Notice: Potential bidder desiring additional information on the procurement in question or the project in general should, unless indicated otherwise, contact the project agency and not the IsDB.

Barwaaqo - Somalia Water for Rural Resilience Project

Project ID No.: P177627

Project Name: Barwaaqo - Somalia Water for Rural Resilience Project

Country: Somalia

Funding Agency: World Bank

Project Details:

- **Project ID:** P177627
- **Status:** Active
- **Team Leader:** Chantal Richey, Jeehye Kim
- **Borrower:** Federal Republic of Somalia
- **Country:** Somalia
- **Approval Date:** (as of board presentation) December 9, 2022
- **Total Project Cost:** US\$ 70.00 million
- **Implementing Agency:** Ministry of Planning Investment and Economic Development
- **Region:** Eastern and Southern Africa
- **Fiscal Year:** 2023
- **Commitment Amount:** US\$ 70.00 million
- **Environmental and Social Risk:** Substantial
- **Last Update Date:** November 28, 2022
- **Closing Date:** N/A
- **Consultant Services required:** No
- **Last Stage Reached:** Begin Negotiation

Notes

1. Total project cost includes funding from World Bank and non-bank sources in US\$ millions. Active and Closed projects show current commitments. Proposed (pipeline) and dropped projects show the forecast amount. The commitment amount for projects in the pipeline is indicative and may be modified during the project preparation.

2. Borrower refers to the Borrower of a Loan or Recipient of a Grant.

3." Fiscal Year" is the fiscal year in which the project was approved (or dropped if the status is dropped). The World Bank's fiscal year is from July 1 - June 30. For example, a fiscal year of 1996 corresponds to July 1, 1995 - June 30, 1996.

3. **Open Competitive Bidding (National Advertisement)** will be conducted in accordance with ADB's [Single-Stage: One-Envelope](#) procedure and is open to all Bidders from eligible source countries as described in the Bidding Document.
4. Only eligible Bidders with the following key qualifications should participate in this bidding:

Key Construction Experience Requirement: Participation in at least one (1) contract that have been successfully or substantially (95%) completed within Jan 2015 to Dec 2021 and that is similar to the proposed works, where the value of the Bidder's participation in the contract exceeds BTN 26.42 million.

Key financial requirement: Minimum Average Annual Construction Turnover of BTN 47.45 million.

Meet other financial and experience requirements as indicated in the Bidding Document.

The qualification criteria are more completely described in the Bidding Document.

5. To obtain further information and inspect the Bidding Document free of charge, Bidders should contact:

The Chief Engineer (Project Manager)
Infrastructure Division,
Thromde Administration, Thimphu
Telephone: +975- 2-336310
E-mail address: ywangdi@thimphucity.gov.bt

6. A Pre-bid meeting shall take place on 27 December 2022 at 10:30 hours (Bhutan Standard Time) at the Thimphu Thromde Conference Hall.

7. To purchase the Bidding Document in English, the eligible Bidders should write to the address above requesting the Bidding Documents for "CW-01 Construction of Distribution Network for Pamtsho, Thimphu" and pay a non-refundable fee of BTN 4,500/- by cash between 9:00 hours and 16:00 hours (Bhutan Standard Time) on any working until 12 January 2023.

8. Deliver your bid:
To the address: Chief Engineer (Project Coordinator)
Water and Sanitation Division
Department of Engineering Services (DES)
Ministry of Works & Human Settlements (MoWHS), Thimphu)
Street address: Chang Lam
ZIP code: 11001
Country: Bhutan

On or before the deadline: 12 January 2023 at 10:00 hours Bhutan Standard Time; and

Together with a Bid Securing Declaration as described in the Bidding Document.

Late bids will not be accepted. Bids will be opened at 10:30 hours (Bhutan Standard Time) on the same day of submission at the DES, conference hall in the presence of the Bidder's representative who choose to attend.

Construction and Rehabilitation of WDCs and Water Mains in Yangiyul district

Project ID No.: TP-CW-05:

Project Name: Second Tashkent Province Water Supply Development Project

Country: Uzbekistan

Funding Agency: Asian Development Bank (ADB)

Submission date: 10 January 2023

Project Details:

(Corrigendum 1 IFB, original IFB publication date is 10 August 2022)

Date:	12 December 2022
Loan No. and Title:	3782-UZB: Second Tashkent Province Water Supply Development Project
Contract Title:	TP-CW-05: Construction and Rehabilitation of WDCs and Water Mains in Yangiyul district
Deadline for Submission of Bids:	Extended to 10 January 2023 at 16:00 hours (Tashkent Time)

1. The Republic of Uzbekistan has received a loan from the Asian Development Bank (ADB) toward the cost of **Second Tashkent Province Water Supply Development Project**, and it intends to apply part of the proceeds of this loan to payments under the contract named above. Bidding is open to Bidders from eligible source countries of ADB.

2. The **ADB Project Coordination Unit (PCU) of JSC Uzsuvtaminot on behalf of the Toshkent Suv Ta'minoti LLC** ("the Employer") invites sealed bids from the eligible Bidders for the **TP-CW-05: Construction and Rehabilitation of WDCs and Water Mains in Yangiyul district** ("the Works").

3. **Open Competitive Bidding (International Advertisement)** will be conducted in accordance with ADB's [Single-Stage: One-Envelope](#) bidding procedure and is open to all Bidders from eligible countries as described in the Bidding Document.

4. Only eligible Bidders with following key qualifications should participate in this bidding:

- Minimum average annual construction turnover of USD 6.63 million calculated as total certified payments received for contracts in progress or completed, within the last three (3) years (2019-2021, starting from 1 January 2019).

- The Bidder must demonstrate that its financial resources, less its financial obligations for its current contract commitments, meet or exceed the total requirement for the Subject Contract of USD 1.1 million.

- Participation as a contractor, JV partner, or subcontractor in at least one (1) contract that has been successfully or substantially completed within the last five (5) years and that is similar to the proposed works, where the value of the Bidder's participation exceeds USD 5.3 million. The similarity of the Bidder's participation shall be based on the nature of works,

e.g., construction and reconstruction of tanks of pure water, pumping stations, water networks, and water supply systems.

- Experience in the following key activities:

- Construction of 3 reinforced concrete tanks of pure water with a minimum capacity at least 500 m³ within last five years
- Construction of 2 water pumping station with a capacity of each not less than 200m³/h within last five years
- Construction of water networks/distribution system of non-metallic pipes with diameter 25 mm, with a total length of not less than 45 km completed within 1 year should be completed.

For the complete eligibility and qualification requirements, Bidders should refer to the Bidding Document.

5. To obtain further information and inspect the Bidding Documents, Bidders should contact:

Construction Of 1no. Ground Floor 8-Unit Classroom Block With Ancilliary Facilities At Gbawe Methodist

Project ID No.: GR/WGMA/WKs/DACF-RFG/22/01

Project Name: construction of 1no. Ground floor 8-unit classroom block with ancilliary facilities at gbawe methodist

Country: Ghana

Funding Agency:

Closing Date: 29th December, 2022

Project Details:

Tender Name: Procurement of Works

Tender Type: NCT

Package No: GR/WGMA/WKs/DACF-RFG/22/01

Post Date: 09th December, 2022

Closing Date: 29th December, 2022

Currency: Ghana Cedi

Price of Tender Document: Gh¢300.00

Tender Description:

1.GR/WGMA/WKs/DACF-RFG/22/01 construction of 1no. Ground floor 8-unit classroom block with ancilliary facilities at gbawe methodist

2.GR/WGMA/WKs/DACF/05/22 construction of police station at gONSE

Additional Information:

1. The WEIJA-GBAWE MUNICIPAL ASSEMBLY now invites sealed Tenders from eligible and qualified entities to provide the works listed above.

2. More details on the requirements are provided in the Bills of Quantities, Specifications, Performance Requirements and Drawings included in the Tender Documents accompanying this IFT.

3. This IFT is open to all eligible and qualified Tenderers who wish to respond to

the relevant “Tender Documents”. Qualification requirements are as described in Section III. Evaluation and Qualification Criteria.

4. A contractor will be selected under a competitive Tendering method through the evaluation procedure which is described in the Tender Documents.

5. It is mandatory that Tenderers include in their tender the under listed mandatory requirements.

- Valid GRA Tax Clearance Certificate.
- Valid SSNIT Clearance Certificate.
- Valid VAT Registration Certificate (if applicable).
- Valid Business Registration Certificate
- Valid Certificate of Incorporation
- Valid Certificate of Commencement.
- Valid Works and Housing Certificate (D2K2)
- Valid Labour Certificate
- Valid Registration Certificate from PPA

6. Eligible Tenderers interested in obtaining the Tender Documents may obtain further information and inspect the Tender Documents at the following address WEIJA-GBAWE MUNICIPAL ASSEMBLY, BOX PMB 2 WEIJA-ACCRA, from 9th December 2022 (9AM -5PM) local time.

7. A complete set of Tender Documents in English may be purchased from WEIJA—GBAWE MUNICIPAL ASSEMBLY, BOX PMB 2 WEIJA-ACCRA], from 9 am to 5 pm local time, (DIGITAL ADDRESS GS-0136-4311) by interested Tenderers on the submission of a written application to the address below and upon payment of a non-refundable fee of [Three Hundred Ghana Cedis GHc300.00] for each set of Tender Documents. The method of payment will be by cash payable to WEIJA-GBAWE MUNICIPAL ASSEMBLY in WEIJA-ACCRA.

8. The deadline for submission of Tenders is 29th December, 2022 at [11am] local time. Tenders must be delivered to the address below on or before the time specified above.

Status	Approved
---------------	----------

Project General Description:

The Project to Develop Access Roads to the Industrial and Port Area of Kribi (PARZIK) comprises (i) road works (rehabilitation and upgrading of 110 km of the Edéa –Kribi section and 39 km of the Lolabé –Campo –Cross-border bridge with Equatorial Guinea over the Ntem River section, the construction phase of which is expected to be presented to the Bank’s Board of Directors in 2023); (ii) a major component dedicated to socio-economic activities that are likely to heighten the socio-economic impact, reduce pockets of fragility and gender imbalances in the project impact area; and (iii) related measures intended to facilitate mobility, improve security and mitigate the negative impact of increased traffic in and around the complex as well as transit activities in the area’s localities. The project is expected to be implemented over seven years (2021-2028) and is estimated to cost 182.118million Units of Account (UA). It will be co-financed by (i) the Bank through two ADB loans totalling UA 130 million; and (ii) counterpart contribution of UA52.118million. Given the macroeconomic context and within the limits consistent with the country’s debt sustainability level, the Government wants the Bank’s financing commitment to be in two phases (UA 96.540 million in 2021 and UA 33.460 million in 2022).

Project Objectives

PARZIK’s sector goal is to help improve the transport system in Cameroon by optimising the operation of the Kribi Industrial Port Complex and promoting regional integration in Central Africa. This sector goal is broken down into three (3) specific objectives aimed at (i) establishing permanent road links to improve the accessibility and connectivity of the Kribi Industrial Port Complex, (ii) reducing travel time and overall transport costs at national and regional level, and (iii) improving the quality of life for people living in the project impact area.

Beneficiaries

The project direct impact area (PDIA) comprises the South and Littoral Regions of Cameroon as well as the Littoral Province of Equatorial Guinea and the North of Gabon. The indirect impact area covers the remainder of Cameroon and the entire continental region of Equatorial Guinea, including some regions of these two countries’ neighbours -Gabon, Congo, CAR and Chad. The area’s importance is justified by its access to

Douala, currently Cameroon's main economic centre, and the inclusion of the Kribi industrial and port complex, whose long-term aim is to become Cameroon and Central Africa's principal economic hub. By connecting with the Douala-Yaoundé Road, the project's main road services the entire hinterland of the Kribi deep-water port. From an economic standpoint, the PIA has a mainly rural population mostly comprising women and young people, in 27 villages. In terms of gender equality, while the government has made considerable progress, gaps are still noticeable in several areas such as education, training and employment. On the socio-economic front, women are at a disadvantage compared to men. In this regard, men are relatively well represented as wage earners in the formal sector. However, in the informal sector where decent employment conditions are not always met, women are relatively well represented.

Green Power Development and Energy Efficiency Improvement Investment Program (Tranche 1)

Project ID No.: IFB No. CEB/DGM/TCP/2021/IFB/GPDEEIIP-T1-P5-1

Project Name: SRI: Green Power Development and Energy Efficiency Improvement Investment Program (Tranche 1)

Country: Sri Lanka

Last date for submission: 22 December 2022

Project Details:

Invitation for Bids – Rebidding

(Corrigendum 1 IFB, original IFB publication date is 3 November 2022)

Date:	2 December 2022
Loan No. and Title:	3147-SRI: Green Power Development and Energy Efficiency Improvement Investment Program (Tranche 1)
Contract No. and Title:	IFB No. CEB/DGM/TCP/2021/IFB/GPDEEIIP-T1-P5-1 Augmentation of CEB Transmission Network Supply and delivery of Lot 4: Sub Lot B1: Machineries - Excavator Sub Lot C1: 245 kV and 145 kV Outdoor Switchgears Sub Lot C2: 145 kV Control and Protection Equipment Sub Lot C3: 145 kV Substation Clamps and Connectors
Deadline for Submission of Bids:	Extended to 22 December 2022 at 10:00 hours (Local Time)

1. The Democratic Socialist Republic of Sri Lanka has applied for financing from the Asian Development Bank (ADB) toward the cost of **Green Power Development and Energy Efficiency Improvement Investment Program – Tranche 1 (GPDEEIIP-T1)**. Part of this financing will be used for payments under the contract named above. Bidding is open to Bidders from eligible source countries of the ADB.

2. The **Ceylon Electricity Board (CEB)** (“the Employer”), invites sealed bids from eligible Bidders for the:

Augmentation of CEB Transmission Network

Package 5: Supply and delivery of
Lot 4: Sub Lot B1: Machineries - Excavator
Sub Lot C1: 245 kV and 145 kV Outdoor Switchgears
Sub Lot C2: 145 kV Control and Protection Equipment
Sub Lot C3: 145 kV Substation Clamps and Connectors

Delivery period is six (6) months from the date of opening of the letter of credit.

3. **International Competitive Bidding** will be conducted in accordance with ADB’s [SingleStage: One-Envelope](#) bidding procedure and is open to all Bidders from eligible source countries as described in the Bidding Documents.

Only eligible Bidders with the following key qualifications should participate in this bidding:

- Lot 4 – Sub Lot B1: Machineries - Excavator - Successful completion as main supplier within the last three (3) years of at least three (3) contracts each valued at USD 68,000
- Lot 4 – Sub Lot C1: 245 kV and 145 kV Outdoor Switchgears - Successful completion as main supplier within the last three (3) years of at least three (3) contracts each valued at USD 468,800
- Lot 4 – Sub Lot C2: 145 kV Control and Protection Equipment - Successful completion as main supplier within the last three (3) years of at least three (3) contracts each valued at USD 198,400
- Lot 4 – Sub Lot C3: 145 kV Substation Clamps and Connectors - Successful completion as main supplier within the last three (3) years of at least three (3) contracts each valued at USD 8,000

To know the eligibility criteria, intending Bidders are advised to inspect the Bidding Document by visiting the website of Ceylon Electricity Board, www.ceb.lk.

4. To obtain further information and inspect the Bidding Documents, Bidder should contact:

Chief Engineer (Procurement & Material Management)
Transmission Construction Projects, Ceylon Electricity Board,
No. 14, Arawwala Road, Pannipitiya, Sri Lanka

Telephone +94 11 283 6051/2
Fax +94 11 283 6053
anusha.karunapala@ceb.lk

5. To purchase the Bidding Documents, eligible Bidders should write to the address above requesting the Bidding Document. Upon receipt of written request, a PIV will be generated and sent via email. Log on to www.ceb.lk and make online payment of a nonrefundable fee of LKR 35,000.00 (to collect from office) or LKR 40,000.00 (for domestic delivery) or LKR 75,000.00 (for overseas delivery) referring to the PIV; or pay a nonrefundable fee as above by cash to a local bank or a CEB cash counter; or submit a bank draft for the nonrefundable fee as above written in favor of Ceylon Electricity Board, Sri Lanka.

Upon receipt of payment, the complete set of Bidding Document can be collected from above address or will be sent by courier if requested. No liability will be accepted for loss or late delivery

6. Deliver bids:

- To the address: Deputy General Manager (Transmission Construction Projects), Ceylon Electricity Board, No. 14, Arawwala Road, Pannipitiya, Sri Lanka
- On or before the deadline: 10:00 hours on 22 December 2022
- Together with Bid Security as described in the Bidding Document.

Bids will be opened immediately after the deadline for bid submission in the presence of Bidders' representative who choose to attend.

Late bids shall be rejected.

7. When comparing bids, ADB's Domestic Preference Scheme will be applied in accordance with the provisions stipulated in the Bidding Document.

8. The Employer will not be responsible for any cost or expense incurred by Bidders in connection with the preparation, attending Pre-Bid meeting and delivery of bids.

Design Review and Construction Supervision of Water Supply Systems and Valley Tanks under the SACRiAC Project

Project ID No.: P-UG-AB0-006

Project Name: Consultancy Services for Design Review and Construction Supervision of Water Supply Systems and Valley Tanks under the SACRiAC Project

Country: Uganda

Funding Agency: African Development Bank

Last date for submission: 21 December 2022

Project Details:

Loan Number: 5550155001901

Project ID No: P-UG-AB0-006

The Government of Uganda has received financing from the Global Environment Facility through its implementing agency African Development Bank (AfDB) towards the cost of implementing Strengthening the Adaptive Capacity and Resilience of Communities in Uganda's watersheds project Awoja Catchment (SACRiAC) in Eastern Uganda, and intends to apply part of the agreed amount for this grant to payments under the contract for Consultancy Services for Design Review and Construction Supervision of Water Supply Systems and Valley Tanks under the SACRiAC Project.

The services under this consultancy shall include:

To undertake the Design Review and Supervision of 6 Water Supply Systems and 10 Valley Tanks.

Specifically, the services to be provided under this consultancy is to undertake Design Review and Construction Supervision of Climate resilient infrastructural development (civil works) through prudent contracts management, ensure conformity and compliance to design specifications, design modifications, quality control and assurance, adherence to the Environmental and Social safeguard policies and requirements and performance monitoring for the infrastructure during defects period

The consultancy is expected to be executed within the period 40 months from commencement to include Design Review and Construction Supervision.

The Ministry of Water and Environment now invites eligible Consultancy firms to indicate interest in providing these services. Interested consultants must provide

information indicating that they are qualified to perform the services (brochures, description of similar assignments, experience in similar conditions, availability of appropriate skills among staff, etc.). Consultants may constitute jointventures to enhance their chances of qualification.

Eligibility criteria, establishment of the short-list and the selection procedure shall be in accordance with the “Bank's Procurement Policy for Bank Group Funded Operations, dated October 2015”, which is available on the Bank’s website at <http://www.afdb.org>.

Interested parties may obtain further information at the address below during office hours (0900 to 1700 hours).

Consultancy Services for Design Review and Construction Supervision of Namagumba-Budadiri-Nalugugu Road Upgrading Project (39 Km)

Project ID No.: UNRA/SRVCS/2022-2023/00030

Project Name: NAMAGUMBA-BUDADIRI-NALUGUGU ROAD UPGRADING PROJECT (39KM) Country: Uganda

Funding Agency: African Development Bank

Last date for submission: 23 December 2022

Project Details:

NAMAGUMBA-BUDADIRI-NALUGUGU ROAD UPGRADING PROJECT (39KM)

Procurement Reference No. UNRA/SRVCS/2022-2023/00030

1. The Request for Expression of Interest follows the General Procurement Notice (GPN) published in UN Development Business online and the Website of the African Development Bank on 17th October, 2022 and UNRA Website on 19th October, 2022 respectively.
2. The Government of Uganda has received a loan from the African Development Bank towards the cost of the construction of Namagumba-Budadiri-Nalugugu Road Upgrading Project (39 Km) and intends to apply part of the agreed loan proceeds to payments under the contract for Consultancy Services for the Design Review and Construction Supervision of Namagumba-Budadiri-Nalugugu Road Upgrading Project (39 Km).
3. The Namagumba-Budadiri-Nalugugu road is part of the National Road network that stretches about 30 Km from Namagumba a junction about 5 Km along Mbale-Namunsi trading centre. It is also part of the link that connects Sironko, Kapochorwa and Mbale towns to the people living at the slopes of mountain Elgon.
4. The Services consist of Design Review and Construction Supervision of the Namagumba-Budadiri-Nalugugu Road Upgrading Project to enable efficient and proper implementation of the project. The Consulting services ("the Services") shall include but not limited to the following:
 - i. Provision of the required pre-construction services aimed at ensuring a smooth project start, implementation and delivery in the context of the selected Contractors, by

minimizing project risk. This shall include Design Review, review of Contractor's proposed methodology and where necessary reinstatement of survey controls and undertaking incidental designs etc;

ii. Facilitation of Implementation of Environmental Management Plan (EMP), Environmental Monitoring Plan (EMoP) and Resettlement Action Plan (RAP); iii. Detailed Design of 2 No. Road links of Mt. Elgon National Park (3 Km) and BudadiriBugitimwa (5 Km). iv. Technology Transfer.

5. The duration of Design Review and Construction Supervision is 54 months comprising 6 months Design Review, 36 months Construction Supervision and a 12-months Defects Notification Period.

6. The Uganda National Roads Authority (UNRA) now invites eligible Consultants to indicate their interest in providing these services. Interested Consultants must provide information indicating that they are qualified to perform the services (brochures, description of similar assignments, experience in similar conditions, and availability of appropriate skills among staff, etc.). Consultants may constitute Joint Ventures to enhance their chances of qualification.

7. This assignment is restricted to the Member Countries of the African Development Bank. Eligibility criteria, establishment of the short-list and the selection procedure shall be in accordance with the African Development Bank's Procurement Framework, October 2015 which is available on the Bank's website at <http://www.afdb.org>. Interested Consultants may obtain further information at the address below during office hours between 0900hours and 1700hours on working days.

8. Further information can be obtained at the address below during office hours 0900 to 1700 hours (local time) on Mondays to Fridays.

9. Expressions of Interest in English in one original and two copies must be delivered to the address below in person on or before 23rd December, 2022 at 11:00 a.m. with the envelope or packaging clearly marked "Expression of Interest for "Consultancy Services for Design Review and Construction Supervision of Namagumba-BudadiriNalugugu Road Upgrading Project (39 Km)".

10. Expressions of Interest will be opened in the presence of the applicants' representative who choose to attend at the address below on 23rd December, 2022 at 11:30 a.m.

Preparation of Land Acquisition Plan (LAP), Resettlement Action Plan (RAP), Environmental Management Plan (EMP) and update (if required). Construction Supervision of upgradation of existing Cumilla (Mainamati)-Brahmanbaria (Dharkhar) National Highway (N102) to a 4-Lane National Highway with all safety features and SMVT lane on both sides. Ensure Quality and Quantity of Works. Examine Interim Payment Certificates and BoQ of Work done. Prepare and submit periodical reports to RHD (as required) on construction schedule and implementation of the contract, the work quality and financial forecast of the project. Perform Quality Assurance Audit of the Contractor's quality and safety systems. Provide Technical Assistance and engineering solutions with comments regarding the problem originated during construction period. Monthly progress reports of the construction work. Other services as per instruction of the employer.
17.	Experience, Resources and Delivery Capacity Required	:	<p>RHD will conduct 'short-listing' of the interested Consulting firms who will be submitting REOI applications for the above-mentioned service. For this purpose, key qualifications and experience of the Consulting firms required are as follows:</p> <ol style="list-style-type: none"> Technical Competence: General experience, Specific experience in similar assignments, Construction supervision of multi-lane dual carriageway, PC/Box Girder Bridge, Flyover construction works in similar Highway projects with comparable scale and technical specifications. Geographic Experience: details of work experience in SAARC/ASEAN; Contractual management experience: Substantial experience in managing ICB contracts as a Firm and by the key members of the team. Experience of working with Developments Partners (i.e., ADB, WB, JICA, OFID, LOC, OECD, DFID, etc.) funded ICB contract. Management Capabilities: Financial (Annual Turnover); capability to retain the required no. of Key Experts who are preferred to be under permanent engagement with the consulting firms with adequate qualifications. Interested Consultancy firms must provide information indicating that they are qualified to perform the services (Registration Certificate, Registered Address, Legal Status, Brochures, Company profile including management, personnel, firm's specialty, performance), Description of Similar Assignments (List of rendered services in last 10 years for <ol style="list-style-type: none"> Design/Design review of multi-lane dual carriageway, Bridges, Flyover in highway and update (if any). Supervision of Construction Works of multi-lane dual carriageway with all features. Experience in Similar Conditions, Availability of Appropriate Skills among relevant experts who belong to the firm more than a year and average working experiences (years) of those experts. A Firm may constitute Joint Venture to enhance its capabilities. Interested firms may associate with another firm (Local or Foreign) to enhance their qualifications. The formation of a joint venture shall be done on non-judicial stamp paper of value BDT 300. The share and role of each partner of the joint venture shall be mentioned clearly in the agreement. <p>Key Professionals –</p> <p>Sr. Highway Engineer, Sr. Quality Control/Material Engineer, Sr. Pavement Engineer, Sr. Contract/ Procurement Specialist, Sr. Geotechnical Engineer, Sr. Road Safety Specialist, Sr. Technical Compliance Expert, Sr. Structural Engineer, Environmental specialist, Resettlement specialist, Highway Engineer and Asset management Specialist, other key, and non-key experts etc.</p>
18.	Other Details	:	<p>The REOI should specially include (along with certified English Translation if not in English):</p> <ol style="list-style-type: none"> Background of the firm-past and present status with achievements; Legal entitlements of the Company profile: including management, personnel, firm's specialty, performance, litigation history including debarred, and poor performance record (if any); General experience in consulting service; Similar work experience (Design/Design review, Construction supervision and Implementation of multi-lane dual carriageway, Bridge, Flyover in Highway in the last 10 years; Audit report for the last 5 years; Experience in SAARC/ASEAN; Experience working with Developments Partners (i.e., ADB, WB, JICA, OFID, LOC DFID, OECD, etc.) funded ICB contracts; List of the permanent professional staff who belong to the firm more than a year and the average working experiences (years) of relevant experts; Submission of EOI shall be in closed envelope mentioning the name and address of the applicant, EOI ref. no. & date addressing the EOI issuing authority in 2(Two) copies, 01(One) marked as "ORIGINAL" and other as "COPY" in separate envelope in the form of bound book, both the "ORIGINAL" and "COPY" shall be inside a single envelope. The applicant shall put the page number on EOI documents serially and authorized person shall sign on every page. The interested Consultants may obtain further information by applying to the Project Director during normal office hour preferably by email at pd.loc03@gmail.com The applicants shall not have the option of submitting their proposal electronically.
19.	Association with foreign firms is	:	Encouraged
20.	PROCURING ENTITY DETAILS	:	
20.	Name of Official Inviting EOI	:	Mohammad Abdul Halim
21.	Designation of Official Inviting EOI	:	Project Director (ACE, CC), RHD
22.	Address of Official Inviting EOI	:	Office of the Project Director (ACE, RHD) Improvement of Cumilla (Mainamati)-Brahmanbaria (Dharkhar) National Highway as 4-Lane National Highway, Room No-204, Block-G, Sarak Bhaban, Tejgaon, Dhaka
23.	Contact details of Official Inviting EOI	:	Phone: +8801730782915, E-mail: pd.loc03@gmail.com

Interested applicants should visit the site before submitting the EOI.
The client shall not be responsible for any costs or expenses incurred by the firms in connection with the preparation and submission of the EOI.
The procuring entity reserves the right to accept or reject any or all EOIs without assigning any reasons whatsoever.

(Mohammad Abdul Halim)

ID: 001050

Project Director (ACE, CC), RHD
Improvement of Cumilla (Mainamati)-Brahmanbaria (Dharkhar) National Highway as 4-Lane National Highway

Innovative Construction Materials Changing Building Landscape – Part II

Ultra-modern building materials are changing the way construction is done. Today's materials are environmentally friendly, reliable and durable, while airy and light-weight. We would be presenting 15+ such materials in this multi part article, this is the second part of three-part series:

Modern materials science has advanced noticeably in recent years. Today, there are truly revolutionary new building materials on the market. Innovative synthetic materials are being created — building materials that are lighter, stronger, and more environmentally friendly than traditional materials. These advances stimulate new architecture, totally different from what we are used to and more environmentally friendly.

Innovative materials: solving past problems

When cement cracks, it is a much more serious problem than many people think. It's not just about aesthetics, although that is certainly important. No, this problem is structural: water will get into the crack and begin to undermine the integrity of the concrete. In an environment with unstable temperatures, this problem is exacerbated by the effect of freezing and unfreezing. The water in the crack expands during freezing winters, pushing each side of the crack a little further apart. And then, when the ice unfreezes in spring, the water will seep deeper into the cement, deepening the crack and undermining the structural integrity of the building.

But what if concrete could heal itself? Or asphalt, or even metal? It would be possible to save billions of pounds on repairs and restoration work alone, not to mention reducing harm to the environment that comes from replacing damaged materials.

Some modern building materials will find their place, perhaps, in small niches, but a number of innovative construction materials have the potential to become widely used. Buildings with traditional brick and concrete structures will gradually become a thing of the past because humanity's requirements are obvious: we need eco-friendly, energy-efficient, durable, and lightweight buildings that will look nice and be highly functional at the same time.

The most innovative construction materials

It has been our endeavor to collect & present the most interesting and innovative materials in construction that are already in use and some that are promising concepts being tested within pilot projects. A number of building materials are not necessarily brand new ones — that is, the

technology was developed and tested a long time ago, but it is still used selectively and isn't widespread. New building materials are used both for decorative finishes and as core materials in building structures.

RICHLITE

Richlite is a durable paper composite material. It is made of waste paper which is pressed into hard, smooth panels that can be processed. Properly-sourced paper is far more environmentally friendly than many of the most common materials used in construction, and this is one of Richlite's main advantages. However, technology turns it into an amazing raw material which is so necessary for eco-construction.

Unlike stone or other hard surfaces, Richlite works the same way as dense hardwood, and it can be easily milled, sanded, and joined. Richlite is also a water-resistant and hygienic material that has low moisture absorption, high heat resistance and fire resistance. It doesn't hurt that it looks good, with a natural finish. As a result, it is used in many industries, from construction to furniture design. It's even used to produce musical instruments, replacing expensive ebony while providing high sound quality. Richlite has turned out to be a well-known material, loved by many architects as a finish for furniture, interior elements and creative structures.

LIQUID GRANITE

Artificial "liquid" stone is a special liquid construction mixture (made of 70% marble chips and 30% special additives and decorative filler) that is sprayed onto surfaces including concrete, brickwork, stone and asphalt. Due to its composition, the liquid congeals to form a tight seal, providing the surface with durability and an attractive appearance. Liquid granite is an eco-friendly material since it includes safe resins, natural marble chips, and mineral fillers. This composite material is often used in finishing works, for the manufacture or coating of individual structures or interior elements.

BENDING, FLEXIBLE CONCRETE

Research to improve the quality of concrete is one of the most popular pursuits in materials science, but this shouldn't come as a surprise.

These days, almost all construction is based on concrete. We already mentioned that one of the problems of concrete is its fragility if it chips and cracks. Additionally, while concrete is

extremely strong, it is limited in the load it can bear. Back in 2014, Singaporeans were able to not only improve the strength and reduce the weight of concrete by eliminating reinforcement in concrete structures, but they also added flexibility, which is not a characteristic property of traditional concrete.

Due to a unique additive, the new concrete ConFlexPave has gained flexibility and strength that is up to 3 times higher than that of traditional concrete. The thinnest polymer microfibres are mixed into the solution, distributing loads across an entire slab of concrete. This helps it to become as strong as metal and twice as strong as regular concrete when it is subjected to bending.

However, there is no limit to perfection, and other scientists continue to pursue flexible concrete. For example, specialists from Swinburne University have created concrete without using cement, but with the same outstanding characteristics in terms of flexibility and loads. This new kind of concrete is also eco-friendly as it incorporates fly ash and geopolymer composites — typical waste emissions from coal power plants. It also solidifies at room temperature which means there is no need for unsustainably high production costs. But most importantly, the new concrete is 400 times more flexible than traditional concrete, while maintaining the same level of strength. Geopolymers not only add to the flexural coefficient, but also improve the resistance to possible micro-fractures. The polymer fibres hold the structure under load even with cracks, so the new material can be used in earthquake-prone areas as the risk of collapse of buildings made of such concrete is minimised.

This revolutionary material is a concrete fabric in a roll. It's flexibility offers limitless design possibilities for architects and poses new challenges for construction.

The patented Concrete Canvas® solution is used for a wide range of construction tasks and more. It allows concrete structures to be built with minimal installation and specialist training. Installation is usually ten times faster: just unfold a prepared roll and add water.

This is an ancillary material that facilitates a number of pre-construction works and is also used in the preparation of infrastructure facilities: canals, repairing and protecting surfaces and slopes and strengthening reservoirs and pipes.

TRANSPARENT ALUMINUM

This material of the future is a physical reality. In simple terms, it is a transparent ceramic based on aluminium oxynitride (AlON). The main features of this material are scratch resistance and

durability. Transparent aluminium is much more durable than aluminosilicate glass (quartz) and it's also 85% harder than sapphire. In addition, it can withstand heat up to 2,100°C. It is resistant to radiation, acids, alkalis and water. Naturally, the material was immediately adopted by the military and optics industries. But in construction, it is used for impact-resistant windows, domes and other elements that require transparency and strength.
