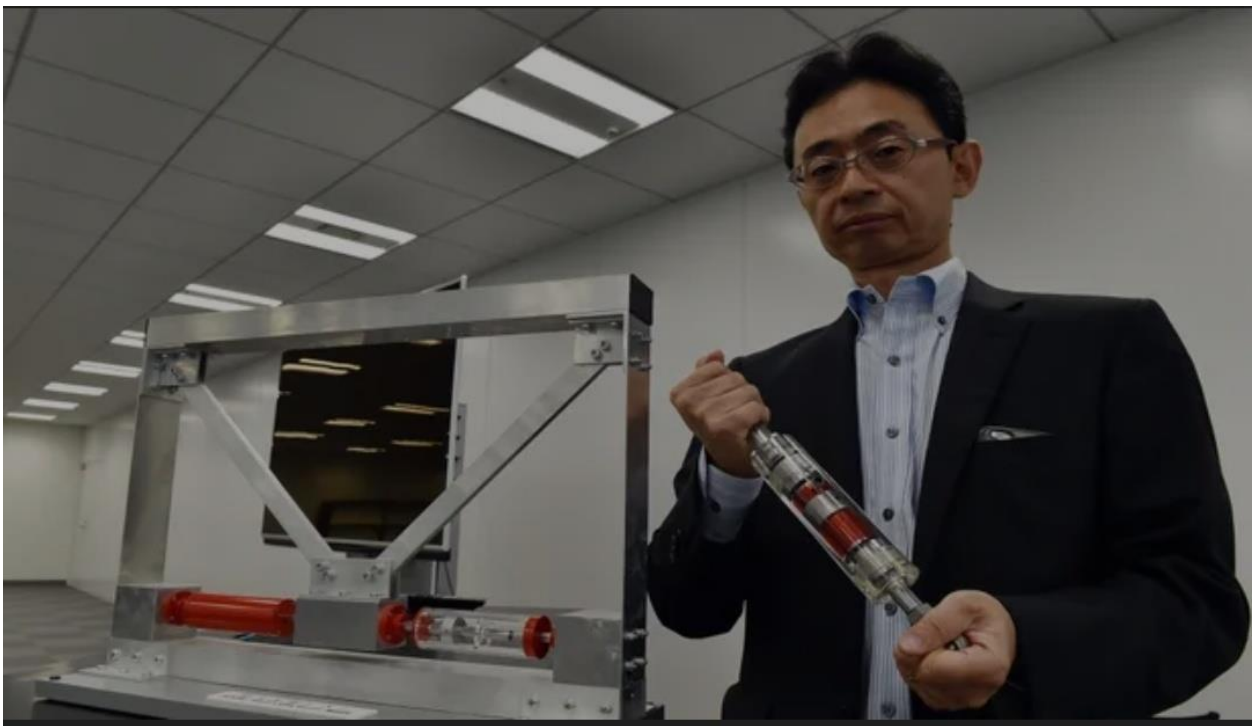

(Credit: Getty Images)

## Shock absorbers

To withstand the incredible forces of an earthquake, buildings have to absorb as much seismic energy as possible.

“When the structure can absorb all the energy [from the earthquake], it will not collapse,” says Sato.

This mainly happens in a process called seismic isolation. The buildings or structures are put on a form of bearing or shock absorber – sometimes as simple as blocks of rubber about 30-50cm (12 to 20in) thick – to resist the motions of the earthquake. Wherever the building columns come down to the foundation, they sit on these rubber pads.

A scale model of an earthquake damper (Credit: Getty Images)

## Top-to-toe resilience

Adaptations to the base of the building are one of the main ways that buildings are made to withstand earthquakes. But motion dampers throughout the height of the building can also improve resilience.

“A tall building may move 1.5m (5ft) but if you put dampers at certain levels – every second floor all the way up to the top – you can reduce that motion to a much smaller amount, preventing damage to the superstructure,” says Lubkowski.

The dampers tend to look something like a bicycle pump, except it’s filled with liquid instead of air.

“As you compress the pump, it pushes against the liquid. It doesn’t compress very much but it will move a little bit. That process can reduce the vibrations within the building.”

Here we see an architect displaying an oil damper used in the 53-storey Roppongi Hills Mori Tower building in Tokyo (Credit: Getty Images)

The Tokyo Skytree (Credit: Alamy)

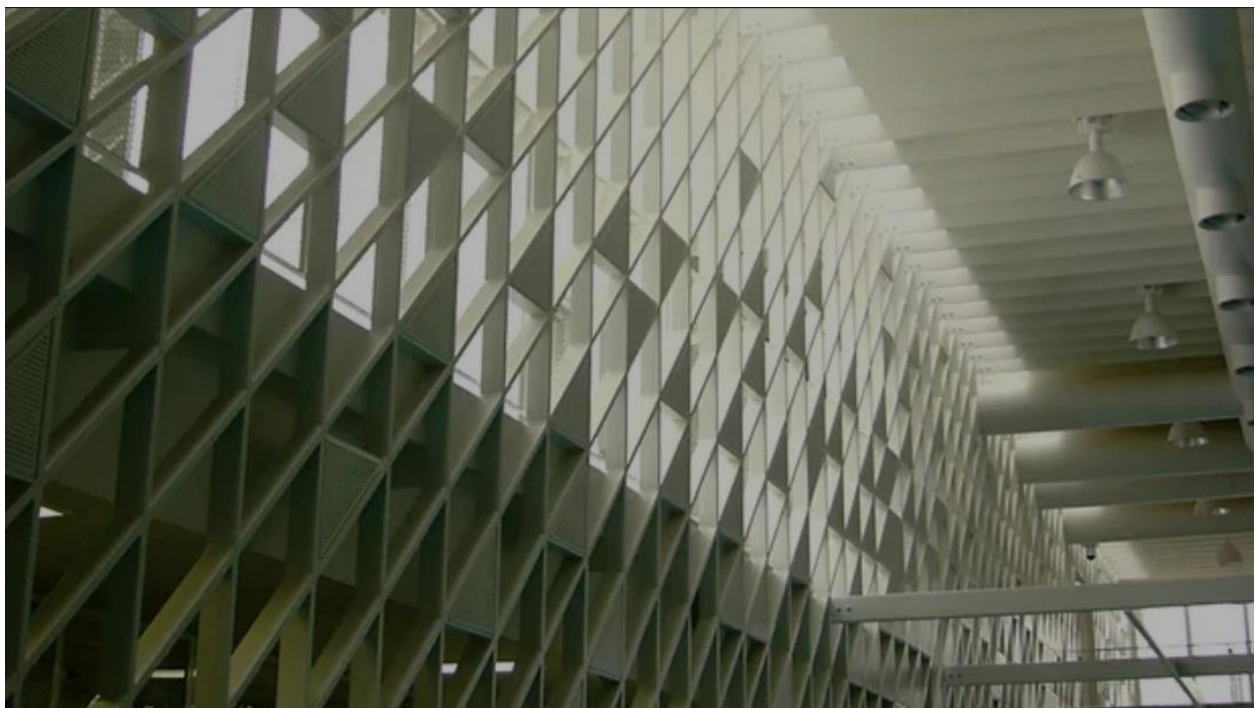

## Elegance and safety

Complex devices to absorb the energy of an earthquake and ease shaking aren't the only way to make a building resilient to earthquakes. Other methods involve the layout and design of the building itself. "Ideally what we want is to make the building as regular as possible," says Lubkowski. "If you have each floor at exactly the same height and all the columns on an even grid spacing, the building will perform better in an earthquake."

But often the designers of spectacular skyscrapers are reluctant to make those kinds of compromises, and tensions between the seismic standards required by engineers and the creative visions of architects are common.

"There are always big conflicts between us," says Norihiro Ejiri, representative director of the Tokyo-based firm Ejiri Structural Engineers. "Fortunately in Japan, architects are also educated about earthquakes, so engineers and designers are able to discuss with common sense."

The Skytree Tower in Tokyo is the second tallest building in the world. It is built in a 'neofuturistic' style that incorporates some elements of the traditional Japanese pagoda, and includes a central pillar attached to seismic dampers that can together absorb the energy of an earthquake.

Steel mesh wall at Hakodate Future University (Credit: Riken Yamamoto)

## Protective mesh

Sato has worked on developing seismic engineering solutions that are both functional and elegant. “When I discuss the structural designs with architects, I always look for a way to harmonise seismic elements into overall design of the building,” he says.

“Sometimes I can find how to embed those elements into the floor plan, sometimes I can develop transparent or translucent elements, sometimes I can find the geometry in their sketches which can be developed into seismic elements.”

For example, using mesh structures helps prevent the building’s supports buckling. If one part buckles, having a close neighbour helps stop it bending and distributes the energy absorption. As a result, mesh structures – which can also be very beautiful – help to fortify buildings. Here we see a steel mesh, used in Hakodate Future University, designed by Riken Yamamoto.

The Naoshimapavillion (Credit: Sou Fujimoto)

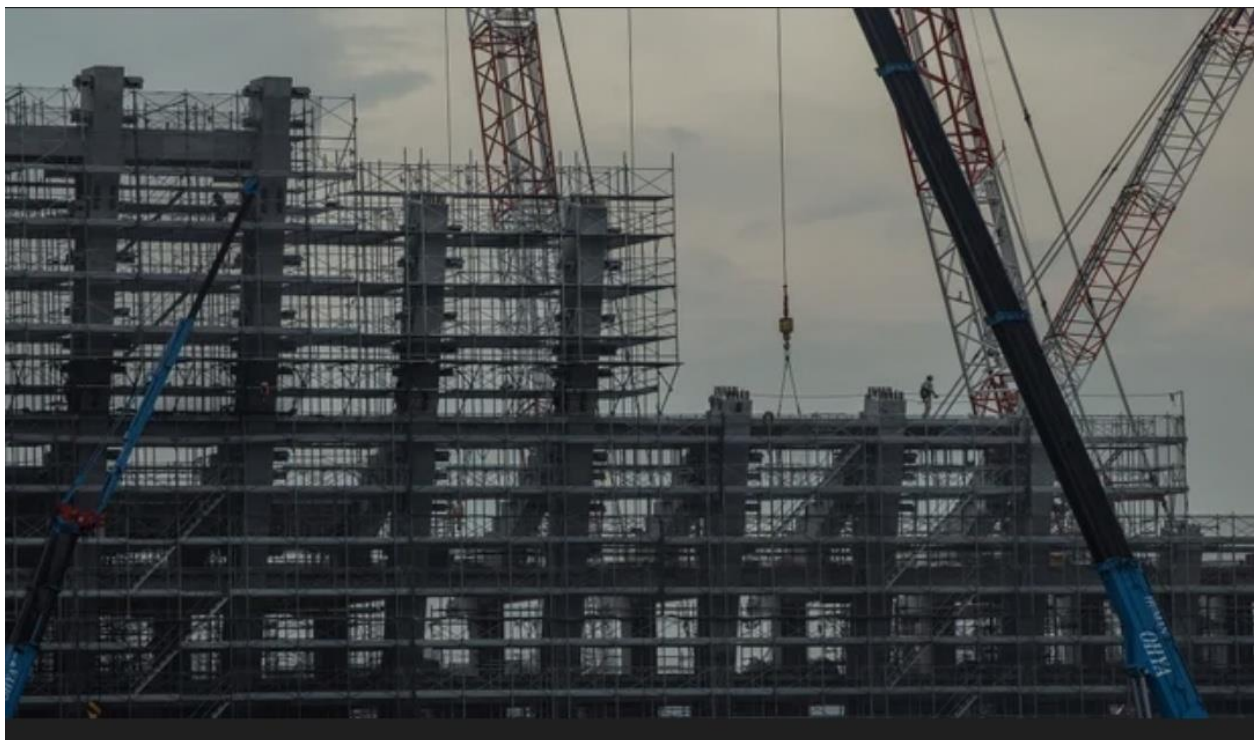

## Evolving designs

The goal of creating earthquake-proof buildings is not static. Researchers estimate how future earthquakes might impact a building by observing active faults. But the magnitude of earthquakes in the region appears to be getting larger, so prediction becomes even more difficult, says Ejiri.

But could tomorrow's buildings withstand even the largest earthquakes unscathed?

"Within reason, yes, such buildings should be possible. The sorts of base isolation systems, bearings, braces, damped outrigger systems that we use will achieve that," says Lubkowski.

The answer lies in gradually testing all the known technologies we have to stabilise buildings, while trialling ever more creative designs, such as mesh structures. Sometimes small, experimental structures – such as an elaborate polyhedral mesh designed to resist buckling at Naoshima Pavillion, Kagawa (designed by Sou Fujimoto) – can add to the engineers' repertoire.

**Conclusion:**

Japan is admired around the world for its high-tech innovations in multiple fields, and when it comes to resilience in its infrastructure, it is certainly at the cutting edge. So, what can other countries facing natural and manmade disasters learn from Japan's approach to earthquake resilience?

**Strong regulation is vital:** Clear laws about minimum standards for resilience mean that Japanese builders know what to deliver. This also gives customers more security and confidence.

**Innovation is essential:** Japanese designers are continually innovating to make even more sophisticated earthquake proof buildings.

**Investment is critical:** Building earthquake-proof building costs up to 20% more than a standard structure. Yet, in the long run, this approach saves owners money since their buildings are safe from damage when earthquakes strike.

Sub: Release of Advt./Sponsorship to Viswamukti, Hindi Magazine on Special issue for closing celebration of Rastriya Gramin Azadika Amrit Mahostav at K.P.P. High School, Delang, Puri from 31st March to 2nd April 2023 (Utkal Divas).  
Respected Sir,

We are constrained to submit an humble reminder to our above letter which may evoke your early and favorable consideration.

That Sir, as delineated in our letter under reference above that 'Viswamukti' the famed and a front-ranking Socio-cultural organization in the Eastern Indian is committed to promote Rajbhasa Hindi through organizing conclaves involving the noted personalities highlighting the importance of Rajbhasa Hindi besides publishing a regular thematic and feature Hindi journal that reaches all vantage points of the country as a dedicated vehicle upholding Indian culture and heritage in the most vibrant manner for the last 25 years. Our Editorial team consists of erudite personalities including Dr. Shankarlal Purohit, a very prominent writer across the Hindi world and presently assigned as a Honorable member on Rajbhasa, another priority of Govt. as mandated by constitution of India. So 'Viswamukti' has taken up this daunting task through all the activities uninterruptedly in shape of conducting regular symposiums, publication of literature containing factual depictions on India's rich heritage and iniquity in the most convincing manner.

Hon'ble Minister appreciating our above inimitable and essential activities instructed various govt. organizations to render help in form of releasing advertisements to facilitate this 'Viswamukti' to march on with zeal and necessary resources on its promising journey in promoting Rajbhasa unabated. A request was made by the joint secretary co-ordination Dept. of Comm. of Ministry of C & I, dtd. 19.10.2022 under your kind instructions to several Govt. PSU's as may be perused in the said enclosed letter.

Since the responses of these Govt. organizations are Luke-warm and not encouraging, I would again make an appeal kindly to impress upon these Govt. owned corporations/agencies etc to come forward to help us in this direction as one their constitutional obligations. This will help 'Viswamukti' to move with more determined effecting programs towards promotion of Rajbhasa Hindi in its purest form.

Thanking you Sir while soliciting a brisk response on our above request.

With Regards

महोदय,

विश्वमुक्ति देश की अग्रणी सांस्कृतिक एवं साहित्यिक संस्था है। पिछले तीन दशक में इसने विभिन्न गतिविधियों से अपनी विशेष पहचान बनायी है। अब तक ओड़िया एवं अंग्रेजी के माध्यम से भारतीय साहित्य, कला एवं संस्कृति में प्रकाशकीय हस्तक्षेप करते हुए पूर्व सांसद एवं अग्रणी कवि डॉ. प्रसन्न कुमार पाटशाणी के नेतृत्व में महत्वपूर्ण भूमिका ग्रहण की है। इस महत्वपूर्ण कार्य में हमारे समय के विशिष्ट शिक्षाविद एवं समाजसेवी लोकसभा सांसद डॉ. अच्युत सामंत मार्गदर्शक हैं। आज राष्ट्रीय स्तर पर हिन्दी की विशेष भूमिका असंदिग्ध है। अतः इस संदर्भ में विश्वमुक्ति के हिन्दी संस्करण का संकल्प लिया है। यह पत्रिका साहित्यिक, सांस्कृतिक, राजनैतिक, आर्थिक एवं पर्यटन संबंधी विविध गतिविधियों-विचारों के साथ राष्ट्रीय रंगमंच में अपनी विशेष भूमिका प्रस्तुत करने का विचार रखती है। राष्ट्रीय एकता एवं संहति की दृष्टि से राजभाषा के रूप में हिन्दी का महत्व आज सब मानते हैं। इस में हम सभी लेखकों, अनुवादकों, चिंतकों के सक्रिय सहयोग की कामना करते हैं।

चूंकि पत्रिका का अखिल भारतीय स्वरूप है एवं व्यापक सचेतन पाठक समुदाय तक पहुँच रही है अतः वृहत्तर पाठकों तक अपनी पहुँचाने हेतु विज्ञापन दाताओं के लिए भी यह वांछित सत् संकल्प को भी बल प्रदान करेगा।

## Monthly Commercial Report: January 2023

### Overview

**Saudi Arabia's real gross domestic product (GDP) jumped by 5.4 percent year-on-year (YoY)** in the fourth quarter of 2022 according to the data issued on January 31, by the General Authority for Statistics.

The economic growth was driven by a **significant increase in oil activities by 6.1 percent YoY and 6.2 percent rise in non-oil activities**. Meanwhile, government activities increased by 1.8 percent YoY.

The seasonally adjusted real GDP increased by 1.5 percent in the fourth quarter of 2022, compared to the third quarter of this year. The rise is due to the positive growth witnessed by non-oil activities by 1.7 percent, government services activities by 0.5 percent while oil activities decreased by 0.3 percent QoQ.

Saudi Arabia's economy grew by 8.7% in 2022 compared to the previous year, according to flash estimates posted by the General Authority for Statistics (GASTAT).

### Saudi Arabia's top 5 Trading Partners in November, 2022 (latest data)

## **Trade and Investment related news**

### **Saudi pharmaceuticals industry covers 30% of Middle East market**

The market size of the pharmaceuticals industry in Saudi Arabia reached SR32 billion (\$8.6 billion), the largest in the region accounting for more than 30% of the Middle East market, according to Minister of Industry and Mineral Resources Bandar Al-Khorayef.

Al-Khorayef reiterated, during his participation in the ministerial dialogue session at the Riyadh Global Medical Biotechnology Summit on Wednesday, that the Kingdom follows a strategic approach and comprehensive plan to build the best infrastructure for biotechnology at a global level to attract the best talent, promote innovation, and lead the country globally in health care and life sciences. (January 26)

### **Saudi Arabia will invest \$266 billion in clean energy, says Saudi Energy Minister.**

Saudi Arabia will invest up to one trillion riyals (\$266.40 billion) to generate "cleaner energy", Saudi state TV reported on January 30, citing the kingdom's energy minister. Prince Abdulaziz bin Salman added that the investments aim also to "add transport lines and distribution networks in order to eventually export the energy to the world and produce clean hydrogen."

### **Saudi Arabia's commercial engagements**

#### **Saudi –Italy**

**Saudi Arabia, Italy sign MoU to increase trade exchange.** On January 27, the Saudi Export-Import Bank signed a memorandum of understanding with the Italian Export Credit Agency (SACE) which aims to empower Saudi exporters and international investors and enhance the Saudi-Italian trade exchange. The agreement aims at establishing a framework for mutual reinsurance in a way that

enhances the presence of Saudi products in Italian markets, and it opens horizons for cooperation in areas of professional development, transfer of knowledge of best practices in export credit, and cooperation in international projects that utilize the Saudi and Italian resources in line with the economic goals of the two parties.

#### **Saudi –India**

**Agreement worth \$1 billion signed to manufacture specialized, agricultural chemicals in Saudi Arabia.** On January 21, the Ministry of Investment has signed an investment agreement to manufacture specialized and agricultural chemicals in Saudi Arabia, with a value estimated at \$1 billion. The ministry has signed the agreement with the Indian company UPL, which comes within the Kingdom's efforts in supporting the qualitative investments, and economic diversification. It is noteworthy that the agreement was signed on the sidelines of the participation of Saudi Arabia's delegation in the World Economic Forum 2023, which is held in Davos, Switzerland.

#### **Saudi – Switzerland**

##### **Saudi-Swiss Economic Committee discusses investment, economic, trade cooperation, January 18, 2023**

The 13th meeting of the joint Saudi-Swiss Economic Committee and the Saudi-Swiss Investment Forum was held here Wednesday with the attendance of Minister of Investment Eng. Khalid Bin Abdulaziz Al-Falih and Federal Councilor Guy Parmelin, head of the Federal Department of Economic Affairs, Education, and Research. The Saudi-Swiss Investment Forum's works included presentations on business opportunities in the Kingdom, international supply chains, national industry strategy, and Swiss infrastructure expertise. The forum saw the signing of an agreement to establish and inaugurate the first independent international company to operate and administrate hotels in the Kingdom and another agreement for a joint precious metals project, in addition to four memorandums of understanding in the tourism, hospitality, and health sectors.

#### **Saudi – Pakistan**

##### **Saudi Arabia provides \$1bln to finance Pakistan's oil derivatives**

Saudi Arabia will finance the purchase of oil derivatives worth \$1 billion to support Pakistan's economy, sector growth, and navigating economic challenges.

An agreement in this respect was signed in Islamabad on January 12, 2023 between the Saudi Fund for Development (SFD) and the Economic Affairs Division of Pakistan.

Saudi Press Agency (SPA) said that the agreement comes as an extension of the \$4.44 billion support provided previously in 2019 and 2021, to finance oil derivatives, through the Saudi Fund for Development with the Pakistani Ministry of Economy, after the issuance of generous directives that reflect the continuation of the close relationship between the two countries.

**b.** Alerts on non-tariff measures (SPS/TBT/import and export procedures/restrictions/prohibitions, Licensing/ STEs etc.)

S. No	Notification No. & Date	Measure	HS Codes	Effective from	Remarks if any
1.	G/SPS/N/SAU/338 01/02/2018	Suspension of Shrimp imports by SFDA from 9 coastal states (Meghalaya, Andhra Pradesh, West Bengal, Odisha, Tamil Nadu, Karnataka, Kerala, Goa and Gujarat) of India on the basis of report of World organization for Animal health (OEIC) reporting	03069500	01/02/2018	<p>Export of fresh, chilled and frozen shrimps was temporarily suspended due to WSSV disease in our export consignments in Dec, 2017. This is found mostly, albeit rarely, in Shrimp sourced from Ponds, whereas shrimp exported from India to Saudi Arabia is mainly sourced from sea.</p> <p>The ban on shrimp with WSSV disease still continues.</p> <p>Kingdom of Saudi Arabia vide SPS notification G/SPS/N/SAU/338 dated 01/02/2018 has issued temporary suspension on import of cultured fish originating from India. The reason for the temporary suspension was unclear health situation of the cultured fish originating from</p>

		about white spots viral disease in these states.			<p>India based on SFDA report.</p> <p>To deliberate upon the constraints in Indian exports of Pharma, Marine, Food &amp; Agri products and on the Saudi regulatory framework, the Mission officials had meeting with SFDA on June 23, 2022 at their headquarters. The Mission is following up regarding updates on NTB barriers.</p> <p>The matter was taken up by CIM, during his bilateral meeting with his Saudi counterpart, on the sidelines of his visit to the Kingdom of Saudi Arabia in September, 2022.</p>
2.		Barrier in importing pharmaceutical products			<p>Indian drugmakers have been attempting to penetrate the Saudi drug market, with such moves encouraged by local authorities on account of the potential savings from using cheaper generic medicines produced by Indian companies. However, the drug registration system still acts as a significant barrier to entry for most Indian firms, as it requires drugs to have been</p>

					<p>previously marketed in two 'developed' markets before it can get approval in Saudi Arabia, which virtually allows only the largest Indian players to operate in the country. The pricing mechanism of the drugs, which is linked to the price of the drug in the country of origin, is also not in the interest of the exporters. The Mission officials raised this issue with SFDA during a meeting on June 23, 2022. The meeting report was shared with MoC and Pharma organizations to take necessary action.</p> <p>The matter was taken up by CIM, during his bilateral meeting with his Saudi counterpart, on the sidelines of his visit to the Kingdom of Saudi Arabia in September, 2022.</p>
--	--	--	--	--	--

**c. Alerts on standards, technical regulations and conformity assessment procedures:**

S. No.	Notification No. & Date	Standard/ technical regulation/conformity assessment procedure	HS Codes	Effective from	Remarks if any
1.	No-001-42-199644 19/05/2021	Saudi Food & Drug Authority (SFDA) had conveyed its		15/06/2021	Indian exporters have been facing issues due to high cost of CoC

		<p>decision to make Certificate of Conformity compliance mandatory for all fresh vegetables, fruits, agricultural crops and spices exported from India to Saudi Arabia w.e.f. 15/06/2021.</p>		<p>issuance and limited number of companies authorized for it. APEDA has informed that there are only 4 entities authorized by SFDA for CoC issuance i.e.</p> <p>(a) TUV Austria</p> <p>(b) Intertek International</p> <p>(c) TUV Rheinland</p> <p>(d) Cotecna Saudi Limited</p> <p>In this reference, the Mission officials had a meeting with SFDA on June 23, 2022 at their headquarters to discuss the issues relating to CoC. SFDA informed that they are open to including government/private organizations for issuing CoC. Have proposed that Indian companies should apply with them for becoming CoC issuing entities. They agreed to take up the pending CoC application from Basmati Export Development Foundation. SFDA also informed that the MoC between APEDA and SFDA would facilitate in resolving the CoC issue,</p>
--	--	---	--	---

					<p>as after signing of the MoC, APEDA's approval would be enough for export clearance, which will remove the CoC requirement. SFDA agreed and informed that they are contemplating on reducing the frequency of CoC requirement for individual exporters, which will reduce the cost incurred by them. The MoC is currently pending with the Indian side.</p> <p>The matter was taken up by CIM, during his bilateral meeting with his Saudi counterpart, on the sidelines of his visit to the Kingdom of Saudi Arabia in September, 2022.</p>

S. No.	Sector Name (List attached)	Particulars of the asset /company	Contact details
1.			

Saudi Arabia is in the phase of fast economic and social transitional reforms/development under the ambitious ‘Saudi Vision 2030’ initiative. Saudi Arabia’s upcoming/ongoing projects.

S. No.	Name of the project	Remarks
1.	<b>NEOM</b>	<p>1. NEOM is a city being built in Tabuk Province in northwestern Saudi Arabia.</p> <p>2. Planning and construction will be initiated with \$500 billion from the Public Investment Fund of Saudi Arabia and international investors.</p> <p>3. The first phase of the project is scheduled for completion by 2025.</p> <p>4. NEOM city will have following four major regions:</p> <p>(i) <b>Sindalah</b> : Red sea’s first luxury island destination, it is expected to launch in early 2024 and will be the first physical project in NEOM that opens for tourism and leisure</p> <p>(ii) <b>The LINE</b> : The Line is a linear smart city under construction in Saudi Arabia in NEOM, Tabuk Province, which is designed to have no cars, streets or carbon emissions. The 170-kilometre-long (110 mi) city is part of Saudi Vision 2030 project</p> <p>(iii) <b>Trojena</b> : The first major outdoor</p>

		<p>skiing destination in the Arabian Peninsula. It will be located about 50 kilometres (31 mi) from the Gulf of Aqaba coast, in the Sarwat Mountains, with elevations ranging from 1,500–2,600 metres (4,900–8,500 ft). Although it is in the desert, the site's climate is considerably cooler than the rest of Neom's territory.</p> <p>(iv) <b>Oxagon</b> : Oxagon is a floating industrial complex shaped like an octagon. It is located around 25 kilometres (16 mi) north of the town of Duba, and covers roughly 200–250 square kilometres (77–97 sq mi) of land, of which approximately 40 square kilometres (15 sq mi) forms the city. The project will focus on modern manufacturing, industrial research, and development centered on expanding the Duba port.</p>
2.	<b>Red Sea tourism project</b>	<p>1. The project will focus on the development of resorts spread across 28,000 sq kms, including more than 90 natural islands, located between the cities of Umluj and Al Wajho, on the western coast of Saudi Arabia.</p> <p>2. Red Sea Tourism is currently in Phase 1.</p> <p>3. The project is set to be fully completed by 2030.</p>
3.	<b>Al Qiddiya projects</b>	<p>1. It's an entertainment city located southwest of Riyadh; this major new development will include theme parks, resorts, hotels and residential units on about 100 miles of sandy coastline on the Red Sea.</p> <p>2. At a total size of 334 square km. Work has been under way on the \$8 billion dollar project since January 2019, with the first phase slotted to open in 2023.</p>
4.	<b>Amala tourism project</b>	<p>1. The project involves the construction of a luxury</p>

		<p>tourism destination of 3,800 kms of nature reserves in Saudi Arabia's northwestern coast.</p> <p>2. The initial funding for the project will be provided by Saudi Arabia's Public Investment Fund. The project is currently in Phase 1. The project is expected to be completed in 2028.</p>
5.	<b>The Knowledge Economic City</b>	<p>1. The location of the KEC project, which has an area of about (6.8) million square meters, is unique in its direct connection with the five most important roads in Medina, which have a width of 80-100 m.</p> <p>2. It is planned to start the first phase of the internal public transport network starting from Prince Mohammed bin Abdulaziz International Airport to facilitate transportation to the main location through the Al-Haramain High-Speed Railway and the KEC by 2023.</p>
6.	<b>Ad Diriyah</b>	<p>1. Ad Diriyah is located on the outskirts of Riyadh, is set to become a major tourist destination.</p> <p>2. The \$17bn development will encompass several luxury resorts, including major international hotel brands, as well as dining and entertainment options.</p>
7.	<b>Jeddah District Revival plan</b>	<p>1. Saudi Crown Prince Mohammed bin Salman has launched an ambitious 15-year project in bid to breathe new life into the historic part of Jeddah city.</p> <p>2. The project aims to create an integrated environment in Historic Jeddah that has multiple natural components, including 5 km of developed waterfronts, green spaces and open gardens covering 15 per cent of the total area of the al-Balad area and within the project area of 2.5 square km.</p>
