Civil works for the construction of a burn center

Project ID No.: P145174

Project Name: Health Sector Reform

Country: Romania

Funding Agency: World Bank

Last date for submission: 17/04/2023

Project Details:

Specific Procurement Notice

Request for Bids

Works (without prequalification)

Employer: Ministry of Health – Project Management Unit

Project: Additional Financing for the Health Sector Reform – Improving Health System Quality and Efficiency Project

Contract title: Civil works for the construction of a burn centre and the reorganization of the hospital's medical flows for a better positioning and connection of the EAU, AICU and surgery departments for the Târgu Mure Emergency County Clinical Hospital Country”

Country: ROMANIA

Loan No.: 9253RO

RFB No: CW/A/2

1. The Romanian Government has received financing from the World Bank toward the cost of the Additional Financing for the Health Sector Reform – Improving Health System Quality and Efficiency Project and intends to apply part of the proceeds toward payments under the contract for “Civil works for the construction of a burn centre and the reorganization of the hospital's medical flows for a better positioning and connection of the EAU, AICU and surgery departments for the Târgu Mure Emergency County Clinical Hospital Country”.

2. The Ministry of Health –Project Management Unit now invites sealed Bids from eligible Bidders for the construction of a burn centre and the reorganization of the hospital's medical flows for a better positioning and connection of the EAU, AICU and surgery departments for the Târgu Mure Emergency County Clinical Hospital Country. This project aims to create a Burn Unit and to reorganize the medical flows within the existing main building. The new building (named Burn

center) will have 7 levels (basement, ground floor, 4 floors and 5 technical floor), a total area of 24.577 sqm and will be connected with the main building of the hospital for a workflow with the existing Emergency department (SMURD).

The new building will include the following functions: new burn center in accordance with the MoH Order no. 476/2017 with 15 beds of which 5 beds for critical patients; operating theatre with 25 operating rooms distributed over two floors; Intensive Care Unit with 44 beds; blood transfusion center, sterilization, training center, technical area, administrative and logistic areas and reconfiguration of the heliport.

The scope of the contract also includes the vertical rehabilitation of the hospital's main building in the elevators area, from the ground floor to the 9th floor.

For the purpose of the contract, the supply of medical equipment is not included.

The total duration of the works contract is 19 months.

3. The Bidding will be conducted through international competitive procurement using Request for Bids (RFB – without prequalification) as specified in the World Bank's "Procurement Regulations for IPF Borrowers- Procurement in Investment Projects Financing" fourth edition, issued in November 2020 ("Procurement Regulations"), and is open to all eligible Bidders as defined in the Procurement Regulations.

4. Interested eligible Bidders may obtain further information from Ministry of Health – Project Management Unit, (1-3, Cristian Popisteanu St., 2nd floor, room 236, Sector 1, Bucharest, Romania) Head of PMU Mihai Monoranu, e-mail: mihai.monoranu@ms.ro, Razvan Vieru Procurement consultant, e-mail: razvan.vieru@ms.ro, and inspect the Bidding document during office hours (09:00 am to 16:00 pm hours, local time) from Monday to Friday at the address given below.

5. The Bidding documents in English may be obtained by interested eligible Bidders upon the submission of a written application to the address below. The application will include the contact details of the company (name, address, telephone no, fax no, e-mail and the name of the responsible person that will receive the bidding documents). The bidding documents (Request for Bids and technical documentation) will be delivered electronically to the prospective bidder's representatives.

6. Bids must be delivered to the address below on or before April 17th, 2023, 11:00 hours local time (EET). Electronic Bidding will not be permitted and the bids received after the bid's submission date will be rejected. Bids will be opened in the presence of the Bidders' designated representatives and anyone who chooses to attend at the address below on April 17th, 2023, 11:00 hours local time (EET).

7. All Bids must be accompanied by a Bid Security in the amount of EUR 850,000.00 (eight hundred and fifty thousand Euros) or RON 4,200,00.00 (four million two hundred thousand RON).

8. Attention is drawn to the Procurement Regulations requiring the Borrower to disclose information on the successful bidder's beneficial ownership, as part of the Contract Award Notice, using the Beneficial Ownership Disclosure Form as included in the bidding document.

Construction works at the New Redemption Hospital

Project ID No.: P152359

Project Name: Ebola Emergency Response Project

Country: Liberia

Funding Agency: World Bank

Last date for submission: 06/04/2023

Project Details:

Invitation for Bids

Without Prequalification

Country : Liberia

Project : Ebola Emergency Response Project (EERP)

Grant No. : IDA D0080

Contract Title : Procurement of a Construction Firm to Complete

The Remaining Works at the
New Redemption

Reference No. : LR-MOHSW-346525-CW-RFB

The Government of Liberia desire to use portion of its Ebola Emergency Response Project's grant equivalent of US\$ 6 million towards the remaining construction works of the phase one design of the New Redemption Hospital located in Upper Caldwell, Montserrado County, hereinafter "the Project". The Project duration is only Eight (8) months. Primarily, the US\$6 million will be applied towards works that include concrete, metals, wood, plastics and composites, electrical services, plumbing services, thermal and moisture protection, and finishes. The Ministry of Health (MoH) is the implementation agency responsible for project execution and results monitoring.

The current rate of completion is estimated at 54% and the Ministry of Health intends to apply the proceeds to payments of a portion of the remaining works. Under this contract, the Borrower shall process the payments using payment methods, as defined in the World Bank's Disbursement Guidelines for Investment Project Financing. In addition to the above, there will be an opportunity to tender for the final completion of the phase one construction through the use of resources from another project under the portfolio.

This phase of the works will include exterior site improvements, heating ventilation and air conditioning/mechanical services, some electrical and general services. Depending on the

performance of the contractor, it is most likely that said contractor might have the advantage of qualifying for the implementation of the final phase one works.

The Ministry of Health now invites sealed Bids from eligible Bidders for **Portion of the remaining construction works at the New Redemption Hospital.**

The Bid will be conducted through the Open International Competitive Bidding procedures as specified in the World Bank's Procurement Guidelines: Procurement of Goods, Works and Non-Consulting Services under IBRD Loans and IDA Credits & Grants by World Bank Borrowers -Fourth Edition of November 2020 Procurement Guidelines"), and is open to all eligible bidders as defined in the Procurement Guidelines. In addition, please refer to paragraphs 1.6 and 1.7 setting forth the World Bank's policy on conflict of interest.

Interested eligible Bidders may obtain further information from the **Project Manager** and inspect the Bidding document during office hours at the **Project Implementation Unit, Ministry of Health** from **0900 to 1700 hours' GMT** on working days at the address given below.

Attention: Project Manager
World Bank Funded Health Portfolio
Project Implementation Unit
Ministry of Health
Oldest Congo Town
Tubman Boulevard
Monrovia, Liberia

A complete set of bidding documents in **English** may be purchased by interested eligible bidders upon the submission of a written application to the address below and upon payment of a nonrefundable fee of **US\$ 300.00 (Three Hundred United States Dollars)**. The method of payment will be as follow:

- Proceed to the PIU Finance and Admin Officer and make payment, with an official letter from the firm.
- The Finance and Administrative Officer will issue a receipt, signed and stamped
- Take the receipt to the Room 138 of the Ministry of Health Main Building on the ground floor where the Procurement Clerk will issue you a copy of the bidding document and register the name of the firm, amount paid, date of payment, and the purchase representative's name and phone number

Bids must be delivered to the address below on or before **14:00 hours GMT by Thursday, April 6, 2023**. Electronic Bidding **will not** be permitted. Late Bids will be rejected. Bids will be publicly opened in the presence of the Bidders' designated representatives and anyone who chooses to attend at the address below. Time and date for Bids opening is **14:15 hours GMT by Thursday, April 6, 2023**.

All Bids must be accompanied by a Bid Securing Declaration.

All Bids must be accompanied by a Sexual Exploitation and Abuse (SEA) and/or Sexual Harassment (SH) Declaration.

And all bids must be submitted into the tender box located on the ground floor of the Ministry of Health Opposite the Elevator sealed. All bid should be:

Project Details:

UNITED REPUBLIC OF TANZANIA

ARDHI UNIVERSITY

HIGHER EDUCATION FOR ECONOMIC TRANSFORMATION PROJECT (HEET)

Specific Procurement Notice

Request for Bids

Small Works

(One-Envelope Bidding Process)

Country: United Republic of Tanzania

Name of Project: Higher Education Economic for Transformation Project (HEET)

Contract Title: Construction of Buildings at Ardhi University-Main Campus

Loan No./Credit No./ Grant No.: IDA-68870-TZ

RFB Reference No.: PA/014/WB-HEET-P166415/306289/22-23/W/01

1. This request for Bid follows the General Procurement Notice for this Project that appeared in United Nations Development Business (UNDB) Issue No. **WB-OP0015674** of **28.11.2021**.
2. The Government of the United Republic of Tanzania has received financing from the World Bank toward the cost of the Higher Education for Economic Transformation (HEET) Project through the Ministry of Education Science and Technology (MoEST) and intends to apply part of the proceeds toward payments under the contract for Construction of Buildings at Block "L" Plot No. 3 at Ardhi University.
3. The Ardhi University (ARU) now invites sealed Bids from eligible Bidders for Building Contractors Class One for the Construction and Completion of Two buildings in each Lots. **Lot 1: Studio Building and Multipurpose Laboratory Buildings ("the Works") at Ardhi University-Main Campus.** The works must be completed within eighteen (18) months and **Lot 2: Construction of Workshops for Priority Degrees and Multipurpose Classrooms Buildings ("the Works") at Ardhi University-Main Campus.** The works must be completed within eighteen (18) months. **Table 1: Estimated Quantities for Major Items of Works**

SN	GENERAL DESCRIPTION OF LOTS	Storey	Floor Area (sq.m)
	LOT 1		
1	Studio Building	4	12075
2	Multipurpose Laboratory Building	4	2890
	LOT 2		
1	Workshops for Priority Degrees	3	5205
2	Multipurpose Classrooms Building	4	8093.3

4. Bidders have the option to Bid for any one or more lots. Bids will be evaluated lot-wise, taking into account discounts offered, if any, for combined lots. The contract(s) will be awarded to the Bidder or Bidders offering the lowest evaluated cost to the Employer for combined lots, subject to the selected Bidder(s) meeting the required qualification criteria for the lot or combination of lots as the case may be.

5. Bidding will be conducted through **National Competitive Procurement** using a Request for Bids (RFB) as specified in the World Bank's "**Procurement Regulations for IPF Borrowers**" [November 2020, Fourth Edition] ("Procurement Regulations"), and is open to all Bidders as defined in the Procurement Regulations.

6. Qualifications requirements for the works include experience as a prime contractor in the construction of at least one (1) work of similar nature and complexity in the last five (5) years with a value of **USD 6.8 million for Lot 1 and USD 5.9 million for Lot 2** or its equivalent per lot; (ii) Average Annual Turnover calculated as total certified payments received for contracts in progress or completed, within the last five (5) years of **USD 6.8 million for Lot 1 and USD 5.9 million for Lot 2** or its equivalent per lot; (iii) the minimum amount of liquid assets and/or credit facilities net of other contractual commitments of **USD 1.2 million for Lot 1 and USD 1.0 million for Lot 2** or its equivalent per lot. Regarding Award Criteria for Multiple lots, the Employer will aggregate minimum requirements for respective Lots/packages as specified under items 3.1, 3.2, 4.2(a), and 4.2(b) of Section III (Evaluation and Qualification Criteria). However, with respect to the specific experience under item 4.2 (a) of Section III - **Multiple Contracts option ii shall apply**. With regard to Key Personnel and Equipment, to be awarded multiple lots, the bidder must

present separate sets of equipment and separate teams for each lot/package. Further details and complete qualification requirements are provided in the Bidding Documents.

7. Interested eligible Bidders may obtain further information from **Secretary Tender Board, Ardhi University**, attention: **Procurement Specialist– HEET Project** during office hours **Administration Block, 3rd Floor, Room No.304** at 0900 to 1500 hours at the address given below.

8. A complete set of bidding Document(s) in English language and additional sets may be obtained by interested Tenderers online through the TANEPS system www.taneps.go.tz.

9. Replies to clarifications requested by bidders will not be emailed directly to bidders. All responses to clarifications will be posted in the above link on the **TANEPS** system and bidders are solely responsible for monitoring the system during the bidding process for all clarifications/amendments with respect to this IFB.

10. The site visit and Pre-Bid meeting shall take place at **Ardhi University-Main Campus Council Chamber** on **Friday 17th March, 2023** at **10:00 Hours**.

11. All bids should be submitted online through TANEPS at or before **10:30 Local Hours, Tuesday 11th April 2023**. Tenders will be opened promptly thereafter online. The tenderer will receive the notification of the tender opening results through their **TANEPS Account**. Bids not submitted online through TANEPS shall not be accepted for evaluation irrespective of the circumstances.

12. All Bids must be accompanied by a “Bid Security” in the form of “Unconditional Bank Guarantee” amounting to TZS 300,000,000 (Tanzanian Shillings Three Hundred Million Only) or its equivalent for Lot 1 and TZS 250,000,000 (Tanzanian Shillings Two Hundred Fifty Million Only) or its equivalent for Lot 2 from a reputable commercial bank or an irrevocable letter of credit issued by a commercial bank or Banker’s Cheque issued by a commercial bank. The Bid Security shall be clearly addressed to the Vice Chancellor and shall be valid for twenty-eight (28) calendar days beyond the bid validity period. i.e., 148 calendar days after the bid’s submission deadline.

13. Attention is drawn to the Procurement Regulations requiring the Borrower to disclose information on the successful bidder’s beneficial ownership, as part of the Contract Award Notice, using the Beneficial Ownership Disclosure Form as included in the bidding document.

14. The address(es) referred to above is, **Administration Block, 3rd Floor, Room No.304, Secretary ARU Tender Board, Box 35176, Dar es Salaam, Tanzania, Telephone No. +255 738357325**, Email address: **stb@aru.ac.tz**, Web site address: www.aru.ac.tz.

Transmission Line Upgradation Work

Project ID No.: PMD/PTDSSP/HPP/2079/80-02

Project Name: Piluwa - Parwanipur 132 kV Transmission Line Upgradation Work

Country: Nepal

Funding Agency: Asian Development Bank

Last date for submission: 16/05/2023

Project Details:

Loan No. 3943-NEP

Title: SASEC Power Transmission and Distribution System Strengthening Project

1. The Government of Nepal has received a financing from the Asian Development Bank (ADB) toward the cost of SASEC Power Transmission and Distribution System Strengthening Project. Part of this financing will be used for payments under the contracts named above. No nationality restrictions apply other than any restriction arising from ITB 4.8.

2. The Nepal Electricity Authority (“the Employer”) invites sealed bids from eligible Bidders for the Piluwa - Parwanipur 132 kV Transmission Line Upgradation Work.

3. Open competitive bidding (OCB) with international advertising will be conducted in accordance with ADB’s Single-Stage: Two-Envelope bidding procedure and is open to all Bidders without nationality restrictions.

4. Bidders shall have a minimum average annual turnover of US \$ 4.7 Million within the last three (3) years. Bidders are required to have at least one (1) contract that has been successfully or substantially completed within the last seven (7) years and that is similar to the proposed contract, where the value of the Bidder’s participation exceeds US\$ 1.9 Million.

5. To obtain further information and inspect the Bidding Documents, Bidders should contact:
Hetauda-Parwanipur-Pokhariya 132 kV Transmission Line Project

Project Management Directorate

Nepal Electricity Authority

Matatirtha, Kathmandu, Nepal

Telephone: +977-1-5164099, 9851313730

Electronic mail address: hpptp@nea.org.np

6. To purchase the Bidding Documents in English, eligible Bidders should:

- Write to address above requesting the Bidding Documents for PMD/PTDSSP/HPP/2079/80-02: Puluwa - Parwanipur 132 kV Transmission Line Upgradation Work. If the Bidder is purchasing the Bidding Document through their Local representative, an authorization letter shall be submitted indicating authority delegated to the local representative.
- Pay a non-refundable fee of NRs. 20,000.00 (inc. VAT) or an equivalent amount in US\$ by bank voucher to the Account No. 9990078101300014 (HETAUDA-PARWANIPURPOKHARIYA 132 KV PRASARAN LINE AYOJANA) at the Machhapuchchhre Bank Limited, Satungal, Kathmandu, Nepal.

7. Deliver your bid:

- To the address above
- On or before the deadline: 16 May 2023, 12:00 hours (Nepal Standard Time)
- Together with a Bid Security with amount indicated in Bidding Document Section 2 Bid

Data Sheet, Clause ITB 21.1 Technical Bids will be opened at the Project Manager's Office on 16 May 2023 at 12:30 hours (Nepal Standard Time) in the presence of Bidders' representatives who choose to attend, whereas the Financial Bids shall remain sealed and unopened and shall be placed locked. The Financial Bids of the only Technically Responsive and Qualified Bidders shall be opened after technical bids evaluation, whereas, the financial bids of those bidders whose technical bids are not responsive and qualified shall be returned unopened after the contract is awarded.

8. When comparing bids, ADB's Domestic Preference Scheme will be applied in accordance with the provisions stipulated in the Bidding Document.

Project Name: Corridor Vc - Ovcari - Tunnel Prenj - Mostar North

Country: Bosnia and Herzegovina

Funding Agency: EBRD

Last date for submission: 24/04/2023

Project Details:

Client Name: MOTORWAYS OF THE FEDERATION OF BOSNIA AND HERZEGOVINA LTD

ECEPP ID: 10949960

Procurement Exercise Name: Tunnel Prenj Supervision consultancy

Procurement Exercise Description: Tunnel Prenj Supervision consultancy

Type of Procurement: Consultancy

Procurement Method: Consultancy Two Stage Open

Business Sector: Transport

Notice Type: Invitation for Expression Interest

INVITATION FOR EXPRESSION INTEREST

1. Funding Details

The above-named client intends to use part of the proceeds of a loan from/grant administered by the European Bank for Reconstruction and Development (the Bank) towards the cost of the above-named contract(s).

Additional financing information:

No Other Information Provided.

2. Information on the Procurement Exercise

Contracts will be subject to the Bank's Procurement Policies and Rules and are open for participation for firms from any country, unless otherwise specified in the procurement documents.

The type of contract and the procurement method is stated above. A full description of the procurement exercise is available within the documentation and is available free of charge in ECEPP.

The documentation will include such information as: detailed technical and financial requirements; any information on lots; the expected outcome; eligibility and qualification

requirements; contract start date; planned contract duration; any response requirements; any other relevant information.

This procurement exercise will be conducted using the EBRD Client E-Procurement Portal (ECEPP). Prospective participants can access the procurement exercise by clicking on the below link or on the 'Access Opportunity' button (if viewing this notice on ECEPP). Registered participants may log in and access the documentation immediately and unregistered participants may do so after completing a brief registration:

<https://ecepp.ebrd.com/respond/35X34S9XVB>

3. Other Information

No Other Information Provided.

4. Client Address

The client's address is for information only. To register interest, access the documentation using the available links. Participants must use the ECEPP message centre for communication with the client.

Supervision Services for the construction and commissioning of an ABP plant

Project ID No.: P118518

Project Name: Moldova Agriculture Competitiveness Project

Country: Moldova

Funding Agency: World Bank

Last date for submission: 28/03/2023

Project Details:

REQUEST FOR EXPRESSIONS OF INTEREST

2-nd DEADLINE EXTENSION

(CONSULTING SERVICES – FIRMS SELECTION)

REPUBLIC OF MOLDOVA

Moldova Agricultural Competitiveness Project (MACP)

Credit No. 6749-MD

Assignment Title: Design, supply and install Supervision Services for the construction and commissioning of an Animal By-product processing plant in Moldova

Reference No. (as per Procurement Plan): MD-CAPMU-336129-CS-QCBS

The Republic of Moldova has received an Additional Financing (AF) from the International Development Association in the amount of US\$15.0 million toward the cost of the Moldova Agriculture Competitiveness Project (MAC-P) and intends to apply part of the proceeds for consulting services.

The consulting services (“the Services”) include supervision of the civil, mechanical, and electrical works for the construction of the proposed ABP plant. The Consultant will have the role and attributions of the Project Manager as defined in the World Bank “Plant: Design, Supply, and Installation” Conditions of Contract. In addition, the Consultant will assist the Client related to all aspects concerning contract administration and environmental and social (E&S) requirements specific to the Project. The consultant appointed as Supervision Consultant will be required to familiarize themselves with the local legislation in force, Financing Documents related to the Project and other World Bank key documents which govern lending policies and practices including, but not limited to:

- WB Standard Procurement Document, Request for Bids Plant, Design, Supply and Installation (January 2021)
- WB Environmental and Social Policy

- WB Procurement Policies & Rules
- Other related WB Policies, Strategies or Procedures as relevant to the Project.

The assignment is expected to start on Q3 2023 and have duration of 18 month plus 12 months of Defects Liability Period.

The detailed Terms of Reference (TOR) for the assignment can be found at the following link: <https://www.capmu.md/wp-content/uploads/2023/01/MACP-ToRs-supervision-ABP.pdf>.

Please access the following link: <https://www.capmu.md/en/2023/01/2541/> for advertisement.

The Consolidated Agricultural Projects' Management Unit on behalf of Ministry of Agriculture and Food Industry now invites eligible consulting firms ("Consultants") to indicate their interest in providing the Services. Interested Consultants should provide information demonstrating that they have the required qualifications and relevant experience to perform the Services. The consultant must be a registered firm or association/joint venture of firms (corporate services are required) having experience, technical and organizational capabilities, and qualified personnel to complete the assignment.

The following shortlisting criteria are:

1. Core business and years in business:

- at least 10 years of experience in engineering and consulting services.

1. Qualifications in the field of the assignment:

- at least 2 construction supervision assignments in ABP facilities construction, slaughterhouses area each with a value equivalent EURO 400,000 successfully and substantially (at least 80%) completed either alone or as a member of a JV with a minimum participation of 50% during the last 10 years starting 1st of January 2013 at the deadline for submission of proposal.
- at least 1 completed project during the last 10 years in supervision of works under World Bank conditions of contract or other internationally recognized conditions of Contract (in the region, country) with a minimum amount of 30% own input.

1. Professional and financial strength:

- the number of permanent staff of the consultant must be at least 10 for each of the last 5 years starting 1st of January 2018 at the deadline for submission of proposals.
- the average annual turnover of the consultant must be at least EUR 500,000 equivalent for each of the last 3 years starting 1st of January 2020 at the deadline for submission of proposals.

The attention of interested Consultants is drawn to Section III, paragraphs, 3.14, 3.16, and 3.17 of the World Bank's "Procurement Regulations for IPF Borrowers" July 2016, Revised November 2017, and August 2018 ("Procurement Regulations"), setting forth the World Bank's policy on conflict of interest.

Consultants may associate with other firms to enhance their qualifications but should indicate clearly whether the association is in the form of a joint venture and/or a sub-consultancy. In the case of a joint venture, all the partners in the joint venture shall be jointly and severally liable for the entire contract, if selected.

The Consultant will be selected in accordance with the Quality and Cost-Based Selection method set out in the above-mentioned "Procurement Regulations".

Further information can be obtained at the address below during office hours 09:00 to 17:00 Moldovan time.

Expressions of interest must be submitted in a written form to the address below (in person or by e-mail).

Supervision of Civil Work

Project ID No.: P173734

Project Name: Climate Resilient Water Services Project

Country: Kyrgyz Republic

Funding Agency: World Bank

Last date for submission: 30/03/2023

Project Details

REQUEST FOR EXPRESSIONS OF INTEREST

(CONSULTING SERVICES – FIRMS SELECTION)

KYRGYZ REPUBLIC

CLIMATE RESILIENT WATER SERVICES PROJECT (CRWSP)

CREDIT NO.: 7081-KG

GRANT NO.: E009-KG

Assignment Title: Preparation of Detailed Design, Assistance in Procurement and Supervision of Civil Works (For the Kara- Unkur -Sai River in the Jalal-Abad oblast, the Shakhimardan River in the Batken oblast and the Kurshab River in the Osh oblast)

Reference No. (as per Procurement Plan): CREWSP/CS/C.1.2/QCBS/1

The Kyrgyz Republic has received financing from the World Bank toward the cost of the Climate Resilient Water Services Project (CRWSP) and intends to apply part of the proceeds for consulting services.

The consultancy services ("Services") shall include the preparation of detailed design, preparation of tender documents for construction works, construction supervision and quality control (i.e., having the role as Engineer - FIDIC) and support in the implementation of component 2 institutional strengthening for service delivery, water resources management and dam safety (subcomponent 2.2 and 2.4)

In order to effectively carry out the assignment, the Consultant shall organize 3 (three) separate teams of consultants to work in parallel to prepare the detailed design for the following irrigation schemes:

1. Rehabilitation and modernization of the Kurshab River irrigation system
2. Rehabilitation and modernization of the Shakhimardan Irrigation System
3. Rehabilitation and modernization of irrigation system of Kara-Ungur River

Task Period: The expected duration of the task is 60 months from the date of the contract.

The detailed Terms of Reference (TOR) for the assignment are attached to this request for expressions of interest.

The Water Resources Service under the Ministry of Agriculture of the Kyrgyz Republic now invites eligible consulting firms ("Consultants") to indicate their interest in providing the Services. Interested Consultants should provide information demonstrating that they have the required qualifications and relevant experience to perform the Services. The shortlisting criteria are:

1. General work experience of at least 7 (seven) years in the fields of modernization of existing irrigation and drainage schemes and dams (surveys including geological, design, engineering, construction supervision, and quality control)
2. Experience in at least 3 (three) projects in the fields of modernization of existing irrigation and drainage schemes (surveys including geological, design, engineering, construction supervision, and construction supervision and quality control)
3. Experience in at least 3 (three) projects financed by international financing institutions and other development partners

Key Experts will not be evaluated at the shortlisting stage.

Interested Consultants should refer to paragraphs 3.14, 3.16 and 3.17 of Section III of the Procurement Regulations for IPF Borrower November 2020 (the "Procurement Regulations") of the World Bank, which sets out the World Bank's conflict of interest policy.

Consultants may associate with other firms in the form of a joint venture or a sub-consultancy to enhance their qualifications (the type of association shall be clearly indicated in the proposal). The Consultants may submit their Expressions of Interest as individual firms or in the form of a joint venture or sub-consultancy. However, the qualification of the sub-consultant will not be evaluated when forming the shortlist. In case of joint venture, all the members of the joint venture should individually meet shortlisting criteria and shall be jointly and severally liable for the entire assignment.

The Consultant will be selected in accordance with the QCBS (Quality Cost Based Selection) method set out in the Procurement Regulations.

Additional information can be obtained at the address below during business hours from 09:00 to 18:00 (local time).

Expressions of interest must be delivered in writing to the address below (in person or by e-mail) by **March 30, 2023, 16:00 hours (local time)**.

Construction Supervision and Contract Management for Community Infrastructure Upgrading

Project ID No.: P164330

Project Name: Greater Accra Resilient and Integrated Development Project

Country: Ghana

Funding Agency: World Bank

Last date for submission: 30/03/2023

Project Details

MINISTRY OF WORKS AND HOUSING

GREATER ACCRA RESILIENT AND INTEGRATED DEVELOPMENT PROJECT

(IDA CREDIT No. 64100 GH)

Consulting Service for the Design Review, Construction Supervision and Contract Management for Community Infrastructure Upgrading in Nima, Akweteyman and Alogboshie

REQUEST FOR EXPRESSIONS OF INTEREST

(CONSULTING SERVICES – FIRMS SELECTION)

Reference No. GH-MZIC-328330-CS-QCBS

The Ministry of Works and Housing (MWH) has received financing from the World Bank toward the cost of the Greater Accra Resilient and Integrated Development Project, and intends to apply part of the proceeds for consulting services.

The Project is being implemented through five inter-related Components, namely:

1. Climate Resilient Drainage and Flood Mitigating Activities;
2. Solid Waste Management Capacity Improvements;
3. Participatory Upgrading of Targeted Flood Prone Low-Income Communities and Local Government Support;
4. Project Management; and
5. Contingent Emergency Response Component (CERC)-COVID-19 Emergency Preparedness and Response Project.

The objective of the assignment is to undertake expedited design review, contract management and construction supervision of upgrading works in Akweteyman, Alogboshie and Nima.

The consulting services (“the Services”) is to prepare design review, contract management and construction supervision for Construction of Storm Water Drains, Secondary Drains, Solid Waste Container Platforms, Improvement in vehicular and pedestrian access, Extension of Security Lights and Water Supply Network in Nima (Ayawaso East Municipality), Akweteyman and Alogboshie (Okaikoi North Municipality).

The duration of the assignment is 28 months, covering expedited design review, construction supervision and Defects Liability Period with level of effort at 84 professional staff-months. The assignment is expected to start in July, 2023.

The detailed Terms of Reference (TOR) for the assignment can be found at the GARID Project Website: www.garid-accra.com **and PPAWebsite: <http://tenders.ppa.gov.gh/eois/>** and hardcopies may be obtained from GARID Project Coordinating Unit, PWD Head Office, Ministries within office hours and email at the addresses below.

The Ministry of Works and Housing now invites eligible consulting firms (“Consultants”) to indicate their interest in providing the Services. Interested Consultants should provide information demonstrating that they have the required qualifications and relevant experience to perform the Services. The shortlisting criteria are:

1. The firm must be a legally registered as a civil engineering consulting firm;
2. The Core business must be in undertaking Engineering designs and Construction supervision;
3. The firm must be, at least, 10 years in business;
4. Must have experience in undertaking integrated engineering designs for drains, solid waste improvement, water supply network and improvement in vehicular and pedestrian access in urban slum area over a period of not less than 10 years;
5. Should be registered and in good standing with a relevant engineering governing body;
6. Must have experience in preparing Preliminary and detailed engineering designs for Community Infrastructure Upgrading.
7. Must have past experience in undertaking Contract Management and Construction Supervision in low-income communities; and
8. Evidence of Technical and Managerial Capability.

Key Experts will not be evaluated at the shortlisting stage.

The attention of interested Consultants is drawn to Section III, paragraphs, 3.14, 3.16, and 3.17 of the World Bank’s “Procurement Regulations for IPF Borrowers” 4th Edition November, 2020 (“Procurement Regulations”), setting forth the World Bank’s policy on conflict of interest. In addition, please refer to the following specific information on conflict of interest related to this assignment as per paragraph 3.17 of the Procurement Regulations. Any false declaration will result in disqualification.

Consultants may associate with other firms to enhance their qualifications, but should **indicate clearly** whether the association is in the form of a **joint venture and/or a sub-consultancy**. In the case of a joint venture, all the partners in the joint venture shall be jointly and severally liable for the entire contract, if selected.

A Consultant will be selected in accordance with the Quality and Cost-Based Selection (QCBS) Method set out in the Procurement Regulations.

Further information can be obtained at the address below during office hours **09:00 to 4:30 p.m.** local time.

Expressions of interest must be delivered in a written form to the address below (in person, or by email) by **March 30, 2023**.

Read only Checkbox Checked	No

Additional Information

Possibility of contract extension

In general, ADB consulting contracts may be extended to a reasonable degree when doing so is justified within ADB's core procurement principles. Any extensions are subject to operational needs, consultant performance, and continued availability of funds.

Specific considerations for this assignment, if any, are discussed here:

The consulting services contract may extend 6-12 months.

Individuals who have appropriate authorization to legally reside and work in the country of the assignment but do not hold the nationality of that country may also be considered as national consultants.

Objective and Purpose of the Assignment

Construction supervision of construction projects implemented under the Sustainable tourism development project in Dadal soum, Khentii aimag including:

(i) CKTC Visitor Center

(ii) Landfill facility

(iii) Other small facilities

(iv) Sanitation facility/system

Employer's supervision duties shall be fulfilled under the consulting services.

Consultancy Services for The Feasibility, Detailed Design for GIRAV Feeder Roads (173km)

Project ID No.: P173070

Project Name: Gambia Inclusive and Resilient Agricultural Value Chain Development Project (GIRAV)

Country: Gambia

Funding Agency: World Bank

Last date for submission: 03/04/2023

Project Details:

Project Title: Gambia Inclusive and Resilient Agriculture Value Chain Development Project (GIRAV).

Grant Number: IDA-D9190

Project ID NO: P173070

Assignment Title: Consultancy Services for the Detailed Design and Pre-tender/ Pre-Contract Services for GIRAV Feeder Roads.

Procurement Method: Quality Cost Base Selection (QCBS)

Reference No. (As per Procurement Plan): GM-CPCU-330486-CS-QCBS

The **Government of the Gambia through the Ministry of Agriculture** has received financing from the World Bank toward the cost of the **Gambia Inclusive and Resilient Agriculture Value Chain Development Project (GIRAV)**, and intends to apply part of the proceeds for consulting services.

The consulting services include Consultancy Services for the Detailed Design and Pre-tender/ Pre-Contract Services for GIRAV Feeder Roads.

The detailed Terms of Reference (TOR) for the assignment can be collected from the address bellowed.

Mr. Abdoulie Touray Project coordinator, Central Project Coordinator Unit, 14 Marina Parade Banjul. Tel: 9968841/3971756. Email: Abdoulie.touray@cpcu.gm /molpha.sanyang@cpcu.gm

The **Central Project Coordination Unit – Ministry of Agriculture** now invites eligible consulting firms (“Consultants”) to indicate their interest in providing the Services. Interested Consultants should provide information demonstrating that they have the required qualifications and relevant experience to perform the Services. The Shortlisting Criteria are:

1. Information about firm’s capacity and number of years in offering services/business of design of feeder road.

2. At least 3 of consulting experience in the areas of feasibility and design of feeder roads or its equivalent.
3. Technical and managerial organization of the firm and number of key staffs.
4. Specific Experience in relation to similar assignments.

The attention of interested Consultants is drawn to Section III, paragraphs, 3.14, 3.16, and 3.17 of the World Bank's "Procurement Regulations for IPF Borrowers" (July 1st, 2016, revised in November 2017, August 2018 and January 2020) ("Procurement Regulations"), setting forth the World Bank's policy on conflict of interest.

Consultants may associate with other firms to enhance their qualifications, but should indicate clearly whether the association is in the form of a joint venture and/or a sub-consultancy. In the case of a joint venture, all the partners in the joint venture shall be jointly and severally liable for the entire contract, if selected.

A Consultant will be selected in accordance with the Quality Cost Base Selection (QCBS) set out in the Procurement Regulations.

Further information can be obtained at the address below during office hours **08:00 to 16:00 GMT Mondays to Thursday and from 8: 00am to 12:30pm GMT on Fridays.**

Expressions of interest must be delivered in a written form to the address below by hard copy on or before **3rd April, 2023**, to the address below clearly marked **Expression of Interest for Consultancy Services for the Detailed Design and Pre-tender/ Pre-Contract Services for GIRAV Feeder Roads.**

Detailed Design and Supervision of Mesurado Industrial & Artisanal Landing Facilities and other fisheries Infrastructures

Project ID No.: P172012

Project Name: Liberia Sustainable Management of Fisheries Project

Country: Liberia

Funding Agency: World Bank

Last date for submission: 17/04/2023

Project Details:

REQUEST FOR EXPRESSION INTEREST

(REOI)

Loan/ Credit No. IDA V3100

PROJECT ID: P172012

Subject: Request for Expression of Interest (REOI) for Provision of Consulting Services for Preparation of Detailed Design and Supervision of Mesurado Industrial & Artisanal Landing Facilities and other fisheries Infrastructures to be Constructed

Reference No.: LR-NAFAA-290545-CS-QCBS

Assignment Title: To Prepare Detailed Design and Supervision of Mesurado Industrial & Artisanal Landing Facilities and other fisheries Infrastructures to be Constructed

The government of Liberia through the National Fisheries and Aquaculture Authority (NaFAA) has received support from the World Bank Group toward the implementation of the “Liberia Sustainable Management of Fisheries Project (LSMFP)”, and intends to utilize part of the funds for the construction of an industrial fish export terminal and an artisanal fish landing site at Mesurado Pier in Monrovia. The artisanal fisheries landing site will be equipped with post-harvest processing facilities, fish market facilities and store facilities for the sale of vessel engines and nets, engine repair shops, toilets and water supply facilities.

The Government of Liberia through NaFAA is soliciting the services of a qualified Consultant Firm or Consultant Consortia for detailed design and supervision of Mesurado Industrial & Artisanal Landing Facilities and other fisheries Infrastructures to be constructed with funds from the World Bank. The general objective of the assignment is to contract a consulting firm to undertake studies, prepare engineering designs, bidding documents, including drawings, Technical Specifications and Bills of Quantities (BOQ) herein termed as “Design Phase” and, upon satisfactory performance, supervise the construction contract executed by the Contractor and,

in addition, provide the associated services during the required Defects Liability Period (DLP) hereafter termed as “Supervision Phase”.

The National Fisheries and Aquaculture Authority (NaFAA) now invites eligible consulting firms to indicate their interest in performing the Services. Interested firms must provide information indicating that they are qualified to perform the services (brief corporate profile, description of similar assignments, experience in similar conditions, availability of appropriate skills, etc.)

The shortlisting criteria includes the following qualifications:

Qualification Requirements and Composition of Study Team:

The Firm must show evidence of minimum fifteen (15) years’ general experience in civil engineering field, construction works, architectural design, managing construction and supervision. To demonstrate required competence and adequacy to successfully complete the assignment, the firm must have specific in-depth and recent experience in at least one similar assignment in the last 10 years- preparing detailed technical designs and supervision of industrial port construction. The firm specific experience in the design, construction and supervision of fishing ports, fish post-harvest infrastructures in the past 5 years is an added advantage. Experience with the World Bank or Donor Funded Project is required.

The firm will assemble a multi-disciplinary team of technicians which must include the key experts as stated below, though the consultant may propose additional expertise as required as non-key experts; however, their qualifications will not be considered in the evaluation of proposal.

Key 1: Team Leader – Ports Engineer (1): S/he shall have a post-graduate degree in Civil Engineering, and a membership in a recognized professional association. S/he shall have a minimum of 20 years of overall professional experience in civil engineering field, construction works, architectural design, managing construction and supervision. To demonstrate required competence and adequacy to successfully complete the assignment, the Team Leader (TL) must have specific in-depth and recent experience in at least one similar assignment in the last 10 years-port works, design and construction of rubble mound breakwaters, dredging and reclamation works. S/he shall have experience in risk assessment and devising mitigation measures for risk reduction. The TL specific experience in the design, construction and supervision of fishing ports, fish post-harvest infrastructures in the past 5 years is an added advantage. Experience with the World Bank or Donor Funded Project as a TL is required.

Key 2: Architect/Civil Engineer (1): S/he shall have at least a post-graduate degree in Architecture and/or Civil Engineering, and a membership in a recognized professional association. S/he shall have a minimum of 20 years of overall professional experience in civil engineering field, construction works, architectural design, managing construction and supervision. To demonstrate required competence and adequacy to successfully complete the assignment, the civil engineer must have specific in-depth and recent experience in at least one similar assignment in the last 10 years- in port work of a relevant nature. The Civil Engineer

specific experience in the design, construction and supervision of fishing ports, fish post-harvest infrastructures in the past 5 years is an added advantage. His/her tasks and responsibilities shall include but not be limited to the providing technical support to the TL on the matters related to planning and design of the shore-based infrastructure.

Key 3: Infrastructure Engineer (1): S/he shall have at least a Graduate degree in Civil Engineering, and a membership in a recognized professional association. The infrastructure engineer shall have a minimum of 15 years working experience. To demonstrate required competence and adequacy to successfully complete the assignment, the infrastructure engineer must have specific in-depth and recent experience in at least one similar assignment in the last 10 years- in port work of a relevant nature. The infrastructure engineer with specific experience in the design, construction and supervision of fishing ports, fish post-harvest infrastructures in the past 5 years is an added advantage. His/her tasks and responsibilities shall include assisting the TL in all matters relating to the design of the shore-based infrastructure components.

Key 4: Electrical Engineer (1): S/he shall have at least a Graduate degree in Electrical Engineering and a membership in a recognized professional association. The electrical engineer shall have a minimum of 15 years of general working experience in the engineering field. To demonstrate required competence and adequacy to successfully complete the assignment, the infrastructure engineer must have specific in-depth and recent experience in at least one similar assignment in the last 10 years- in port work of a relevant nature. The electrical engineer specific experience in fishing ports, fish post-harvest infrastructures in the past 5 years is an added advantage.

Key 5: Mechanical Engineer (1): S/he shall have at least a Graduate degree in Mechanical Engineering, and a membership in a recognized professional association. The mechanical engineer shall have minimum 10 years of general working experience in the engineering field. To demonstrate required competence and adequacy to successfully complete the assignment, the infrastructure engineer must have specific in-depth and recent experience in at least one similar assignment in the last 10 years- in port work of a relevant nature. The mechanical engineer specific experience in fishing ports, fish post-harvest infrastructures in the past 5 years is an added advantage.

Key 6: Sanitation Engineer (1): S/he shall have at least a Graduate degree in Sanitation or Water Engineering, and a membership in a recognized professional association. The sanitation engineer shall have minimum 10 years of general working experience in the engineering field. To demonstrate required competence and adequacy to successfully complete the assignment, the infrastructure engineer must have specific in-depth and recent experience in at least one similar assignment in the last 10 years- in port/marine work of a relevant nature. The sanitation engineers specific experience in fishing ports, fish post-harvest infrastructures in the past 5 years is an added advantage

(*) Key Positions that will be included in the technical proposal evaluation (based on the detailed CVs of the proposed respective team members).

The detailed Terms of Reference (TOR) for the assignment can be found at the following websites:

a) www.nafaa.gov.lr

b) www.emansion.gov.lr

The attention of interested individual Consultants is drawn to Section III, paragraphs, 3.14, 3.16, and 3.17 of the World Bank's "Procurement Regulations for IPF Borrowers" dated July 2016, revised November 2017, August 2018, and November 2020 setting forth the World Bank's policy on conflict of interest. Please refer to paragraph 3.17 of the Procurement Regulations on conflict of interest related to this assignment which is available on the Bank's website at <http://projectsbeta.worldbank.org/en/projects-operations/products-and-services/brief/procurement-newframework>.

A Consultancy Firm will be selected in accordance with the **Quality And Cost-Based Selection Method (QCBS)** set out in the Procurement Regulations.

Further information can be obtained at the address below during office hours, i.e. 0900 to 1600 hours GMT.

Expressions of interest must be delivered in a written form to the address below (in person, or by mail, or by fax, or by e-mail) by **Monday April 17, 2023 @ 4:00PM GMT**

How are offshore wind turbines assembled?

Offshore wind farms produce more power and how they are fixed in place, but what about the construction of these behemoth windmills?

Except in rare cases like the floating turbines mentioned above, much of the construction of these wind farms is done on location offshore, including for larger turbines that cannot be mounted on a floating platform. Installation of these structures is typically done by a jack up rig like Wärtsilä's Wind Turbine Installation Vessel innovation, shown below. This vessel has two cranes at 1500t and 40t, and can jack with 8000 tons of cargo on board.

According to Wärtsilä, "The unit is equipped with a diesel-electric power plant: electric power for propulsion and other services is derived from six generator sets located in three separated compartments. They provide total onboard electrical power of 34.4MW and feed two 6600V high-voltage propulsion switchboards equipped with vacuum circuit breakers." The vessel has a DP2 dynamic positioning system with four azimuth thrusters and three tunnel thrusters to keep it steady during open water installations.

What does all that mean? It means dynamically positioned installation vessels can lift huge pieces of equipment quickly and safely, staying steady in wind and

currents. In shallower water, backup rigs can also put legs directly on the seafloor and lift themselves out of the water, creating a stable installation platform.

With the cost of wind power dropping, more offshore wind farms will be on the radar. Orders are increasing for specialty installation vessels to build, maintain, and decommission wind farms. There's a lot more in store for wind power and the vessels and crews that support it.

Offshore Wind Farm Components

A complete wind farm is consisting of a certain numbers of wind power generating systems and the power transmission system.

Wind Power Generating System

A single wind power generating system includes the **Blades, Wind turbine, Wind Turbine Tower** (tower sections and tower internals) and The **Foundation Part**.

Wind Turbine & Blades

The principle of aerodynamics can be used in many ways, which the design and development of wind turbine is one of them. For common people, it seems like the wind pushes the wind turbine blades to rotate, which creates electric powers. Actually, the rotation of wind turbine blades is caused by the pressure difference between the blade front side pressure and back side pressure which is formed when the wind blows. The pressure difference will create lift force, which makes the wind turbine rotate and drives the rotation of electric generator rotors through wind turbine gearbox. Therefore, wind turbine and blades can turn wind kinetic energy (air kinetic energy) into the kinetic energy of wind turbine electric generator rotors, and then the kinetic energy of rotors of wind turbine electric generators will be turned into electric energy.

Wind Turbine Towers

The wind turbine towers for wind power generating systems are made of quality steel plate. The design of wind turbine towers must consider many different aspects, such as the rigidity and stability of wind turbine tower in the extreme environments, like storm, typhoon, etc. In order to make the wind turbine blades is positioned at the height with richest wind resources, the height of offshore wind turbine towers is determined by the wind situation and water situation onsite, and the diameter of wind turbine blades.

Inside wind towers, there are also many types of wind tower internals. In order to transport the electric back to underground grid, cables are placed inside wind turbine towers. For further operation, there are lights, platform, ladders, etc.

Wind Tower Foundation Parts

For offshore wind energy generating systems, wind turbine tower foundation is used to fix the complete wind energy generating systems. There are four types of offshore wind turbine tower foundations: gravity wind tower foundation, Monopile wind tower foundation, tripod fixed bottom wind tower foundation, floating structure wind tower foundation.

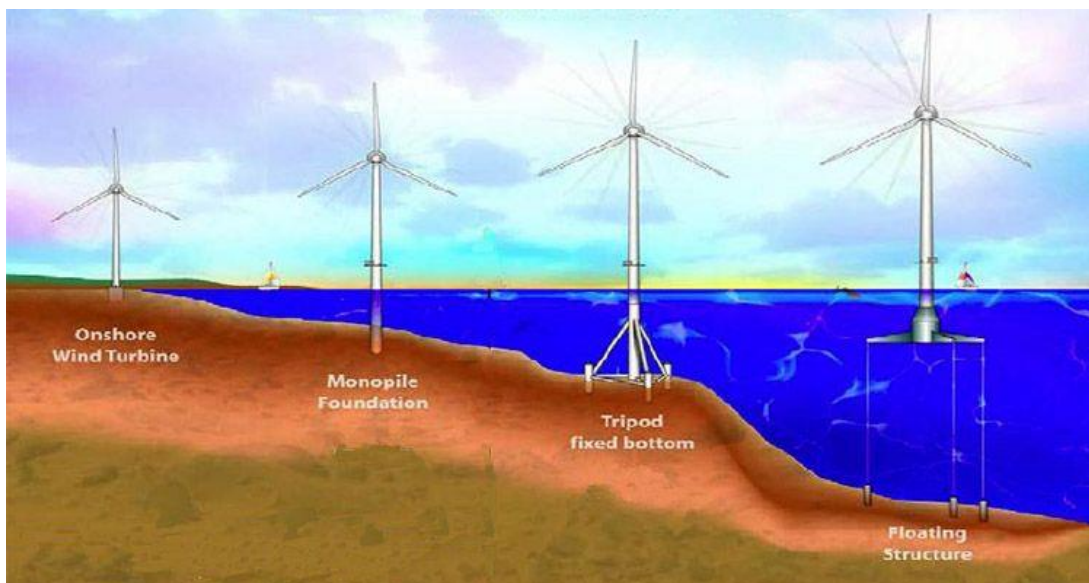

Different types of offshore wind turbine tower foundation application ranges:

Gravity Foundation: this type of wind tower foundation used for land based offshore wind farms. It uses huge amount of concrete to fix the wind tower.

Monopile Foundation: this type of wind tower foundation used for offshore wind farms located at the water areas shallower than 30 meters. Used the methods like piling, drilling, jetting to install the monopile base in the sea floor.

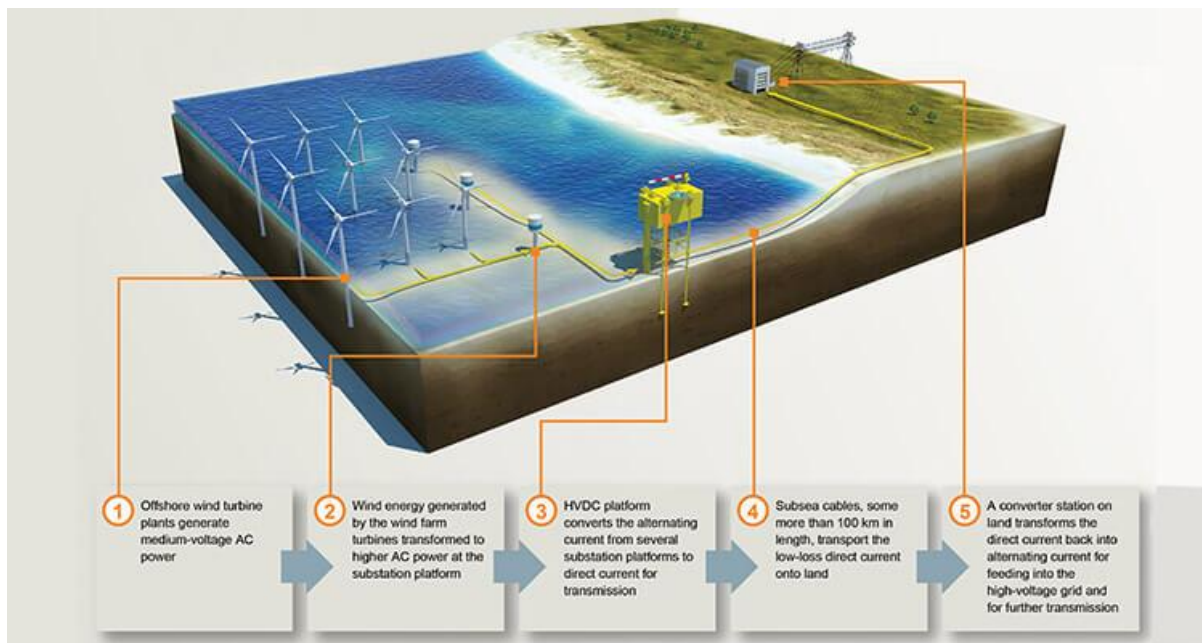

Tripod Foundation: this type of wind tower foundation used for offshore wind farms located at the water areas between 30 meters and 60 meters. It is much more stable than monopile wind tower foundations, but the cost of tripod wind tower foundation is also higher.

Float Foundation: this type of wind tower foundation used for offshore wind farms located at the deep-water areas deeper than 60 meters. As the stability of float wind tower foundation is lower than monopile foundation and tripod foundation, so it can only be used in the water areas with small waves.

Power Transmission System

So far, the majority of offshore wind farms adopts HVAC power transmission systems, which consist of the following parts: ac power circuit, offshore booster station and reactive power compensation equipment, submarine cable, onshore power substation and reactive power compensation equipment. Through the ac power circuit, the electric power generated by each wind power generating system has been collected together. Then, use the offshore booster station to rise the electric voltage and transmit the electric power to the onshore power substation.

How to Build an Offshore Wind Farm

The construction of offshore wind farm can also be called as the construction of offshore wind power generating system. An offshore wind farm is consisting of several offshore wind power generating systems. So offshore wind farm construction process is the repeat of offshore wind power generating system construction process.

Offshore Wind Power Generating System Construction Platform

The construction of offshore wind power systems can be managed through jack up barges or floating cranes.

Installation Methods of Offshore Wind Power Generating System

According to the Opti-OWECS report released by Europe offshore wind farm construction projects, there are three installation methods to install offshore wind power generating systems: jack-up installation, semi-submersible installation and float-over installation. The choice of these three installation methods mainly depends on the depth of the water area, the capacity of the lifting machine and the load capacity of barges.

Offshore Wind Power Generating System Installation Process

The installation process of offshore wind power systems can be divided into two parts: the construction of *wind tower foundation* and the installation of wind tower and wind turbine. Typically, the tower internals and cables will be installed first onshore, and then, transport the whole set to the offshore wind farm, and install the wind power system parts in the following order: wind tower foundation part, each tower sections, wind turbine, and wind turbine blades.
